**The Heart of the Matter** Olive Whicher, 2015-09-11 In this concise and richly illustrated work Olive Whicher introduces a radical new science of living organisms forms and processes based on the pioneering work of Rudolf Steiner and his pupil George Adams If we are to understand fully the laws of living nature she argues it is necessary to overcome the one-sided ideas of modern science ideas that are only adequate to describe material forms and forces We need to widen our thinking to include the etheric formative forces forces that are alive in ethereal space or counterspace Such forces work in plants for example by drawing matter upwards in a suctional manner in contrast to the forces of gravity which draw downwards and the forces of an explosion which work upward and outward This easily digestible introduction will be valuable to anybody seeking to comprehend the living world around us
