Small Wars And Skirmishes 190218:

Reconsidering the American Way of War Antulio J. Echevarria II, 2014-05-28 Challenging several longstanding notions about the American way of war this book examines US strategic and operational practice from 1775 to 2014. It surveys all major US wars from the War of Independence to the campaigns in Iraq and Afghanistan as well as most smaller US conflicts to determine what patterns if any existed in American uses of force. Contrary to many popular sentiments Echevarria finds that the American way of war is not a strategic apolitical or defined by the use of overwhelming force. Instead the American way of war was driven more by political considerations than military ones and the amount of force employed was rarely overwhelming or decisive. As a scholar of Clausewitz Echevarria borrows explicitly from the Prussian to describe the American way of war not only as an extension of US policy by other means but also the continuation of US politics by those means. The book's focus on strategic and operational practice closes the gap between critiques of American strategic thinking and analyses of US campaigns. Echevarria discovers that most conceptions of American strategic culture fail to hold up to scrutiny and that US operational practice has been closer to military science than to military art. Providing a fresh look at how America's leaders have used military force historically and what that may mean for the future this book should be of interest to military practitioners and policymakers students and scholars of military history and security studies and general readers interested in military history and the future of military power.

Phases of Terrorism in the Age of Globalization Asafa Jalata, 2016-01-26 Phases of Terrorism in the Age of Globalization considers terrorism as an aspect of the capitalist world system for almost five centuries. Jalata's research reveals that terrorism can emerge from above as state terrorism and below as subversive organizations or groups.

Colonial Armies in Africa, 1850-1918 Peter Abbott, 2006 In the second half of the 19th century European led columns began to fan out across the African continent from their coastal footholds smashing whatever forces could be brought against them no matter how brave or determined the latter were. The process began at different dates in different parts of the continent but much of the main activity was concentrated into the two decades between 1881 and 1902 subsequently but accurately nicknamed the Scramble for Africa. By 1914 the Europeans had overrun the greater part of the continent and remarkably had managed to do so without clashing with each other in the process. Conflict between them only occurred after 1914 because what was essentially a European power struggle was inevitably projected on to the African landscape. The armies responsible for this extraordinary period of expansion have seldom been surveyed as a whole and never in the organisational detail attempted here. As well as including an outline of the principal campaigns of the period military historian Peter Abbott examines in detail the structure dress and armament of the colonial armies fielded by the Congo Free State the Belgian Congo Great Britain France Germany Italy Portugal and Spain and includes in his text an unprecedented amount of order of battle material. Illustrations include 229 drawings of soldiers 58 other illustrations and two maps.

the 19th century the eastern Savannah now divided between the countries of Nigeria Niger Mali and Cameroon was one of the most neglected parts of the African continent and yet at the same time one of the most culturally sophisticated During this period warfare among the peoples of the eastern Savannah and in particular the three most significant native states the Sokoto Caliphate the ancient kingdom of Bornu and the somewhat less ancient state of Bagirmi was largely dominated by cavalry and a significant proportion of these mounted troops were armored This groundbreaking book covers the period that began with the Sokoto jihad in 1804 and ended with the extinction of the Savannah states by the European colonial powers at the turn of the 20th century In addition to providing a brief outline history of the three states it examines in detail the arms equipment and methods of warfare used by their armored knights and infantry and includes in addition sections on their horses artillery flags fortifications and clothing It is illustrated throughout with contemporary photographs and engravings

Small Wars and Skirmishes 1902-18 Edwin Herbert,2003 This is the first of a two volume series covering early twentieth century colonial campaigns in Africa Asia and the Americas ranging from Mexico and the Philippines to Africa and the North West Frontier The text covers the political background to each conflict or police action and provides a brief campaign narrative accompanied by details of the organisation tactics dress and arms of the protagonists There are 254 line drawings of warriors and soldiers and 34 maps of the various scenes of conflict
