Landmark Essays on Writing Across the Curriculum

Charles Bazerman, David R. Russell, 2020-11-25 Rhetoric as a general teaching while preaching locality of action and guidelines for handling that locality has tended from the beginning to serve as a universality It has offered a generalized techne with only limited categories appropriate for all discursive situations at least for those that were not excluded from the realm of rhetoric Nonetheless from its beginnings rhetoric limited its interests to certain activity fields such as law government religion and most important the educators of leaders in these activity fields This collection presents landmarks showing where the Writing Across the Curriculum WAC and Writing in the Disciplines WID movements have gone They have opened up a number of prospects that were impossible to see when rhetoric and composition confined their gaze to relatively few discursive activities This suggests that the rhetorical landscape is becoming more complex and interesting as well as more responsive to life in the complex differentiated societies that have emerged in the last few centuries This volume will reveal to scholars and researchers a range of possibilities for the study of disciplinary discourse and its teaching and suggest to them new prospects for the future and for the better

Publishing Northanger Abbey: Jane Austen and the Writing Profession Margie Burns, 2021-03-02 Jane Austen was not born a global icon It took years for her to break into print Her first publication came after almost a decade of ups and downs and her first novel out was not the first she sent to a publisher Up to a point lovers of Jane Austen probably know the publication history of *Northanger Abbey* written first published last Austen wrote and revised the novel early tried to get it published then wrote all her other novels and ended up having *Northanger Abbey* come out with *Persuasion* her last finished work What we don't know would fill a book this book The objective is to make her early publishing history clear bringing to light information and original sources not drawn upon before Beyond her lifetime clarifying her publishing history also sheds light on an under regarded novel The early novel first titled *Susan* then *Catherine* then *Northanger Abbey* has sometimes been dismissed by critics but it was never unimportant to Jane Austen herself *Publishing Northanger Abbey: Jane Austen and the Writing Profession* is for all lovers of Jane Austen in and out of universities libraries and fan clubs including readers now staying home with their favorite novelists during the pandemic

Building Writing Center Assessments That Matter Ellen Schendel,William J. Macauley,2012-10-16 No less than other divisions of the college or university contemporary writing centers find themselves within a galaxy of competing questions and demands that relate to assessment questions and demands that usually embed priorities from outside the purview of the writing center itself Writing centers are used to certain kinds of assessment both quantitative and qualitative but are often unprepared to address larger institutional or societal issues In *Building Writing Center Assessments that Matter* Schendel and Macauley start from the kinds of assessment strengths already in place in writing centers and they build a framework that can help writing centers satisfy local needs and put them in useful dialogue with the larger needs of their institutions while staying rooted in writing assessment theory The authors begin from the position that tutoring writers is already an assessment activity and that good assessment practice rooted in the work of Adler Kassner O'Neill Moore and Huot already reflects the values of writing center theory and practice They offer examples of assessments developed in local contexts and of how assessment data built within those contexts can powerfully inform decisions and shape the futures of local writing centers With additional contributions by Neal Lerner Brian Huot and Nicole Caswell and with a strong commitment to honoring on site local needs the volume does not advocate a one size fits all answer But like the modeling often used in a writing consultation examples here illustrate how important assessment principles have been applied in a range of local contexts Ultimately *Building Writing Assessments that Matter* describes a theory stance toward assessment for writing centers that honors the uniqueness of the writing center context and examples of assessment in action that are concrete manageable portable and adaptable
