## Strategic Rage:

**Strategic Conflict** Daniel J. Canary, Sandra Lakey, 2012-08-21 Strategic Conflict offers a research based accessible analysis of how people can manage conflict productively Moving beyond the basics of conflict it examines interpersonal situations in which conflict occurs and promotes strategic communicative responses based on the latest theoretical research Daniel J Canary and his colleagues add personal observations media examples and samples of actual interaction to provide concrete illustrations of the research findings This comprehensive volume provides students with the tools to understand conflict in real world contexts

*American Rage* Steven W. Webster, 2020-08-27 American Rage argues that anger is the central emotion governing contemporary US politics with powerful deleterious effects Tracing the developments that have given rise to a culture of anger in the mass public the book sheds new light on both public opinion and voting behavior Steven W Webster skillfully uses a combination of novel datasets new measures of anger and a series of experiments to show how anger causes citizens to lose trust in the national government and weaken in their commitment to democratic norms and values Despite these negative consequences political elites strategically seek to elicit anger among their supporters Presenting compelling evidence Webster ultimately concludes that elites engage in this behavior because voter anger leads to voter loyalty When voters are angry they are more likely to vote for their party s slate of candidates at multiple levels of the federal electoral system

*Racial Trauma: Clinical Strategies and Techniques for Healing Invisible Wounds* Kenneth V. Hardy, 2023-02-21 An urgent wide ranging account of racial trauma and its psychological impact Racial trauma is an inescapable byproduct of persistent exposure to repressive circumstances that emotionally psychologically and physically devastates one s sense of self while simultaneously depleting one s strategies for coping It is a life altering and debilitating experience that affects countless numbers of people of color over multiple generations Unfortunately the failure to consider the interrelationship between racial oppression and trauma limits clinicians ability to work effectively with many people of color who live amid sociocultural conditions that are injurious to their psyches and souls Even when therapy is trauma informed it rarely devotes adequate attention to racial oppression and the pervasive trauma associated with it This groundbreaking book provides a comprehensive overview of the anatomy of racial trauma and the debilitating hidden wounds associated with it Racially sensitive trauma informed interventions and strategies that centralize race and racial oppression in every facet of the therapeutic process and relationship are meticulously highlighted making this a must read resource for all practicing and aspiring clinicians

**Arterial Aging and Age-Associated Arterial Diseases** Mingyi Wang,Jiguang Wang,Gianfranco Pintus,Cuntai Zhang,2019-01-24 The underlying mechanisms behind aging has long been a great scientific mystery that the biomedical research community has long studied In developed nations as the population grows older increases in life expectancy is increasingly limited by our relatively poor control of chronic aging associated diseases such as arterial aging Among age related conditions that negatively influence longevity Growing evidence demonstrates that arterial aging is fundamentally caused by a proinflammatory process that begins at birth and results in detrimental effects that affects every organ system Vascular aging is the leading risk factor for quintessential cardiovascular diseases such as hypertension and atherosclerosis With aging vascular walls develop a pro inflammatory and stressed microenvironment characterized by both an upregulation of pro inflammatory chemokines and cytokines as well as a down regulation anti inflammatory counterparts This chronic imbalance in inflammatory regulatory networks is the key driver of changes at the cellular and molecular level that result in hypertensive and atherosclerotic arterial Thus an intervention of proinflammation may be a viable therapeutic intervention to reduce morbidity and mortality from cardiovascular diseases In this eBook we aim to supply an updated overview of the physiological and biochemical mechanisms that affect inflammation and vascular aging We believe that this eBook will contribute to the understanding of the pathogenesis of many chronic or age related diseases as well as to their treatment with both current and new therapeutic approaches
