Clark,F. Richard Stephenson,2016-06-03 *The Historical Supernovae* *Domesticating the Dharma* Richard D. McBride II,2007-10-31 Western scholarship has hitherto described the assimilation of Buddhism in Korea in terms of the importation of Sino Indian and Chinese intellectual schools This has led to an overemphasis on the scholastic understanding of Buddhism and overlooked evidence of the way Buddhism was practiced on the ground *Domesticating the Dharma* provides a much needed corrective to this view by presenting for the first time a descriptive analysis of the cultic practices that defined and shaped the way Buddhists in Silla Korea understood their religion from the sixth to tenth centuries Critiquing the conventional two tiered model of elite versus popular religion Richard McBride demonstrates how the eminent monks royalty and hereditary aristocrats of Silla were the primary proponents of Buddhist cults and that rich and diverse practices spread to the common people because of their influence Drawing on Buddhist hagiography traditional narratives historical anecdotes and epigraphy McBride describes the seminal role of the worship of Buddhist deities in particular the Buddha kyamuni the future buddha Maitreya and the bodhisattva

Avalokite vara in the domestication of the religion on the Korean peninsula and the use of imagery from the Maitreya cult to create a symbiosis between the native religious observances of Silla and those being imported from the Chinese cultural sphere He shows how in turn Buddhist imagery transformed Silla intellectually geographically and spatially to represent a Buddha land and sacred locations detailed in the Avata saka S tra Huayan jing Hwa m ky ng Emphasizing the importance of the interconnected vision of the universe described in the Avata saka S tra McBride depicts the synthesis of Buddhist cults and cultic practices that flourished in Silla Korea with the practice oriented Hwa m tradition from the eight to tenth centuries and its subsequent rise to a uniquely Korean cult of the Divine Assembly described in scripture **Europe meets Formosa,**

1510-1662 Paul Kua,2024-03-20 This book contains two parts each covering some aspects of East West encounters on Formosa better known today to many as Taiwan Part I investigates Portuguese discovery and naming of the island as Formosa in the context of conflicting claims and recent scholarly debates in Taiwan which challenged the conventional wisdom on this matter Part II deals with Dutch efforts to educate and convert native Formosans examining motives of the coloniser for pursuing this civilising project identities of the colonised such as race tribal village age gender language and faith which had influenced school policies and responses of the tribes ranging from partnerships to conflicts The two studies reconstruct historical events in the 16th and 17th centuries drawing on many primary sources But as shall be shown Portuguese naming of the island and Dutch civilising of its indigenes both retain some relevance for the Aboriginal minority and the Chinese majority in Taiwan to this day hundreds of years later **Aspiring to Enlightenment** Richard D. McBride II,2020-08-31 Centered on the practice of seeking rebirth in the Pure Land paradise Sukh vat the Amit bha cult has been the dominant form of Buddhism in Korea since the middle of the Silla period ca 300 935 In Aspiring to Enlightenment Richard McBride combines analyses of scriptural exegetical hagiographical epigraphical art historical and literary materials to provide an episodic account of the cult in Silla times and its rise in an East Asian context through the mutually interconnected perspectives of doctrine and practice McBride demonstrates that the Pure Land tradition emerging in Korea in the seventh and eighth centuries was vibrant and collaborative and that Silla monk scholars actively participated in a shared international Buddhist discourse Monks such as the exegete par excellence W nhyo and the Yog c ra proponent Ky ngh ng did not belong to a specific sect or school but like their colleagues in China they participated in a broadly inclusive doctrinal tradition He examines scholarly debates surrounding the cults of Maitreya and Amit bha the practice of buddh nism ti the recollection of Amit bha the ten recollections within the larger Mah y na context of the bodhisattva s path of practice the emerging Huayan intellectual tradition and the influential interpretations of medieval Chinese Pure Land proponents Tanluan and Shandao Finally his work illuminates the legacy of the Silla Pure Land tradition revealing how the writings of Silla monks continued to be of great value to Japanese monks for several centuries With its fresh and comprehensive approach to the study of Pure Land Buddhism Aspiring to Enlightenment is important for not only students

and scholars of Korean history and religion and East Asian Buddhism but also those interested in the complex relationship between doctrinal writings and devotional practice on the ground

Observations and Predictions of Eclipse Times by Early Astronomers J.M. Steele, 2013-04-17 Eclipses have long been seen as important celestial phenomena whether as omens affecting the future of kingdoms or as useful astronomical events to help in deriving essential parameters for theories of the motion of the moon and sun This is the first book to collect together all presently known records of timed eclipse observations and predictions from antiquity to the time of the invention of the telescope In addition to cataloguing and assessing the accuracy of the various records which come from regions as diverse as Ancient Mesopotamia China and Europe the sources in which they are found are described in detail Related questions such as what type of clocks were used to time the observations how the eclipse predictions were made and how these prediction schemes were derived from the available observations are also considered The results of this investigation have important consequences for how we understand the relationship between observation and theory in early science and the role of astronomy in early cultures and will be of interest to historians of science astronomers and ancient and medieval historians
