Nobody's Perfect Cynthia L. Cameron, Lakisha R. Lockhart-Rusch, Emily A. Peck, 2025-02-25 Adolescents like everyone else make mistakes However religious educators Cynthia L. Cameron, Lakisha R. Lockhart-Rusch and Emily A. Peck argue that some youths are born with the privilege of making mistakes in ways that others often are not They also argue that many Christian education practices that guide our understandings of mistake making are shaped by gender and gender identity sexual orientation and race in ways that disenfranchise some adolescents In response Cameron, Lockhart-Rusch and Peck curate a much needed conversation that helps religious educators accompany adolescents and better understand mistakes based on a theological framework that names adolescents as fundamentally good The result is an edited volume that explores ways educators can walk with adolescents so that youth can learn from their mistakes and grow without misunderstanding all mistakes as sin Together these essays seed a theology of adolescent goodness that's rooted in a liberative Christian theological anthropology Drawing on both qualitative and quantitative research *Nobody's Perfect* offers nuanced and robust definitions of what a mistake is apart from definitions of sin The book also explores the challenges of talking about mistake making and sin with adolescents within religious institutional contexts that shape policy pastoral

practice and ministry orientations Finally the book presents youths own voices about how they understand and process what mistake making looks like in the contexts in which they live and learn Nobody s Perfect is for Christian educators who serve either in the academy or in congregational settings The book well serves educators who recognize the various cultural and developmental challenges adolescents face when their church communities The book also offers tools to help such church leaders attend to religious education spaces with a renewed theology that can root a more liberative experience of religious education

Environmental and Health Regulation in the United States and the European Union M. Smith,2012-03-12 During the first decade of the twenty first century the United States increasingly has relaxed its regulatory posture in the face of critical challenges to public health and the environment This is true for regulation of recycling of end of life products including autos and electronic components potentially hazardous chemicals and health claims on food labels Coincidentally the European Union has gravitated toward more restrictive regulation in these very same areas How might we explain these diverging regulatory trajectories of the world s two largest market economies in an era of rising public awareness of dangers to the public and the planet The explanation derives not from cultural differences in willingness to tolerate risk but rather from distinctive regulatory tradeoffs between environment and competitiveness in the United States and environment competitiveness and integration in the EU
