Johnny Rogan began his tempestuous career as a full-time author following postgraduate work in English Literature. Over the last decade, he has established himself as one of the world's foremost popular music biographers. His last book, Morrissey & Marr: The Severed Alliance, is one of the most controversial and highly acclaimed music biographies ever written. Its contents startled critics and fans alike, and prompted Morrissey to call for the immediate death of the author. Rogan vowed to continue his research and this new book is the first fruits of an ongoing obsession.

representation and replication offering a materially embedded ontology of the image that has far reaching implications for our understanding of Graeco Roman aesthetics Drawing on theories of media Verity Platt explores how the concept of impressing typ sis was especially significant for literary engagements with artworks informing Greek models of intermediality from archaic poetry to imperial Greek prose and early Christian exegesis Advancing an object oriented approach that dislodges the trope of ekphrasis in favour of embodied processes of making the book focuses on Hellenistic epigram an especially medium conscious genre offering new readings of poems by the third century BCE poet Posidippus who drew on practices of engraving stamping and casting in his epigrams on precious gems Lithika and bronze statuary Andriantopoiika Posidippus sophisticated engagement with materiality is set within the longer history of intermedial relations in ancient epigram as these unfold through the Greek Anthology in dialogue with shifting approaches to image making and transmission under the Roman Empire and in early Byzantium As a prehistory of analogue modes of reproduction and thus the concept of type Epistemic Impressions demonstrates how just as many ancient concerns with the visual may seem surprisingly modern so many modern preoccupations are in fact more ancient than we might presume

Looking for Ashley: Re-reading What the Smith Case Reveals about the Governance of Girls, Mothers and Families in Canada Jaremko Rebecca Bromwich, 2015-10-01 The 2007 death by self induced strangulation in prison of nineteen year old inmate Ashley Smith drew a great deal of public attention The case gave rise to a shocking verdict of homicide in the 2013 inquest into the cause of her death In this book I inquire into questions about of what social problem or phenomenon Ashley Smith is a case and what governmental work is done by prevalent constructions of her as an exemplar This book performs a critical discourse analysis of figures of Ashley Smith that emerge in her case looking at those representations as technologies

of governance It argues that the Smith case is read most accurately not as an isolated system failure but an extreme result of routine everyday brutality of a society and bureaucracies gradual necropolitical successes It critically analyzes how representations of Ashley in the case leave intact and even reinforce logics and systems governing gender motherhood security risk race thinking and exclusion in power and knowledge that make it predictable for similar deaths in prison to recur It argues that in the logics underlying constructions through which Ashley Smith was celebrityized and sacralized mothers girls and women s subjectivities and agencies are made unknowable and even unthinkable while the racialized social boundaries of a white settler society are maintained This book attempts to intervene in those logics to help make alternative outcomes possible and to take steps towards questioning the raced classed and heteronormative boundaries of commonly assumed figures of the noble victim good girl and good mother while supporting the agencies of adolescent girls in actively playing a part in the authoring of their lives
