The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults American Psychiatric Association, 2015-07-29 Since the publication of the Institute of Medicine IOM report Clinical Practice Guidelines We Can Trust in 2011 there has been an increasing emphasis on assuring that clinical practice guidelines are trustworthy developed in a transparent fashion and based on a systematic review of the available research evidence To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality AHRQ American Psychiatric Association APA has adopted a new process for practice guideline development Under this new process APA's practice guidelines also seek to provide better clinical utility and usability Rather than a broad overview of treatment for a disorder new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies The quality of the overall body of evidence is also rated and is summarized in the practice guideline With the new process recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context Clear concise and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice with the goal of improving quality of care The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions Each module has a consistent organization which will assist users in finding clinically useful and relevant information quickly and easily This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process These guidelines address the following nine topics in the context of an initial psychiatric evaluation review of psychiatric symptoms trauma history and treatment history substance use assessment assessment of suicide risk assessment for risk of aggressive behaviors assessment of cultural factors assessment of medical health quantitative assessment involvement of the patient in treatment decision making and documentation of the psychiatric evaluation Each guideline recommends or suggests topics to include during an initial psychiatric evaluation Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions In addition to reviewing the available evidence on psychiatry evaluation each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care

Substance Abuse Disorders Hamid Ghodse, Helen Herrman, Mario Maj, Norman Sartorius, 2011-04-08 Substance abuse disorders are among the most prevalent psychiatric disorders and are frequently comorbid with other psychiatric and health conditions and accompanied by social problems however they remain under recognized and under treated Many physicians and mental health practitioners receive little to

no training in the identification and treatment of these disorders Approaches to their prevention include some of the major success stories in modern public health as well as some of the deepest controversies in public life This new title in the WPA series Evidence and Experience in Psychiatry informs psychiatrists and a wide range of professional groups from health and social services about these disorders and their treatment and control Highly Commended in the Psychiatry section of the 2012 BMA Book Awards *Handbook of Women's Health* Jo Ann Rosenfeld, 2009-10-22 The second edition of this hugely popular practical handbook on women's health is revised and updated throughout

Dual Disorders (Addictive and Concomitant Psychiatric Disorders): Mechanisms and Treatment Georges Brousse, Florence Vorspan, Wim Van Den Brink, 2022-09-12

Cumulated Index Medicus, 1972

Tobacco Dependence Michelle N. Eakin, Hasmeena Kathuria, 2023-02-28 This book is a guide to pharmacotherapy treatment of tobacco dependence The 2020 American Thoracic Society clinical practice guidelines on treating tobacco dependence serves as the cornerstone for this work with its robust discussion of recommended treatment options and how to tailor treatment to specific patient populations Tobacco dependence remains a major health concern for many adults and given the dramatic increase of youth electronic cigarette use clinicians need a singular resource to treat these different populations This book addresses that by following the three main points of how to best address the adverse impact of tobacco use on public health 1 prevent initiation of tobacco use 2 understand mechanisms of addiction 3 effectively treat tobacco dependence The book begins by describing the current patterns of product use the adverse impact of tobacco on global health and tobacco related health disparities Authors discuss both combustible and electronic tobacco products as well as current research on the adverse impact of vaping and associated flavorings including menthol role of the e cigarette in cessation and treatment of adolescent nicotine dependence Chapters conclude with a discussion of specific tobacco control policies to improve overall public health This is an ideal guide for pulmonologists pediatricians primary care physicians and other specialty providers who see patients with nicotine dependence This book is also of interest to public health professions to help inform public health campaigns and treatment offerings to reduce overall tobacco product use through prevention and treatment

Transforming Addiction Lorraine Greaves, Nancy Poole, Ellexis Boyle, 2015-04-10 Choice Highly Recommended Read Addiction is a complex problem that requires more nuanced responses Transforming Addiction advances addictions research and treatment by promoting transdisciplinary collaboration the integration of sex and gender and issues of trauma and mental health The authors demonstrate these shifts and offer a range of tools methods and strategies for responding to the complex factors and forces that produce and shape addiction In addition to providing practical examples of innovation from a range of perspectives the contributors demonstrate how addiction spans biological social environmental and economic realms Transforming Addiction is a call to action and represents some of the most provocative ways of thinking about addiction research treatment and policy in the contemporary era
