Farley, James M. Hulbert, 1987 An epic spanning more than half a century of Taiwan's history this breathtaking historical novel traces the fortunes of the Pengs a family of Hakka Chinese settlers across three generations from the 1890s just before Taiwan was ceded to Japan as a result of the Sino Japanese war through World War II Li Qiao brilliantly re creates the dramatic world of these pioneers and the colonization of Taiwan itself exploring their relationships with the aboriginal peoples of Taiwan and their struggle to establish their own ethnic and political identities This carefully researched work of fiction draws upon Li's own experiences and family history as well as oral and written histories of the era Originally published in Chinese as a trilogy this newly translated edition is an abridgement for English speaking readers and marks the work's first appearance in the English speaking world It was well received in Taiwan as an honest and influential recreation of Taiwan's history before the relocation of the Republic of China from the mainland to Taiwan Because Li's saga is so deeply imbued with the unique culture and complex history of Taiwan an introduction explaining the cultural and historical background of the novel is included to help orient the reader to this amazingly rich cultural context This informative introduction and the sweeping saga of the novel itself together provide an important view of Taiwan's little known colonial experience Strategic Planning in Electric Utilities ,1996 This paper highlights research investigating the ownership of renewable energy technologies to mitigate risks faced by the electric utility industry Renewable energy technology attributes of fuel costs environmental costs lead time modularity and investment reversibility are discussed Incorporating some of these attributes into an economic evaluation is illustrated using a municipal utility's decision to invest in either wind generation or natural gas based generation The research concludes that wind and other modular renewable energy technologies such as photovoltaics have the potential to provide decision makers with physical risk management investments *Proceedings of the Ninth Power Systems Computation Conference* Cascais Portugal, 2016-06-06 Proceedings of the Ninth Power Systems Computation Conference The Strategic Management of Health Care Organizations Peter M.
