Strategic Planning In London The Rise And Fall Of The Primary Road Network:

Strategic Planning in London Douglas A. Hart, 2013-10-22 Strategic Planning in London The Rise and Fall of the Primary Road Network examines the relationship between order and change in the urban planning process Focusing on the planning of Greater London during 1943 to 1973 the book describes how strategic road planning and urban order has changed over this period The text analyzes why the large scale planning of high speed major roads in Greater London has failed Chapter 1 examines traditional master planning and disjointed incrementalism and outlines a conceptual model based on an iterative approach to urban planning Chapter 2 considers the way in which traffic congestion in Greater London was defined in the late 1950s and early 1960s Chapter 3 and 4 describes Abercrombie Buchanan approach to highway and urban and planning Chapter 5 points out the ways in which the concept of traffic congestion was broadened in the late 1960s and early 1970s Finally Chapter 6 focuses on the control mechanisms used in the planning period from 1943 to 1973 This book will be of interest to engineers who are seeking a comprehensive analysis of strategic planning

Metropolis 1890-1940

Anthony Sutcliffe, 1984-02 An ideal and welcome reference and reader for students of urbanism Metropolis 1890 1940 examines perceptions of the city during the dramatic urban growth of this period Metropolis looks at the policies adopted to deal with the new city and at the views of the city expressed in the art architecture literature cinema music and ideology of the time Internationally known experts discuss case studies of London Paris Berlin the Ruhr New York Moscow and Tokyo and a postscript brings the reader up to date with a survey of postwar urbanism

Spaces of Congestion and Traffic

David Rooney, 2018-09-03 This book provides a political history of urban traffic congestion in the twentieth century and explores how and why experts from a range of professional disciplines have attempted to solve what they have called the traffic problem It draws on case studies of historical traffic projects in London to trace the relationship among technologies infrastructures politics and power on the capital s congested streets From the visions of urban planners to the concrete realities of engineers and from the demands of traffic cops and economists to the new world of electronic surveillance the book examines the political tensions embedded in the streets of our world cities It also reveals the hand of capital in our traffic landscape This book challenges conventional wisdom on urban traffic congestion deploying a broad array of historical and material sources to tell a powerful account of how our cities work and why traffic remains such a problem It is a welcome addition to literature on histories and geographies of urban mobility and will appeal to students and researchers in the fields of urban history transport studies historical geography planning history and the history of technology

Goodman, Colin Chant, 1999

This text explores one of the most fundamental changes in the history of human society the transition from rural to urban ways of living It covers a range of urban technologies including new building materials and designs **Routledge Revivals:**

The Politics of Urban Change (1979) David McKay, Andrew Cox, 2016-09-19 First published in 1979 this book examines key planning policy areas such as land use planning land values housing and slum clearance urban transport industrial and regional economic location policies and policies inner city policies to explain why particular policies have been adopted at particular times assessing the role of political parties bureaucrats and interests in setting the national policy agenda Policy is also placed in the broader economic and social context and the question of whether given contemporaneous constraints a coherent national urban policy is possible is examined Its focus on political parties role in urban change at the start of Thatcher era upheavals makes this book especially valuable to students of urban sociology and the history of planning

Selected Library Acquisitions United States. Department of Transportation, *Energy Policy and Land-Use Planning* D. R. Cope, P. Hills, P. James, 2013-10-22 This book fills a gap in the available literature on energy policy by dealing with the relationship between energy and land use planning It considers in a systematic way energy developments in national regional and local planning policy contexts concentrating particularly on energy supply issues in Europe **Planning and the Rural Environment** Joan Davidson, Gerald Wibberley, 2016-04-20 Planning and the Rural Environment examines the environmental issues affecting countryside planning Emphasis is placed on the look and feel of the open countryside the function and appearance of the rural environment rather than the problems of its people and the settlements in which they live Also discussed is the conflict of interest generated between some of the major planning systems concerned with the development of rural activities and the protection of rural resources Comprised of 13 chapters this volume begins with an assessment of

conflicting views of how a countryside of the future should develop and the degree of control and direction that should take place The following chapters consider how the emerging range of environmental problems and opportunities in rural planning can best be illustrated In particular the dominance of agriculture as a rural activity is analyzed together with forest and woodland management leisure activity in the countryside and conservation of resources and wildlife The next section is devoted to uplands and the urban fringe paying particular attention to some of the ways in which rural interests interact in two very different areas Finally the development of rural planning is reviewed and issues that are expected to shape the countryside of the future are considered This book should be of interest to postgraduate students of rural planning and specialists in various fields of countryside planning A Decision-centred View of Environmental Planning A.

Faludi,2013-10-22 Planning theorists are often criticised for being insufficiently concerned with the needs of practitioners The author of this book takes a view of planning which centres around the decision making process and offers a theoretical approach which takes practice as its starting point Building on his earlier important work Planning Theory Pergamon URPS 1984 first edition 1973 this book constitutes a further major advance in planning thought synthesizing the influence of the British IOR School with the American rational planning model Going beyond previous generic approaches the work culminates in a consideration of theory and practice in the planning of all forms of environmental intervention **Essays on Planning Theory and Education** A. Faludi,2013-10-22 A selection of essays concerned with the evolution of thought in the fields of both planning theory and education A joint treatment of these closely related themes adds to the understanding of planning theory as a conceptual basis for planning and aims to engender discussion of improvements to the education of planners **Models in Planning** C. Lee,2016-06-06 Models in Planning An Introduction to the Use of Quantitative Models in Planning focuses on some of the techniques utilized for the construction of urban and regional models with emphasis on the understanding of model structure rather than on rigorous mathematical analysis Organized into eight chapters this book begins by explaining the role of models in the planning process Subsequent chapters elucidate the principles for the design and use of models and the mathematical preliminaries involved The different models namely linear gravity and Lowry models are also described including their optimization This material will be very useful for students and practicing planners with a limited numerate background It will allow readers to follow up the extensive literature dealing with the more complex operational versions of the discussed models **An Introduction to Urban Geography** John R. Short,2017-10-12 This book first published in 1984 is an attempt to make students aware of the variety in the urban condition and to introduce them to some of the relationships operating between space and society From the broad aim of seeking to show the relationship between urbanism and society flows a number of sub themes including the importance of cross cultural comparisons and contrasts re distributional consequences and the role of government This book will be of interest to first and second year students of urban studies and human geography
