The Mauritian Paradox Ramtohul, Ramola, Eriksen, Thomas Hylland, 2018-04-12 Speaking of Mauritius as an economic miracle has become a cliché and with good reason Its development since Independence in 1968 can easily be narrated as a rags to riches story In addition it is a stable democracy capable of containing the conflict potential inherent in its complex ethnic and religious demography This book brings together some of the finest scholarship domestic as well as foreign on contemporary Mauritius offering perspectives from constitutional law cultural studies sociology archaeology economics social anthropology

and more While celebrating the indisputable and impressive achievements of the Mauritian nation on its fiftieth birthday this book is far from toothless Looking back inevitably implies looking ahead and in order to do so critical self scrutiny is essential to be able to learn from the mistakes of the past The contributors raise fundamental questions concerning a broad range of issues from the dilemmas of multiculturalism to the marginal role of women in public life from the question of constitutional reform and the continued problem of corruption to the slow destruction of Mauritius joy and pride namely the beauty and purity of its natural scenery Taking stock of the first fifty years this book also looks ahead to the next fifty years giving some cues as to where Mauritius can and should aim in the next decades *Administrative Report H* ,1985 **Developing**

Capacity for Community Governance of Natural Resources Theory & Practice Brian Child & Deborah Wojcik,2014-05 Community based natural resource management CBNRM is a compelling concept that combines community custodianship of natural resources with sustainable development and poverty reduction However there is a large gap between the conceptual promise and actual performance of CBNRM CBNRM is complex and challenging and one of the major challenges is what we call micro governance how to replace the ubiquitous problem of elite capture within communities with genuine participation and equitable benefit sharing This book is for people want to understand and implement CBNRM governance more effectively including graduate students scholars and practitioners It is targeted most specifically at the scholar practitioner who wants to draw upon micro governance theory to know why and how to work with communities to implement sound local institutions the perspectives and resources presented have been developed and tested over many years working with CBNRM communities in southern Africa the book offers convincing evidence for preferring participatory democracy over representational forms of governance and discusses how to manage the scale paradox that economies and ecologies are better managed at larger scales but that larger representational institutions invariably forfeit critical public goods like participation and equitable benefit sharing the book s purpose is to provide the reader with the practical tools to operationalize good governance at the village level in ways that are theoretically sound It provides the reader with theoretical insights and practical lessons about micro governance in the context of CBNRM tools for designing and implementing conceptually rigorous community constitutions that enable communities to govern themselves fairly and effectively and resources for developing the management and monitoring systems necessary to protect these conditions

Everyday humanitarianism in Cambodia Anne-Meike Fechter, 2023-10-24 Faced with the scale of global challenges such as poverty and inequality one question is where to start Humanitarian efforts can only ever have limited reach Among all of human suffering whom should we support And what shapes our choices Such questions are at the core of this book Through an ethnographic account of moralities it traces how everyday humanitarian practitioners challenge entrenched

values of what matters upending the notion that the large scale is inherently important and even questioning what large means in the first place Instead these practitioners typically aim to create a difference in the life of a particular person situating their limited actions within pervasive poverty
