Are We Smart Enough to Know How Smart Animals Are? Frans de Waal, 2016-09 What separates your mind from that of an animal Is it the ability to design tools a sense of self or the grasp of past and future In recent decades these claims have eroded or even been disproven outright by a revolution in the study of animal cognition Waal explores both the scope and the depth of animal intelligence offering a firsthand account of how science has stood traditional behaviorism on its head by revealing how smart animals really are and how we've underestimated their abilities for too long
