The Gullibility Gap

Arthur MacIntosh

The Gullibility Gap:

The Gullibility Gap Derek Cooper, 1974 **Rebooting AI** Gary Marcus, Ernest Davis, 2020-08-25 Two leaders in the field offer a compelling analysis of the current state of the art and reveal the steps we must take to achieve a robust artificial intelligence that can make our lives better Finally a book that tells us what AI is what AI is not and what AI could become if only we are ambitious and creative enough Garry Kasparov former world chess champion and author of *Deep Thinking* Despite the hype surrounding AI creating an intelligence that rivals or exceeds human levels is far more complicated than we have been led to believe Professors Gary Marcus and Ernest Davis have spent their careers at the forefront of AI research and have witnessed some of the greatest milestones in the field but they argue that a computer beating a human in Jeopardy does not signal that we are on the doorstep of fully autonomous cars or superintelligent machines The achievements in the field thus far have occurred in closed systems with fixed sets of rules and these approaches are too narrow to achieve genuine intelligence The real world in contrast is wildly complex and open ended How can we bridge this gap What will the consequences be when we do Taking inspiration from the human mind Marcus and Davis explain what we need to advance AI to the next level and suggest that if we are wise along the way we won't need to worry about a future of machine overlords If we focus on endowing machines with common sense and deep understanding rather than simply focusing on statistical analysis and gathering ever larger collections of data we will be able to create an AI we can trust in our homes our cars and our doctors offices *Rebooting AI* provides a lucid clear-eyed assessment of the current science and offers an inspiring vision of how a new generation of AI can make our lives better **The Mayor of Wind-gap** Michael Banim, 1835 [Handbook of Research on Organizational Sustainability in Turbulent Economies](#) Perez-Urbe, Rafael Ignacio, Salcedo-Perez, Carlos, Carvajal-Contreras, Andres, 2022-04-15 Organizational sustainability and uncertain economies are key topics for modern organizations New updated knowledge about such matters is necessary for companies to ensure they are sufficiently prepared for future crises Additional research is required in this area as the overall amount of material available is below par The *Handbook of Research on Organizational Sustainability in Turbulent Economies* provides theoretical and practical evidence that demonstrates how the integration adaptation construction and application of strategic models methods and tools can promote organizational sustainability for economies in situations of uncertainty Covering topics such as work engagement and sustainable development goals this major reference work is ideal for academicians practitioners policymakers entrepreneurs business owners researchers instructors and students **Handbook of Trust and Social Psychology** Kenneth J. Rotenberg, Serena Petrocchi, Annalisa Levante, Flavia Lecciso, 2025-03-12 The *Handbook of Trust and Social Psychology* highlights the crucial importance of trust in a wide variety of contexts such as individual well-being societal stability and personal and professional relationships This Handbook is a testament to the profound impact of Ken J Rotenberg's work on developmental and social psychology **The Official Rules** Paul Dickson, 2014-07-28 According to

Murphy's Law If anything can go wrong it will This humorous hardcover compilation offers variations on the well known adage including comic truths related to business matters excuses efficiency and legal jargon *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1976 **Whiplash and Other Useful Illnesses** Andrew Malleson, 2002 Whiplash first described in a medical journal in 1953 now occurs so frequently that in the U S alone its annual cost is estimated at between 13 and 18 billion dollars The author contends that whiplash is nothing more than a strain in the neck and like most other strains heals in a matter of days and weeks Hijacking America Susan George, 2008-06-23 Major new book from Susan George a leading political commentator whose previous books have been massively influential and widely read and reviewed Fascinating thorough and often chilling account of this decades long transformation of American society and political culture (The New and Improved Version) Coffee Shop Tidbits Milton Davis, 2017-02-23 This clever book features witticisms and cartoons by award winning Milton Davis and his award winning cartoonist friend Foy Lisenby It is an updated collection of sarcastic one liners that the author compiled and is a revision of his previous book Coffee Shop Tidbits His new book features cartoons more drawings and many more jokes with some offering a philosophical slant With his sense of humor cartooning just seemed to come naturally Davis has published several cartoon books At one time he produced weekly cartoons for over twenty newspapers under the title Toad Suck Country Visit his website at www.toadsucktidbits.com After retiring several years ago he started the daily cartoon Toad Suck Tidbits Since the Toad Suck story is little known outside the Faulkner County region of Arkansas he published it on the Internet as Coffee Shop Tidbits This book is an updated collection of many of those daily cartoon quotations Milt Davis humor startles me plays tricks on me and the person I confront in his humor is a Conway treasure Norbert O Schedler Ph D **Flickers of Desire** Jennifer M. Bean, 2011 Today we are so accustomed to consuming the amplified lives of film stars that the origins of the phenomenon may seem inevitable in retrospect But the conjunction of the terms movie and star was inconceivable prior to the 1910s Flickers of Desire explores the emergence of this mass cultural phenomenon asking how and why a cinema that did not even run screen credits developed so quickly into a venue in which performers became the American film industry's most lucrative mode of product individuation Contributors chart the rise of American cinema's first galaxy of stars through a variety of archival sources newspaper columns popular journals fan magazines cartoons dolls postcards scrapbooks personal letters limericks and dances The iconic status of Charlie Chaplin's little tramp Mary Pickford's golden curls Pearl White's daring stunts or Sessue Hayakawa's expressionless mask reflect the wild diversity of a public's desired ideals while Theda Bara's seductive turn as the embodiment of feminine evil George Beban's performance as a sympathetic Italian immigrant or G M Anderson's creation of the heroic cowboy outlaw character transformed the fantasies that shaped American filmmaking and its vital role in society The Spectator, 1900 *Aesthetics of Fraudulence in Nineteenth-Century France* Scott Carpenter, 2016-03-16 In his engagingly written and original book Scott Carpenter analyzes multiple manifestations of the false in nineteenth century

France Under Carpenter's thorough and systematic analysis fraudulence emerges as a cultural preoccupation in nineteenth century literature and society whether it be in the form of literary mystifications the thematic portrayal of frauds or the privileging of falseness as an aesthetic principle Focusing particularly on the aesthetics of fraudulence in works by M rim e Balzac Baudelaire Vidocq Sand and others Carpenter places these literary representations within the context of other cultural phenomena such as caricature political history and ceremonial events As he highlights the special relationship between literary fiction and fraudulence Carpenter argues that falseness arises as an aesthetic preoccupation in post revolutionary France where it introduces a blurring of limits between hitherto discrete categories This transgression of boundaries challenges notions of authenticity and sincerity categories that Romantic aesthetics championed at the beginning of the nineteenth century in France Carpenter's study makes an important contribution to the cultural significance of mystification in nineteenth century France and furthers our understanding of French literature and cultural history

Prescriptive Communication for the Healthcare Provider Abné M. Eisenberg Ph.D.,2012-02-06 Professor Eisenberg's primary objective is to help patients and their healthcare providers communicate with one another more effectively When they fail to communicate it often negates or compromises the benefit they seek to derive from their treatment Aside from addressing the conventional issues that currently bog down healthcare communication he exploits some less typical issues such as pseudoaffective communication somatotyping appellations clinical musicology genderlect and territoriality Healthcare providers reading this book should come away with an expanded and more inclusive perspective on how practitioners can enrich their interpersonal skills The Victorian Freak Show Lillian Craton,2009 The Victorian freak show was at once mainstream and subversive Spectacles of strange exotic and titillating bodies drew large middle class audiences in England throughout much of the nineteenth century and souvenir portraits of performing freaks even found their way into Victorian family albums At the same time the imagery and practices of the freak show shocked Victorian sensibilities and sparked controversy about both the boundaries of physical normalcy and morality in entertainment Marketing tactics for the freak show often made use of common ideological assumptions compulsory female domesticity and British imperial authority for instance but reflected these ideas with the surreal distortion of a fun house mirror Not surprisingly the popular fiction written for middle class Victorian readers also calls upon imagery of extreme physical difference and the odd bodied characters that people nineteenth century fiction raise meaningful questions about the relationships between physical difference and the social expectations that shaped Victorian life This book is primarily an aesthetic analysis of freak show imagery as it appears in Victorian popular fiction including the works of Charles Dickens Wilkie Collins Guy de Maupassant Florence Marryat and Lewis Carroll It argues that in spite of a strong nineteenth century impulse to define and defend normalcy images of radical physical difference are often framed in surprisingly positive ways in Victorian fiction The dwarves fat people and bearded ladies who intrude on the more conventional imagery of Victorian novels serve to shift the meaning of

those works main plots and characters sometimes sharpening satires of the nineteenth century treatment of the poor or disabled sometimes offering new traits and behaviors as supplements for restrictive social norms Book Jacket *The Truth Never Stands in the Way of a Good Story* Jan Harold Brunvand, 2000 Here he the author looks in detail at a dozen rampant and long lived examples of this vigorous category of contemporary folklore tracing their histories variations sources and meanings Jacket *Doubling the Point* J. M. Coetzee, 1992 Nadine Gordimer has written of J M Coetzee that his vision goes to the nerve centre of being What he finds there is more than most people will ever know about themselves and he conveys it with a brilliant writer's mastery of tension and elegance Doubling the Point takes the reader to the center of that vision These essays and interviews documenting Coetzee's longtime engagement with his own culture and with modern culture in general constitute a literary autobiography

Conspiracy Rising Martha F. Lee, 2011-06-13 This book offers a thoughtful analysis of how and why conspiracy thinking has become a popular mode of political discourse in the United States How did conspiracy thinking become such a significant and surprisingly widely accepted form of political thinking in the United States What compels people to respond to devastating unpredictable events terrorist acts wars natural disasters economic upheavals with the conviction that nothing is a coincidence nothing is as it seems and everything is connected Conspiracy Rising Conspiracy Thinking and American Public Life argues that while outlandish paranoid theories themselves may seem nonsensical the thread of conspiracy thinking throughout American history is a both a byproduct of our democratic form of government and a very real threat to it From the Illuminati the Knights Templar and the Freemasons to the government hiding aliens and faking the moon landing from the New World Order to the Obama Birthers the book explores the enduring popularity of a number of American conspiracy theories showing how the conspiracy hysteria that may provoke disdain and apathy in the general public can become a source of dangerous extremism

Res: Anthropology and Aesthetics, 47 Francesco Pellizzi, 2005-09-30 Res is a journal of anthropology and comparative aesthetics dedicated to the study of the object in particular cult and belief objects and objects of art The journal presents contributions by philosophers art historians archaeologists critics linguists architects artists among others

The Phantom Principality: Gregor MacGregor and the Great Colonial Hoax Arthur MacIntosh, 2025-03-16 In the early 19th century amid the fevered dreams of empire and fortune one man orchestrated one of history's most audacious frauds Gregor MacGregor a Scottish adventurer and self-proclaimed Cazique of Poyais convinced hundreds of hopeful settlers and investors that he ruled over a prosperous new land in Central America a nation that did not exist With masterful deception MacGregor fabricated maps official documents and even a working currency to sell the dream of Poyais to the desperate and ambitious alike His victims lured by the promise of wealth and freedom set sail for paradise only to find an uninhabitable wilderness devoid of the civilization they had been promised The Phantom Principality unravels this extraordinary tale of illusion and betrayal revealing how MacGregor manipulated human greed colonial ambition and the thirst for new beginnings to craft an empire of lies Combining

meticulous historical research with gripping storytelling this book explores the grand deception that cost fortunes and lives and examines how belief in a dream can sometimes be stronger than the truth For readers of history true crime and tales of extraordinary swindlers this is the story of a con so convincing that it nearly became reality
