Smart Regulation

Sanja Bogojevic

Smart Regulation:

Verso la smart regulation in Europa Federico Basilica, Fiorenza Barazzoni, 2013 Better Regulation Stephen Weatherill, 2007-06-28 The discourse of Better Regulation is a hot topic intimately associated with the drive for cost savings and a more efficient economy In the UK and in the EU rule makers have lately endeavoured to achieve a more satisfactory balance between the demands of proper protection from market failure and inequity on the one hand and commercial freedom and the potential for innovation on the other But who is the regulator listening to and what effect does this have on the regulatory pattern governing the integrating EU market What is best practice in the matter of regulatory assessment The essays in this collection explore these and other questions and will foster greater understanding of UK and EU regulation the accountability issues involved and problems of enforcement It is no coincidence that since efforts to construct a Constitution for Europe have stalled the attention of policy makers politicians and the business community has turned instead to the quest for Better Regulation or perhaps it might be said a Better European Union **Better Regulation in Europe: Ireland 2010** OECD, 2010-11-02 This report maps and analyses the core issues which together make up effective regulatory management for Ireland laying down a framework of what should be driving regulatory policy and reform in the future *Understanding Regulation* Robert Baldwin, Martin Cave, Martin Lodge, 2011-10-28 Regulation is a key concern of industries consumers citizens and governments alike Building on the success of the first edition *Understanding Regulation* Second Edition provides the reader with an introduction to key debates and discussions in the field of regulation from a number of disciplinary perspectives looking towards law economics business political science sociology and social administration The book has been extensively revised and updated to take into account the significant developments and events of the past decade Containing several new chapters it has been completely restructured into seven parts covering the fundamental issues regarding regulation different types of regulatory strategies rules and enforcement quality and evaluation regulation at different levels of government network issues and concluding thoughts Drawing on cross sectoral and cross national examples this book reviews the central questions of regulation and reflects upon those contentious issues that affect the design and operation of regulatory institutions Amongst other topics it discusses better regulation enforcement self regulation risk regulation cost benefit analysis and more utility regulation oriented topics such as price setting It will be an essential resource for academics researchers and graduates across the social sciences studying regulation **Better Regulation in EU Contract Law** Esther van Schagen, Stephen Weatherill, 2019-12-26 This book is the first to provide a critical investigation of EU better regulation from the perspective of EU contract law The Commission's New Deal for EU Consumers is one of the first EU contract law initiatives to implement both the newly revised Better Regulation Guidelines and the newly introduced combined evaluation of multiple Directives in the form of a fitness check This offers an opportunity to explore difficulties and best practices at a national level as demonstrated by experience with the EU's Unfair Terms Directive Both the fitness check

and the impact assessment accompanying the New Deal should facilitate critical reflection on the design of EU contract law This book addresses key questions Do impact assessments favour business interests at the expense of a high level of consumer protection Is the evaluation of EU contract law and the analysis in impact assessments in line with scientific standards Has the fitness check revealed difficulties and success stories with EU measures at national level and thereby facilitated an in depth scrutiny of the design of EU contract law Ultimately is the potential of better regulation being realised

Rules, Rules, Rules, Rules G. Bruce Doern, Robert Johnson, 2006-01-01 Rules Rules Rules Rules considers various sectors where rule making spans all or most of the four levels of jurisdiction international federal provincial and city or local in areas such as food safety investment and trade forestry drinking water oil and gas and emergency management The EU Better Regulation Agenda Sacha Garben, Inge Govaere, 2018-05-17 Better Regulation in the EU is a perennial and topical question which has important implications for the future direction of EU law While actions directed at improving the quality and accessibility of EU regulation are not novel in recent years the Better Regulation Agenda has significantly affected the structural organisation and day to day operation of the EU legislative process Yet many questions about the future of the Agenda remain not least in light of Brexit Exploring the Better Regulation Agenda and its relation to the overall EU legal and political order necessitates an integrated interdisciplinary approach This edited volume presents insights from economics political science and legal scholarship Furthermore to allow full understanding it examines institutional practice where the Agenda is made and shaped on a daily basis Hence the book features contributions from the perspective of the work of the main EU institutions the European Commission the Parliament the Council and the Court of Justice This results in a seminal overview of the subject of interest to scholars and practitioners alike **Better Regulation Practices across the**

European Union OECD, 2019-03-19 Laws and regulations affect the daily lives of businesses and citizens High quality laws promote national welfare and growth while badly designed laws hinder growth harm the environment and put the health of citizens at risk This report analyses practices to improve the quality of laws Ill-health Canada Michael McBane, Canadian Centre for Policy Alternatives, 2005 **Handbook of Environmental Protection and Enforcement** Andrew Farmer, 2012-05-23 Environmental Enforcement Authorities EEAs sometimes called Environmental Protection Agencies EPAs are the regulatory monitoring and enforcement agencies of national state provincial and local governments worldwide responsible for implementing monitoring and enforcing environmental legislation This one of a kind authoritative handbook offers a comprehensive assessment of the principles and best practice of EEAs throughout the world with a focus on Europe the USA Canada Australia east and south east Asia and various other OECD transition and developing countries The book assesses structures expertise and capacity financing permitting monitoring inspection enforcement and EEA performance and future directions It also identifies best practice for creating or improving EEAs It offers substantial information for industry on the nature of compliance with environmental regulations as well as vital information for professionals consultants

NGOs and researchers working at the interface between government EEAs and industry Legislation in Europe Ulrich Karpen, Helen Xanthaki, 2017-02-23 This book provides a practical handbook for legislation Written by a team of experts practitioners and scholars it invites national institutions to apply its teachings in the context of their own drafting manuals and laws Analysis focuses on general principles and best practice within the context of the different systems of government in Europe Questions explored include subsidiarity legitimacy efficacy effectiveness efficiency proportionality monitoring and regulatory impact assessment Taking a practical approach which starts from evidence based rationality it represents essential reading for all practitioners in the field of legislative drafting **Legislative Drafting for the EU** Helen Xanthaki, 2024-04-12 Legislative Drafting for the EU calls for reform in the design of EU legislation to bolster its strength in political social and economic spheres The book offers technical guidance on how to achieve such reform through drafting and underlines the importance of accessible communication to create collective ownership of the regulatory aims **Getting Results** Great Britain. Parliament. House of Commons. Regulatory Reform Committee, 2008 Getting Results The Better Regulation Executive and the impact of the Regulatory Reform Agenda fifth report of session 2007 08 Vol 2 Oral and written Evidence *Setting the Standard* Christopher Tollefson, Fred Gale, David Haley, 2009-05-01 Setting the Standard chronicles the emergence and implications of an ambitious experiment in civil society led global governance the Forest Stewardship Council Drawing on a pioneering case study of this negotiation process this book explores the challenges associated with implementing the FSC s global vision on the ground Indeed the establishment of an FSC standard for British Columbia was achieved only after difficult and protracted negotiations at the regional national and global levels This important work also undertakes a detailed comparative analysis of FSC standards and standard setting processes elsewhere and grapples with the broader implications for global governance and regulatory theory Innovation in Energy Law and Technology Donald Zillman, Lee Godden, LeRoy Paddock, Martha Roggenkamp, 2018-03-16 There are few existential challenges more serious in the twenty first century than energy transition As current trends in energy production prove unsustainable for the environment energy security and economic development innovation becomes imperative Yet with technological challenges come legal challenges Zillman Godden Paddock and Roggenkamp assemble a team of experts in their field to debate how the law may have to adapt to changes in the area What regulatory approach should be used How do we deal with longer term investment horizons and so called stranded assets such as coal fired power stations And can a form of energy justice be achieved which encompasses human rights sustainable development goals and the eradication of energy poverty With a concept as unwieldy as energy innovation it is high time for a text tackling changes which are dynamic and diverse across different communities and which provides a thorough examination of the legal ramifications of the most recent technological changes This book which be of vital importance to lawyers policy makers economists and the general reader **European Data Protection: Coming of Age** Serge Gutwirth, Ronald Leenes, Paul de Hert, Yves Pouillet, 2012-11-26 On 25 January 2012

the European Commission presented its long awaited new Data protection package With this proposal for a drastic revision of the data protection framework in Europe it is fair to say that we are witnessing a rebirth of European data protection and perhaps its passage from an impulsive youth to a more mature state Technology advances rapidly and mobile devices are significantly changing the landscape Increasingly we carry powerful connected devices whose location and activities can be monitored by various stakeholders Very powerful social network sites emerged in the first half of last decade processing personal data of many millions of users Updating the regulatory network was imminent and the presentation of the new package will initiate a period of intense debate in which the proposals will be thoroughly commented upon and criticized and numerous amendments will undoubtedly be proposed This volume brings together some 19 chapters offering conceptual analyses highlighting issues proposing solutions and discussing practices regarding privacy and data protection In the first part of the book conceptual analyses of concepts such as privacy and anonymity are provided The second section focuses on the contrasted positions of digital natives and ageing users in the information society The third section provides four chapters on privacy by design including discussions on roadmapping and concrete techniques The fourth section is devoted to surveillance and profiling with illustrations from the domain of smart metering self surveillance and the benefits and risks of profiling The book concludes with case studies pertaining to communicating privacy in organisations the fate of a dataprotection supervisor in one of the EU member states and data protection in social network sites and online media This volume brings together some 19 chapters offering conceptual analyses highlighting issues proposing solutions and discussing practices regarding privacy and data protection In the first part of the book conceptual analyses of concepts such as privacy and anonymity are provided The second section focuses on the contrasted positions of digital natives and ageing users in the information society The third section provides four chapters on privacy by design including discussions on roadmapping and concrete techniques The fourth section is devoted to surveillance and profiling with illustrations from the domain of smart metering self surveillance and the benefits and risks of profiling The book concludes with case studies pertaining to communicating privacy in organisations the fate of a data protection supervisor in one of the EU member states and data protection in social network sites and online media

Handbook of Research on Digital Transformation Management and Tools Pettinger, Richard, Gupta, Brij B., Roja, Alexandru, Cozmiuc, Diana, 2022-06-30 Advances in digital technologies continue to impact all areas of life including the business sector Digital transformation is ascertained to usher in the digitalized economy and involves new concepts and management tools that must be considered in the context of management science and practice For business leaders to ensure their companies remain competitive and relevant it is essential for them to utilize these innovative technologies and strategies The Handbook of Research on Digital Transformation Management and Tools highlights new digital concepts within management such as digitalization and digital disruption and addresses the paradigm shift in management science incurred by the digital transformation towards the digitalized economy Covering a range of

important topics such as cultural economy online consumer behavior sustainability and social media this major reference work is crucial for managers business owners researchers scholars academicians practitioners instructors and students

Emissions Trading Schemes Sanja Bogojevic, 2013-07-04 Over the last four decades emissions trading has enjoyed a high profile in environmental law scholarship and in environmental law and policy Much of the discussion is promotional preferring emissions trading above other regulatory strategies without however engaging with legal complexities embedded in conceptualising scrutinising and managing emissions trading regimes The combined effect of these debates is to create a perception that emissions trading is a straightforward regulatory strategy imposable across various jurisdictions and environmental settings This book shows that this view is problematic for at least two reasons First emissions trading responds to distinct environmental and non environmental goals including creating profit centres substituting bureaucratic control of resources and ensuring regulatory compliance This is important as the particular purpose entrusted to a given emissions trading regime has as its corollary a particular governance structure according to which the regime may be constructed and managed and which trusts the emissions market the state and rights in emissions allowances with distinct roles Second the governance structures of emissions trading regimes are culture specific which is a significant reminder of the importance of law in understanding not only how emissions trading schemes function but also what meaning is given to them as regulatory strategies This is shown by deconstructing emissions trading discourses that is by inquiring into the assumptions about emissions trading as featuring in emissions trading scholarship and in debates involving law and policymakers and the judiciary at the EU level Ultimately this book makes a strong argument for reconfiguring the common understanding of emissions trading schemes as regulatory strategies and sets out a framework for analysis to sustain that reconfiguration

Handbook of Regulatory Impact Assessment Claire A. Dunlop, Claudio M. Radaelli, 2016-04-29 Regulatory impact assessment RIA is the main instrument used by governments and regulators to appraise the likely effects of their policy proposals This pioneering Handbook provides a comparative and comprehensive account of this tool situating it in the relevant theoretical traditions and scrutinizing its use across countries policy sectors and policy instruments Comprising six parts university researchers international consultants and practitioners working in international organizations examine regulatory impact assessment from many perspectives which include research traditions in the social sciences implementation regulatory indicators and effects tools and dimensions such as courts and gender sectoral case studies including environment enterprise and international development international diffusion in the European Union EU Americas Asia and developing countries appraisal training and education With its wealth of detail and lessons to be learned the Handbook of Regulatory Impact Assessment will undoubtedly be of great value to practitioners and scholars working in governance political science and socio legal studies

Regulating Services in the European Union Vassilis Hatzopoulos, 2012-04-12 Across the EU services are the cornerstone of the modern economy accounting for over 70% of

national GDPs and over 90% of new jobs created. Fostering trade in services has accordingly become central to the EU's vision for developing the internal market. Yet regulating services and their international trade is notoriously complex and controversial. For years the EU's efforts were limited to sector-specific regulation in key areas until the adoption of the general Services Directive in 2006. Since then, confronted by the limited success of traditional legal intervention, the EU's attentions have shifted to alternative forms of regulation. This book looks back on the historical development of services law, discusses the nature of impediments to trade in services in the EU, and explains the basic rules and principles applicable to such trade. It also examines the recent development of alternative regulatory methods such as networking, the use of common standards, private regulation, self-regulation, open methods of coordination, and administrative cooperation. Taking a broad perspective and placing services regulation within its economic context, the author offers a thorough evaluation of current regulatory methods alongside the alternative methods which could be deployed. The book is the first to provide an overview of the regulation of services in the EU.

Thank you very much for reading **Smart Regulation**. Maybe you have knowledge that, people have look hundreds times for their chosen novels like this Smart Regulation, but end up in malicious downloads. Rather than enjoying a good book with a cup of tea in the afternoon, instead they cope with some harmful bugs inside their computer.

Smart Regulation is available in our digital library an online access to it is set as public so you can get it instantly. Our book servers saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the Smart Regulation is universally compatible with any devices to read
