Sonoita Plain:

Sonoita Plain Carl E. Bock, 2005 The Appleton Whittell Research Ranch is a tract of 8 000 acres on the Sonoita Plain that was established in 1968 by the Appleton family and is now part of the sanctuary system of the National Audubon Society To all appearances it is an ordinary piece of land but for the last 35 years it has been treated in an extraordinary way by leaving it alone No grazing to influence grass production No dam building to hold back flash floods No pest control No firefighting By employing such nonaction might we gain a glimpse of what this land was like hundreds even thousands of years ago Through essays and photographs focusing on the Research Ranch Sanctuary and surrounding area this book reveals the complex ecology and unique aesthetics of its grasslands and savannas Carl and Jane Bock and Stephen E Strom share a passion for the remarkable beauty found here and in their book they describe its environment biodiversity and human history **Scenic Driving Arizona** Stewart M. Green, 2023-08-01 Scenic Driving Arizona features more than thirty drives ranging from 20 to 200 miles long through Arizona s most spectacular landscapes including the Grand Canyon Petrified Forest Monument Valley and the Sonoran Desert Included are route maps in depth descriptions of special attractions and historical points and tips on lodging camping and dining **The View from Bald Hill** Carl E. Bock, Jane H. Bock, 2000-05-16 This book brings together nearly every aspect of grassland research in the American Southwest and is written to appeal to both academics and the general public It refutes conventional myths about some causes of grassland change tests hypotheses in restoration ecology and offers new perspectives on the recovery of ecosystems free from livestock grazing It is a book that every naturalist or ecologist should read Conrad Bahre author of A Legacy of Change I expected another nature book What I found was to my surprise a love story Carl and Jane Bock visited the Research Ranch in the early 1970s and fell in love with the Sonoita Plains the plants and animals there and the people who called it home Like all good love stories this one is full of passion and joy excitement and disappointment and sadness and humor With their successful blend of storytelling and scientific reporting the Bocks share the most intimate details of their love affair and make the reader curious to learn more about this little known land H Ronald Pulliam Institute of Ecology University of Georgia Jane and Carl Bock write precisely as well as lovingly of the dynamics of the distinctive grasslands near the U S Mexico border in Arizona They also bring 25 years of first rate science to bear on their topic Their seasoned view of ecological and perceptual changes in this community are unique and will go a long way toward healing and restoring the remaining fragments of this biome in southeastern Arizona Gary Paul Nabhan author of Cultures of Habitat **Forging a Sustainable Southwest** Stephen E. Strom, 2024-09-03 Nature has presented us with a gift of incalculable value astounding diversity of plant and animal life and interwoven biological and physical systems of intricate complexity and beauty We are faced today with an existential environmental and moral challenge can we find common purpose in protecting and cherishing these masterpieces and in restoring a sense of shared responsibility for stewarding our endowment Forging a Sustainable Southwest introduces readers to four conservation efforts that provide

insight into how diverse groups of citizens have worked collaboratively to develop visions for land use that harmonized sometimes conflicting ecological economic cultural and community needs Through the voices of more than seventy individuals involved in these efforts we learn how they've developed plans for protecting restoring and stewarding lands sustainably the management and funding tools they've used and their perceptions of the challenges that remain and how to meet them This book details efforts to craft the Sonoran Desert Conservation Plan establish Las Cienegas National Conservation Area protect Cienega Ranch and create the Malpai Borderlands Group It will appeal to anyone interested in grassroots efforts to protect the vital ecosystems of the western United States These inspiring stories of citizens and groups working together demonstrate a path for the future built day by day breaking bread at potlucks holding informal front porch discussions and later finding common purpose in community wide meetings Might their efforts reveal a path to rebuilding our democratic systems from the ground up

Death Rattle, Book 2 Carl Bock, 2022-03-23 Shaken not stirred takes on new meaning in this second installment in the modern day western mystery series by Carl and Jane Bock Their writing reflects solid knowledge of Arizona and its denizen And their storytelling is as sharp as a serpent's tooth Nicolas Gilmartin Teranzi Online Critics Corner There is a killer at large in the oak grasslands of southeastern Arizona whose weapon of choice is a deadly variety of southwestern rattlesnake Deputy Sheriff Calvin Creede doesn't like snakes but with the help of veteran herpetologist Dr Hazel Smith and his fianc Maria Obregon he seeks to find the mountain cave from which a collection of Mojave rattlesnakes recently was looted Then he must determine which of a variety of suspects has taken them home In this the second installment of Arizona Borderland Mysteries Carl and Jane Bock continue their story about a deputy sheriff in an isolated corner of Arizona's smallest county It is a land once dominated by a few cowboys and their cattle but Deputy Creede finds his job increasingly complicated by the trappings of southwestern exurbia including vineyards drugs border tension and high end housing developments

Arizona's Scenic Roads and Hikes Roger Naylor, 2020-10-15 In this captivating new guide Roger Naylor features all twenty seven of Arizona's state designated scenic and historic roads including five National Scenic Byways

Irrigation in the Rio Grande Valley, New Mexico Frank E. Wozniak, 1998 This publication reviews both published and unpublished sources on Puebloan Hispanic and AngloAmerican irrigation systems in the Rio Grande Valley Settlement patterns and Spanish and Mexican land grants in the valley are also discussed The volume includes an annotated bibliography

Cowboy is a Verb Richard Collins, 2019-11-06 From the big picture to the smallest detail Richard Collins fashions a rousing memoir about the modern day lives of cowboys and ranchers However Cowboy is a Verb is much more than wild horse rides and cattle chases While Collins recounts stories of quirky ranch horses cranky cow critters cow dogs and the people who use and care for them he also paints a rural West struggling to survive the onslaught of relentless suburbanization A born storyteller with a flair for words Collins breathes life into the geology history and interdependency of land water and native and introduced plants and animals He conjures indelible portraits of the hardworking dedicated people

he comes to know With both humor and humility he recounts the day to day challenges of ranch life such as how to build a productive herd distribute your cattle evenly across a rough and rocky landscape and establish a grazing system that allows pastures enough time to recover He also intimately recounts a battle over the endangered Gila topminnow and how he and his neighbors worked with university range scientists forest service conservationists and funding agencies to improve their ranches as well as the ecological health of the Redrock Canyon watershed Ranchers who want to stay in the game don't dominate the landscape instead they have to continually study the land and the animals it supports Collins is a keen observer of both He demonstrates that patience resilience and a common sense approach to conservation and range management are what counts combined with an enduring affection for nature its animals and the land Cowboy is a Verb is not a romanticized story of cowboy life on the range rather it is a complex story of the complicated work involved with being a rancher in the twenty first century West

Invasive Exotic Species in the Sonoran Region Barbara Tellman, 2023-12-05 All over the planet organisms of many species are appearing outside of their natural habitats often carried by that particularly peripatetic species *Homo sapiens* This book marks the first comprehensive attempt to address problems posed by expanding populations of exotic plant and animal species in the Sonoran Desert and adjacent grasslands and riparian areas It describes the arrival and spread of non native species as diverse as rats and saltcedar covering both their impacts and the management of those impacts It is estimated that as much as 60 percent of the vegetative cover of the Sonoita Creek Patagonia Reserve the first Nature Conservancy area designated in Arizona is dominated by exotic plants and that introduced fish pose a recurrent threat to the native fish of that area Meanwhile at the Grand Canyon invasives such as tamarisk red brome carp and catfish are pervasive either in the Colorado River or in the patches of desert scrub along its shores Throughout the Sonoran Desert and adjacent areas from islands in the Sea of Cortes to desert grasslands some six hundred species of non native plants and animals have become established with bullfrogs and Mediterranean grasses now common where they once never existed The book brings together contributors from academia government and nonprofit organizations including such experts as Gary Paul Nabhan Richard Mack and Alberto B rquez Montijo They review historic and even prehistoric origins of non native species not only exotic plants amphibians and mammals but also insects fish and birds They then examine significant problems in each major subregion and ecosystem and discuss control efforts The volume contains the first compiled list of more than 500 naturalized exotic species in the Sonoran region Invasive species issues are rapidly emerging as major environmental concerns both locally and worldwide This book assists professionals ecologists conservation biologists and policy makers involved in invasive species control in the Southwest and will be a rich resource for all concerned with protecting native species and their habitats
