Heaven, Earth, & Humankind: Three Spheres, Three Light Cycles, Three Modes William Wadsworth, 2015-04-23 Heaven Earth and Humankind Volumes I through IV was inspired by a dream in which I witnessed the collision of two worlds one red and one green the red cube was the dragon of Chinese Medical Philosophy the green globe was the holistic cosmos that I already knew well through tropical astrology The outcome of this dream was this book

that integrates the two systems and illuminates the core they share Behind every aspect of human experience we find the influence of light and darkness both as a reality and metaphor Three great cycles of light and darkness govern experience the seasonal cycle the waxing and waning of the moon and the emergence and retreat of daylight These three cycles connect directly to the triune principle in Chinese philosophy that differentiates three aspects of human endeavor spirit body and social life Heaven and earth seem to form a polarity When they interact they produce all the multifarious form of life near the surface of the earth The whole ever remains a unity Heaven floods the earth with both solar and celestial energy The earth responds to that influx by producing living forms on its surface The horizon line of the celestial chart symbolizes this plane where energy and matter interact From this we can assess where a persons focus is and how they balance the three different aspects of human experience Human beings are the finest expression of heaven and earth if and only if we harmonize with the great cycles of light In Volume IV I connect this core wisdom from Chinese sages with the astrological idea of the three modes of tropical astrology This volume continues the holistic and cyclic approach to astrology developed in the previous three volumes and culminates in a detailed description of the effect of the Sun Moon or Horizon in each zodiac sign Each sign has a mode and the mode has affinity either with heaven and the sun earth and the moon or the ascendant and human affairs The mutable signs are aligned with the sphere of the ecliptic and the mutable mode Heaven Earth and Humankind maps a path to understanding why astrology works in terms that anyone can understand The operative power of astrology is the three light cycles as all the ancients understood We have lost the wisdom but that lost wisdom is recovered somewhat in this valuable book How is our human experience connected to the greater life of the cosmos Our answer depends on our degree of self realization and we cannot truly know ourselves unless we understand how we feel and react to the cycles of heaven This book brings some traditional wisdom into focus to help us with these fundamental questions about how to live well

Enlightened by Design Helen Berliner, 1999-06-07 This book shows how to use our homes to realign ourselves with the basic forces of nature heaven and earth the four directions and the elemental energies that arise from them Based on Tibetan Buddhist teachings on energy mandalas and the practice of space awareness it includes playful quotes provocative illustrations and practical exercises for discovering the inspiration and delight hidden in our homes And it explains the role of wakefulness in contemplative arts and design Berliner proceeds from living room to bedroom to kitchen to home office illustrating with rigorous practicality how we can join space color function harmony and our senses to create functional welcoming rooms She draws on traditional geomantic systems from Celtic wisdom to feng shui to show that home design and ecology are one and the same and that intuition and our senses are our most effective decorating tools Working with wakefulness and natural patterns of energy we can create enlightened environments and in this case enlightenment begins at home

To Become a God Michael J. Puett, 2020-10-26 Evidence from Shang oracle bones to memorials submitted to Western Han emperors attests to a long lasting debate in early China over the proper relationship between humans and gods One pole of the debate saw the human and divine realms as separate and agonistic and encouraged divination to determine the will of the gods and sacrifices to appease and influence them The opposite pole saw the two realms as related and claimed that humans could achieve divinity and thus control the cosmos This wide ranging book reconstructs this debate and places within their contemporary contexts the rival claims concerning the nature of the cosmos and the spirits the proper demarcation between the human and the divine realms and the types of power that humans and spirits can exercise It is often claimed that the worldview of early China was unproblematically monistic and that hence China had avoided the tensions between gods and humans found in the West By treating the issues of cosmology sacrifice and self divinization in a historical and comparative framework that attends to the contemporary significance of specific arguments Michael J Puett shows that the basic cosmological assumptions of ancient China were the subject of far more debate than is generally thought

Ecclesiastes: An Earth Bible Commentary Marie Turner, 2017-09-21 Qoheleth is one of the most challenging and intriguing of the biblical authors Above all he is attentive to life s realities neither optimistic about the world nor unappreciative of its goodness and pleasures In this volume Turner examines the writings of Qoheleth in the book of Ecclesiastes and provides an ecological reading of the text that gives readers clear insights into how biblical wisdom literature can be used to respond to the challenges facing the environment in the present day as well as advancing the field of ecological hermeneutics In this commentary Turner looks at the concept of Qoheleth s eternal earth moving through the chapters of Ecclesiastes with an ear attuned to the voice of the Earth as it struggles to be heard above the voice of the economy Such a voice is not necessarily antagonistic to that of Earth but neither is it neutral The ecological reader knows that a prudent economy is necessary for living but if it is given precedence at the expense of Earth there will be no future let alone eternity for Earth Eco justice demands that contemporary readers should be mindful of future generations and heed Qoheleth s counsel to value the fruits of one s labour without greed allowing ecological hermeneutics to provide insights into contemporary environmental issues Illustrating how a biblical framework for environmentally responsible living may be generated Turner s analysis is vital both to those studying Qoheleth and to those

D'Ambrosio, Geir Sigurðsson, Dimitra Amarantidou, Hans-Georg Moeller, 2025-08-15 This book discusses scholars who have all engaged in comparative philosophy projects many of whom first rose to fame because of their penetrating insights into the similarities and differences in Western and Chinese thought They all went beyond simply looking at how one thinker one school or one tradition relates to another each draws on sources from China and the West However their projects from role ethics to concrete metaphysics from critiquing individualism to balancing harmony and justice are attempts at re evaluating the way we view the world and live our lives These projects are systematic thorough tong and comprehensive descriptions of ourselves the world and our interactions with others They are all comparative but on top of this they also aim at making a point that transcends their comparisons The book thus shows that these great thinkers draw on a multiplicity of resources and while they might find some ideas closer to home than others comparison is a necessary constant Using traditional Confucian vocabulary this type of philosophizing is described as practicing xue normally understood as studying or learning But it also means to copy imitate model or emulate In the process of xue one imitates but with a nod to differences This book honors four models of such an attitude to xue In its examination of some of the most influential scholars in Chinese thought this is a seminal book for scholars and students in Chinese and comparative philosophy *Symbols of Jesus* Robert C.
