analyses small states within the framework of this apparent paradox Traditionally Small State Studies has focused on three guiding questions what constitutes a small state What explains small state influence in global affairs Are small states truly vulnerable to security threats given the expansion of multilateralism and regionalism throughout the world This book contends that new questions should be asked which recognise the important shifts in twenty first century security paradigms to better understand how some states deploy their smallness as a resource for agency in supranational contexts By varying historical geographical security and governance contexts the book embraces a most different cases approach The historical perspective is often neglected in Small State Studies but contributes to understanding how small states have often over time transformed perceived insecurity into agency By focusing on different world regions the authors enable the comparative analysis of collective actions and the creation and implementation of institutions for common sense purposes within a geographical region Of particular contemporary importance the book includes contributions which contend with hard security issues alongside other soft security challenges The comparison of case studies confirms that hard security vulnerability and soft security opportunities seem to be two sides of the same coin which reinforces the book's focus on small state paradoxes and raises the question of whether smallness can be considered the defining characteristic of governance in these countries This book will have a broad appeal because of the different world regions it analyses It will be of interest to postgraduate students scholars and researchers of international relations security sustainability governance development and political economy as well as Small State Studies The Chapters 4 8 and 11 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license The publication of Chapter 4 as Open Access has been made possible by the Institute of History at the University of Luxembourg The publication of Chapter 8 as Open Access has been made possible by Western Sydney University The publication of Chapter 11 as Open Access has been made possible by the University of Hamburg
