Smile In His Minds Eye A Study Of The Early Works Of Lawrence Durrell:

A Smile in His Mind's Eye Ray Morrison, 2005-01-01 Durrell's best known work fused Western notions of time and space with Eastern metaphysics. Very little has been written about Durrell's work before the Second World War. With *A Smile in His Mind's Eye* Ray Morrison seeks to redress this neglect. *Durrell Re-read* James M. Clawson, 2016-06-20 Reading the twelve major novels of Lawrence Durrell this study argues for their consideration as a single major project, an opus marked by themes of liminality and betweenness. As major texts of mid twentieth century literature repeatedly earning nominations for the Nobel Prize Durrell's work has attracted renewed critical attention since his centenary in 2012. This study shows the thematic unity of the opus in five areas. First by disrupting expectations of love and death and by fashioning plural narrators works in the opus blend notions of the subject and the object. Second in their use of metafictional elements the texts present themselves as neither fiction nor reality. Third their approach to place and identity offers something between the naturalistic and the human centric. Fourth though the texts' initial concerns are engaged with understanding the past and preparing for a future they all resolve in something like the present. And fifth though the novels reject many aspects of modernism they reside nevertheless between the poles of modernism and postmodernism. Shared with other writers including T S Eliot and Henry Miller as early as the 1940s Durrell's plans for his major works of fiction remained consistent through the publication of the last novel in 1985 and these plans show the need to consider the twelve major works as a unitary whole. **Lawrence Durrell's Poetry** Isabelle Keller-Privat, 2019-04-25 This book offers the first in depth analysis of Lawrence Durrell's entire poetic opus from his early collections in the 1940s up to his last one published in 1973. Thirty years of Durrellian poetry are brought together in order to unveil the genesis of Durrell's writing both poetic and fictional, drawing links to his novels and residence books which he kept writing at the same time. Durrell thus appears as first and foremost one of the greatest late modernist poets whose literary and epistemological investigations are to be understood in the light of a worldwide network of literary brotherhoods including T S Eliot, Michael Fraenkel, Henry Miller and David Gascoyne. Simultaneously this book shows why Durrell must also be read as the heir to the greatest English romantic poets Byron, Shelley, Keats and Wordsworth as well as to the French symbolists and modernists from Baudelaire to Nerval, Valéry and Cendrars. This comparative approach opens up a brand new perspective on Durrell that has not yet been broached by North American and English scholarship. The symbolic patterns, the stylistic ploys and the aesthetic and philosophic tenets that characterize Durrell's poetics account for the necessary back and forth reading that connects prose and poetry, the fictional and the lyrical, the descriptive and the abstract. Poetry excerpts, extracts from his residence books, novels and essays highlight not only Durrell's complex literary strategies but also the ontological quest of a writer who although never at home with the world he lived in strove to create a life world, what semiologists call the *Umwelt*. *The Heraldic World of Lawrence Durrell* Bruce Redwine, 2022-03-02 Lawrence Durrell's position as one of the twentieth century's leading novelists is continually being enlarged and revised. This

book presents unusual and unorthodox explorations of Alexandria the city at the heart of Durrell's writing his family relationships his biographer Michael Haag and his affinity with such diverse writers as Rilke and Virgil In particular it offers an insight into Durrell's emotions and sensibilities in elaborating his Sicilian Carousel and a penetrating and totally unique reading of Durrell's Alexandria Quartet in the light of the art and landscape of ancient Egypt

Re-reading The Alexandria Quartet of Lawrence Durrell (Durrell Studies 8) Richard Pine, 2023-08-25 Lawrence Durrell's The Alexandria Quartet is regarded as the central work in his fiction It has provoked critical commentary ever since the appearance of its individual volumes Justine 1957 Balthazar 1958 Mountolive and Clea 1959 and the publication in a one volume edition in 1962 Scores of Master's and PhD dissertations have been written since the 1960s on this most compelling and provocative novel Today The Alexandria Quartet stimulates critical discussion in works addressing the city Durrell's representation of Alexandria the theory of relativity the role of memory the recurring feature of the doppelgänger and the presence of the Gothic uncanny his frequent references to D H Lawrence his treatment of women characters his interest in Gnosticism and his own description of the Quartet as a strange mixture of sex and the secret service This volume of essays addresses all these themes and brings together the mature work of four scholars on this central work of Durrell's fiction together with two essays on its sequels Tunc Nunquam 1968-70 and The Avignon Quintet 1974-85

Durrell and the City Donald P. Kaczvinsky, 2012 Durrell and the City commemorates the fiftieth anniversary of the publication of The Alexandria Quartet with a collection of fourteen new essays by a group of international scholars and critics The collection provides a critical consideration of Durrell's urban landscapes from the London of his early novels to Avignon during World War II in his last great series while focusing on the place that made him famous the city of Alexandria in order to provide a reassessment of his career and achievement
