cultural studies Similarly there are copious numbers of texts written on management To date little has been written that analyses the management of the audiovisual industry set against the backdrop of the cultural and economic environment within which the media manager operates Managing in the Media is divided into three sections that take the reader from the global to the specific from the strategic to the tactical Each chapter discusses specific topics that can be read in isolation yet contribute to the theme within each part Taken as a whole the book provides the potential professional media manager and current practising media manager with a framework of issues that will give them an awareness of the range of knowledge needed by the successful media manager This book does not try to be a manual to success The media industry is awash with successful individuals none of whom needed textbooks to set them on their chosen career paths Yet these exceptional people prove the rule that in the main most media practitioners would benefit from some additional support and guidance The aim of this book is to present to them some of the management issues that have or will have an impact upon their working careers The accompanying website www.mediaops.net which can also be accessed via www.focalpress.com features Tutor notes and reader activities Updated list of further reading Additional support material such as production templates Interviews with the authors A discussion forum Industry and education links Media News
