*When Aseneth Met Joseph* Ross Shepard Kraemer, 2015 This is the study

of an anonymous ancient work usually called Joseph and Aseneth which narrates the transformation of the daughter of an Egyptian priest into an acceptable spouse for the biblical Joseph whose marriage to Aseneth is given brief notice in Genesis. Kraemer takes issue with the scholarly consensus that the tale is a Jewish conversion story composed no later than the early second century C E. Instead she dates it to the third or fourth century C E and argues that although no definitive answer is presently possible it may well be a Christian account. This critique also raises larger issues about the dating and identification of many similar writings known as pseudepigrapha. Kraemer reads its account of Aseneth's interactions with an angelic double of Joseph in the context of ancient accounts of encounters with powerful divine beings including the sun god Helios and of Neoplatonic ideas about the fate of souls. When Aseneth Met Joseph demonstrates the centrality of ideas about gender in the representation of Aseneth and by extension offers implications for broader concerns about gender in Late Antiquity.

The field is assessed in some 470 essays discussing individuals, Martin Buber, Gluckel of Hameln, literature, Genesis, Ladino, literature, thought and beliefs, Holiness, Bioethics, practice, Dietary Laws, Passover, history, Venice, Baghdadi Jews of India, and arts and material culture, Synagogue Architecture, Costume. The emphasis is on Judaism rather than on Jewish studies more broadly. *History of Jewish Philosophy* Daniel Frank, Oliver Leaman, 2005-10-20. Jewish philosophy is often presented as an addendum to Jewish religion rather than as a rich and varied tradition in its own right, but the *History of Jewish Philosophy* explores the entire scope and variety of Jewish philosophy from philosophical interpretations of the Bible right up to contemporary Jewish feminist and postmodernist thought. The links between Jewish philosophy and its wider cultural context are stressed, building up a comprehensive and historically sensitive view of Jewish philosophy and its place in the development of philosophy as a whole. Includes detailed discussions of the most important Jewish philosophers and philosophical movements. Descriptions of the social and cultural contexts in which Jewish philosophical thought developed throughout the centuries. Contributions by 35 leading scholars in the field from Britain, Canada, Israel, and the US. Detailed and extensive bibliographies. **Midrash VaYosha** Rachel S. Mikva, Rachel Mikva, 2012. Rachel S. Mikva undertakes a close examination of *Midrash vaYosha*, a medieval rabbinic text which explicates the Song at the Sea, Ex 15:1-18, and the events of the exodus from Egypt leading up to that climactic moment. Relatively short midrashim focusing on a brief biblical narrative or theme were composed in large numbers during the medieval period, and their extant manuscripts are sufficient in number to demonstrate the great popularity of the genre. Based on early manuscripts, two different recensions are transcribed and translated with significant annotation, exploring variants, parallels, exegetical significance, and literary style. A thorough historical analysis suggests that the midrash was performed as explication of the Torah reading at a certain point in its development, part of the gradual attenuation of live Targum. As *Midrash vaYosha* leaves the synagogue, its narrative dimension grows tremendously, yielding significant insight.

into the development of medieval Jewish exegesis      **Jews, Christians, Muslims** John Corrigan, Frederick Denny, Martin S Jaffee, Carlos Eire, 2016-01-08 Thematic examination of monotheistic religions The second edition of *Jews Christians Muslims A Comparative Introduction to Monotheistic Religions* compares Judaism Christianity and Islam using seven common themes which are equally relevant to each tradition Provoking critical thinking this text addresses the cultural framework of religious meanings and explores the similarities and differences among Judaism Christianity and Islam as it explains the ongoing process of interpretation in each religion The book is designed for courses in Western and World Religions      **Hidden Wisdom** Guy Stroumsa, 2005-06-01 This book investigates the problem of esoteric traditions in early Christianity their origin and their transformation in Patristic hermeneutics in the West as well as in the East It argues that these traditions eventually formed the basis of nascent Christian mysticism in Late Antiquity These esoteric traditions do not reflect the influence of Greek Mystery religions as has often been claimed but rather seem to stem from the Jewish background of Christianity They were adopted by various Gnostic teachings a fact which helps explaining their eventual disappearance from Patristic literature The eleven chapters study each a different aspect of the problem including the questions of Gnostic and Manichaean esotericism This book will be of interest to all students of religious history in Late Antiquity Revised and extended paperback edition Originally published in 1996 Please click here for details      *The Greatest Mirror* Andrei A. theologian Calvin and the natural philosopher and physician William Harvey Boyle analyzes the particular experiences and notions of these influential authors while she contextualizes them in community She shows how they shared a conviction although distinctly understood of the human spirit as endowed by or designed by a divine source of everything animate An original and erudite work that utilizes a rich and varied array of primary source material this volume will be of interest to intellectual and cultural historians of religion philosophy literature and medicine
