this groundbreaking book Gary Null debunks the commonly accepted belief that drugs and chemotherapy are the only cures for cancer and explores the alternative treatments that most mainstream doctors will never discuss with their patients Dr Null asserts that there are foods and supplements that boost the body's immune system and can actually prevent and reverse cancer Did you know that eating lemons and melons can help balance your body's pH which will help prevent and treat cancer You knew that fiber is important for a healthy diet but did you know that it lowers the risk of breast colorectal uterine and prostate cancers Have you heard of maitake mushrooms which kill cancer cells by enhancing the activity of T helper cells In addition to diet Dr Null discusses important supplements and herbs and cutting edge therapies you may never have heard of With twenty five cancer fighting recipes and testimonials from individuals who have found health through Dr Null's methods this book could save your life

Mammoth Books presents Political Conspiracies and Mind Control Jon E. Lewis, 2012-07-26 Everyone loves a good conspiracy From the Jonestown massacre and the Philadelphia experiment to Nazi gold and the moon landing there are umpteen conspiracy theories that even the least sceptical of us can recall and discuss at length Entire libraries have been furnished and internet forums filled with this cultural phenomenon in which complex threads are weaved together to explain

seismic events in our recent history Indeed there are few things more captivating than a well research convincing argument that flies in the face of perceived knowledge So follow Jon E Lewis down the rabbit hole and look at our political system from a different perspective Controversies include Bar Codes Can it really be that these codes apparently indicate 666 the mark of the devil and his coming cashless economy The Bilderberg Group An annual polite discussion on current affairs or a forum in which policy with worldwide implications is shaped Bohemian Grove To some this is a private camping site dubbed the greatest men s party on earth while other s regard it as opportunity to win friends in high places and to secure jobs or contracts What really goes on at Bohemian Grove when the elite gather Bush Bin Laden Connection Is it possible that George W Bush made errors of judgement pre 9 11 because of his family s ties to the Bin Laden s Is it possible that 9 11 could have been prevented Cancer Is there a cancer cure which is being suppressed by pharmaceutical companies and the medical establishments to keep their multibillion dollar industry thriving Club of Rome Is it true that the Club of Rome wish to use war disease and famine as the main ways to eliminate useless eaters Jonestown Was this a mass suicide or was it mass murder intended to cover up mind control experiments 1969 Moon Landing Hoax Were all the Apollo landings an astronomical hoax Nazi Gold Did US authorities turn a blind eye to 3 million stolen by its own troops Philadelphia Experiment Did the US Navy cover up invisibility experiments which went hideously wrong Ronald Reagan Did George Bush seek to assassinate Ronald Reagan The Royal Institute of International Affairs To what extent do they influence world agendas Star Gate What is the truth behind the CIA s psi operations in the 1970s Naturally There's Always Hope Neil McKinney,2008-06 Conspiracy Encyclopedia Thom Burnett,2006 Conspiracies are everywhere they are the lifeblood of politics business and our daily lives this truly international and all embracing encyclopedia explains the details of the world s major popular conspiracies listing them chronologically under subject matter and cross referencing them continually because so many conspiracy theories interact on some level Conspiracies are often international in their sweep and their impact the brutal stabbing of Julius Caesar the conspiracy which has defined political assassinations ever since plunged the Roman Empire into civil war which then engulfed much of the known western world More recently the Cambridge spies Philby Blunt MacLean and Burgess helped Russia throughout WWII and then re defined the Cold War afterwards Philby s defection casting a 30 year shadow over CIA Anglo American relations though conspiracies define our everyday lives there is no body of serious academic research to understand their role nature or defining characteristics Most historians prefer to adhere to the cock up theory of history in which everything happens by accident or incompetence Although this view is favoured by academics and historians it is rejected by a large part of the general public who prefer the evidence of their own lives However they consume their media what they see is a mesh of conspiracies that define the texture of their everyday lives often for the worst Most people believe that there is a grain of truth in most theories about conspiracies this book is for them
