Strategic Pragmatism:

Towards Strategic Pragmatism in Foreign Policy Charles Chao Rong Phua, 2021-10-31 What is pragmatism Is it a means to an end or an end in itself Is it antithetical to ideology or morality Arguing that pragmatism is a skill much more than an attribute Phua examines how viewing it in this way can help achieve better foreign policy outcomes He examines and contrasts the ways in which the United States China and Singapore have incorporated pragmatism into their approaches to foreign policy In doing so he debunks dualistic myths around pragmatism and ideology and promotes the view of pragmatism as a skill that can be developed An essential primer for students analysts and policymakers with a fresh and practical approach to pragmatism Strategic Pragmatism Edgar H. Schein, 1996 Strategic Pragmatism Edgar H. Schein, 1996-06-17 foreword by Lester Thurow Per capita income in Singapore has gone from 500 to more than 20 000 in a little over twenty five years Edgar Schein a social psychologist with a long and celebrated research interest in organizational studies examines the cultural history of the key institution that spawned this economic miracle Through interviews and full access to Singapore's Economic Development Board EDB Schein shows how economic development was successfully promoted He delves into the individual relationships and the overall structure that contributed to the EDB's effectiveness in propelling Singapore one of Asia's little dragons into the modern era In his foreword Lester Thurow locates Schein's organizational and case specific account within a larger economic and comparative framework Over a period of two years Schein studied how the EDB was created the kind of leadership it provided the management structure it used the human resource policies it pursued and how it influenced other organizations within the Singapore government Schein sat in on EDB meetings and extensively interviewed current and former members of the board Singapore's leaders who created the board and businesspeople who have dealt with the board His book intertwines the perspective of the board's members and its investor clients in an analysis that uses both organization and cross cultural theory Although there are currently studies of comparable Japanese and Korean organizations this is the first detailed analysis of the internal structure and functioning of the economic development body of Singapore a key player in the Asian and world markets *Policy Strategy and Innovation Primer* Charles Chao Rong Phua, 2023-02-10 Phua focuses on applying the best of corporate strategy and innovation tools and praxis into the policy process with the aim of devising a coherent policy strategy innovation framework and process Government and business strategies differ in their operating assumptions and variables but the strategy process is more similar than is often perceived Phua debunks the government versus business dichotomy and demonstrates the potential for cross learning between both domains Readers will benefit the most by reading this book in tandem with Phua's other works on strategy also featured in this series This book is an essential primer for academics practitioners and learners of public policy strategy innovation and applied problem solving **The Oxford Handbook of Grand Strategy** Thierry Balzacq, Ronald R. Krebs, 2021 The Oxford Handbook of Grand Strategy addresses the conceptual and historical foundations

production evolution and future of grand strategy from a wide range of standpoints

Strategic Pragmatism Michele Schmiegelow, Henrik Schmiegelow, 1989-06-23 This powerful study suggests that strategic pragmatism has enabled Japan to use Western theories and doctrines more comprehensively and thoroughly than the West The authors contend that Japan's success depends in part upon three factors the ability to recognize a need for action the ability to respond to such a need even under less than optimal technological conditions cutting across theoretical and ideological lines and the ability to adjust or correct action as soon as failure is recognized By comparing Japan's policies and structure to patterns prevailing in major Western countries Japan's secret can be translated into concepts familiar to the West This brilliant and provocative book is a tour de force that argues that Japanese type economic policies can be duplicated in other capitalist states and that it is a mistake to believe that such policies can only evolve in the unique environment of Japanese culture and society Foreign Affairs Japan's rise to economic power has been the focus of much attention and speculation in the West This powerful study suggests that strategic pragmatism has enabled Japan to use Western theories and doctrines more comprehensively and thoroughly than the West The authors contend that Japan's success depends in part upon three factors The first is the ability to recognize a need for action Next the Japanese are able to respond to such a need even under less than optimal technological conditions and can cut across theoretical and ideological lines Finally they are ready to adjust or correct action as soon as failure is recognized Western countries should look at the global significance of Japan's economic performance and learn from their model of action By comparing Japan's policies and structure to patterns prevailing in major Western countries Japan's secret can be translated into concepts familiar to the West Economists government officials and business policy makers will find this new approach to Japan's success a worthwhile study Strategic Pragmatism opens with an explanation for Japan's economic performance The book then presents the interesting way in which Japan makes functional cuts across doctrines There is a chapter addressing adaptation and how Western economic concepts are incorporated into Japanese policy Goal attainment includes such topics as neo classical infant industry protection and mercantilist aspects in the policy of industrial development Pattern maintenance is followed by integration and then the relation of structure and action Finally the authors develop a model demonstrating how Japan derives a sense of direction from the nature of the changing problems to be solved the heart of strategic pragmatism

The Evolution of the Asian Developmental State J. J. Woo, 2018-09-03 Many East Asian states have undergone profound economic transformations over the last two decades Singapore and Hong Kong especially have adapted to shifting economic and technological conditions by transforming

themselves into smart developmental states In these cities the proliferation of digital technologies has given rise to new growth sectors and opened up new areas of political contestation within these early proponents of the developmental state model Providing a theoretical and empirical discussion of the Asian developmental state model the book assesses the evolution of the developmental state model considers recent developments in the field and evaluates the development state s continued relevance as a conceptual framework for understanding the politics of economic development Focusing on digital and technology enabled economic activities in Hong Kong and Singapore the author explores the various policies that allow developmental states to stimulate economic growth ensure organizational coherence and engage businesses and other stakeholders This book will be of interest to scholars and researchers of political economy and economic development in Asia as well as business professionals and other practitioners

China's Negotiating Mindset and Strategies Guy Olivier Faure,I. William Zartman,2025-06-30 This book analyzes the mindset with which China enters into negotiations and applies these insights into contemporary arenas of Chinese activity around the world The volume presents and analyses the historical and cultural foundations of Chinese thinking as used in the practice of present day negotiation It begins by addressing the essence of Chinese negotiations and the Chinese mindset turning to a section that presents the cultural foundations of that mindset and strategy The concepts of Confucianism Taoism Yin Yang and Chinese military strategy are highlighted The cases of the Belt and Road Initiative and the South and East China Seas are examined to show the application of these concepts with one addressing business and economic negotiations and the other examining cases of negotiation in geopolitics Finally a synthesis of what has been learned is presented which will contribute to negotiation theory and ultimately will help Western practitioners contemplating negotiation with Chinese diplomats and businesses as well as being a basis for policy analysts understanding of Chinese practices in international relations This book will be of much interest to students of international negotiation foreign policy business studies and international relations as well as practitioners and policymakers

Comparing High-Performing Education Systems Charlene Tan,2018-09-03 Comparing High Performing Education Systems provides original insights into the educational structures ideologies policies and practices in Singapore Shanghai and Hong Kong Taking as its basis their global reputation and consistently strong performance in formal assessments the author provides an in depth analysis and comparison of these three education systems that draws on cutting edge research Chapters explore the dominant cultural and educational norms in Singapore Shanghai and Hong Kong to give a wider picture of these high performing education systems The performance of students in international large scale assessments such as Programme for International Student Assessment PISA Trends in International Mathematics and Science Study TIMSS and Progress in International Reading Literacy Study PIRLS is considered alongside an exploration of attitudes to schooling tutoring and assessment The book shows how Singapore Shanghai and Hong Kong exemplify an East Asian Educational Model EAEM Such a model is rooted in and shaped by Confucian habitus unconscious and ingrained worldviews dispositions

and habits that reflect the standards of appropriateness in a Confucian Heritage Culture aspires high performance a balance between academic excellence and holistic development and utilises educational harmonisation the art of bringing together different and contradictory means and ends to achieve desired educational outcomes Informative and thought provoking this book is a useful reference for policymakers researchers educators and general readers on high performing education systems school reforms in East Asia Confucian influences on education and cross cultural policy learning and transfer *Feminist Research Methodology* Maithree Wickramasinghe, 2009-12-04 This book focuses on feminist research methodology exploring and analysing its constituting methods theory ontology epistemology ethics and politics and research issues relating to women gender and feminism in Sri Lanka The book examines ways of meaning making for the political ideological and ethical purposes of promoting individual and social change and constructs an example of feminist research praxis Using this South Asian country as a case study the author looks at the means by which researchers in this field inhabit engage with and represent the multiple realities of women and society in Sri Lanka In analysing what constitutes feminist research methodology in a transitional country the book links local research practices with Western feminist approaches taking into account the commonalities distinctions and specificities of working in a South Asian context Engaging with and re conceptualising three traditionally different types of research women s studies gender studies and feminist studies from a methodological perspective *Feminist Research Methodology* provides a framework for researching feminist issues Applicable at both a local and global level this original methodological framework will be of value to researchers working in any context

East Asia's Grand Strategies Ramon Pacheco Pardo, Jung H. Pak, 2025-10-01 An in depth exploration of the strategic dynamics shaping East Asia s future on the world stage East Asia is the epicenter of twenty first century geopolitics where military economic and diplomatic strategies intersect in complex and often unpredictable ways As the region becomes increasingly central to global power dynamics understanding the strategies that drive the actions of powers there is more critical than ever East Asia s Grand Strategies offers the first comparative analysis of the grand strategies of twelve East Asian powers and reveals how they shape their foreign policies balancing external pressures with domestic political realities In this edited volume experts from the region provide non Western perspectives and fresh insights into the unique factors influencing each case s grand strategy The chapters illuminate patterns that are critical for understanding East Asia s role in global politics today Scholars students and policymakers interested in East Asia s international relations and the evolving dynamics of its grand strategy will be interested in this timely analysis of the strategic forces shaping the region and by extension the future of global power Political Reason and Interest Herman H.H. van Erp, 2018-02-05 This title was first published in 2000 Politics cannot be conceived of as just a subsystem of society or as a network of particular interests The concept of interests and their role within the normative political debate is given a new interpretation by this book which examines how political interest market mechanisms and rational choice theories exist in the light of democratic freedom and

social justice The book builds on different concepts of procedural justice from Schumpeter Buchanan and Habermas's conceptions of democracy and the role of political compromise and coalition in the idea of consensus as a condition for political legitimation European Political Parties and Party Finance Reform Wouter Wolfs, 2022-04-06 This book provides a comprehensive overview of the party finance regime at the level of the European Union Based on an in depth analysis of the interaction between European political parties and their institutional environment it shows how the Europarties have coped with and altered the funding rules The book explains why increasing party subsidies have been made available and why considerable differences exist in how Eurosceptic and pro European parties have used their EU funding It also examines how party finance reform at the EU level has been at the centre of party competition by demonstrating how the rules were strategically changed to benefit some European parties over others Considering the strong democratic aspirations that lay at the origins of the finance regime the book explores its consequences for party democracy and the rule of law in Europe This book is valuable for scholars working on the European Parliament Eurosceptic parties EU decision making European party politics and political finance East Asia and Latin America Peter H. Smith, 田口浩二, Shōji Nishijima, 2003 Focuses on two broad themes economic and political connections between East Asia and Latin America and similarities and differences in developmental paths and public policies **Betting on Biotech** Joseph Wong, 2011-10-15 After World War II several late developing countries registered astonishingly high growth rates under strong state direction making use of smart investment strategies turnkey factories and reverse engineering and taking advantage of the postwar global economic boom Among these economic miracles were postwar Japan and in the 1960s and 1970s the so called Asian Tigers Singapore South Korea and Taiwan whose experiences epitomized the analytic category of the developmental state In Betting on Biotech Joseph Wong examines the emerging biotechnology sector in each of these three industrial dynamos They have invested billions of dollars in biotech industries since the 1990s but commercial blockbusters and commensurate profits have not followed Industrial upgrading at the cutting edge of technological innovation is vastly different from the dynamics of earlier practices in established industries The profound uncertainties of life science based industries such as biotech have forced these nations to confront a new logic of industry development one in which past strategies of picking and making winners have given way to a new strategy of throwing resources at what remain very long shots Betting on Biotech illuminates a new political economy of industrial technology innovation in places where one would reasonably expect tremendous potential yet where billion dollar bets in biotech continue to teeter on the brink of spectacular failure *Titans of the Climate* Kelly Sims Gallagher, Xiaowei Xuan, 2019-02-05 How the planet's two largest greenhouse gas emitters navigate climate policy The United States and China together account for a disproportionate 45 percent of global carbon dioxide emissions In 2014 then President Obama and Chinese President Xi Jinping announced complementary efforts to limit emissions paving the way for the Paris Agreement And yet with President Trump's planned withdrawal from the Paris accords and Xi's consolidation of

power as well as mutual mistrust fueled by misunderstanding the climate future is uncertain In *Titans of the Climate* Kelly Sims Gallagher and Xiaowei Xuan examine how the planet's two largest greenhouse gas emitters develop and implement climate policy Through dispassionate analysis the authors aim to help readers understand the challenges constraints and opportunities in each country Gallagher a former U S climate policymaker and Xuan a member of a Chinese policy think tank describe the specific drivers political economic and social of climate policies in both countries and map the differences between policy outcomes They characterize the U S approach as deliberative incrementalism the Chinese meanwhile engage in strategic pragmatism Comparing the policy processes of the two countries Gallagher and Xuan make the case that if each country understands more about the other's goals and constraints climate policy cooperation is more likely to succeed

History, Politics, Law Annabel Brett, Megan Donaldson, Martti Koskeniemi, 2021-10-07 Historians of political thought and international lawyers have both expanded their interest in the formation of the present global order *History Politics Law* is the first express encounter between the two disciplines juxtaposing their perspectives on questions of method and substance The essays throw light on their approaches to the role of politics and the political in the history of the world beyond the single polity They discuss the contrast between practice and theory as well as the role of conceptual and contextual analyses in both fields Specific themes raised for both disciplines include statehood empires and the role of international institutions as well as the roles of economics innovation and gender The result is a vibrant cross section of contrasts and parallels between the methods and practices of the two disciplines demonstrating the many ways in which both can learn from each other
