Strategies And Saints Fighting Drugs In Subsidized Housing:

Strategies and Saints Langley Carleton Keyes, 1992 Reauthorization of Legal Services Corporation United States. Congress. House. Committee on the Judiciary. Subcommittee on Commercial and Administrative Law, 1996 **Purging the Poorest** Lawrence J. Vale, 2024-05-31 The building and management of public housing is often seen as a signal failure of American public policy but this is a vastly oversimplified view In *Purging the Poorest* Lawrence J Vale offers a new narrative of the seventy five year struggle to house the deserving poor In the 1930s two iconic American cities Atlanta and Chicago demolished their slums and established some of this country s first public housing Six decades later these same cities also led the way in clearing public housing itself Vale s groundbreaking history of these twice cleared communities provides unprecedented detail about the development decline and redevelopment of two of America s most famous housing projects Chicago s Cabrini Green and Atlanta s Techwood Clark Howell Homes Vale offers the novel concept of design politics to show how issues of architecture and urbanism are intimately bound up in thinking about policy Drawing from extensive archival research and in depth interviews Vale recalibrates the larger cultural role of public housing revalues the contributions of public housing residents and reconsiders the role of design and designers **Urban Problems and Community Development** Ronald F. Ferguson, William T. Dickens, 2011-01-01 In recent years concerned governments businesses and civic groups have launched ambitious programs of community development designed to halt and even reverse decades of urban decline But while massive amounts of effort and money are being dedicated to improving the inner cities two important questions have gone unanswered Can community development actually help solve long standing urban problems And based on social science analyses what kinds of initiatives can make a difference This book surveys what we currently know and what we need to know about community development s past current and potential contributions The authors economists sociologists political scientists and a historian define community development broadly to include all capacity building including social intellectual physical financial and political assets aimed at improving the quality of life in low to moderate income neighborhoods The book addresses the history of urban development strategies the politics of resource allocation business and workforce development housing community development corporations informal social organizations schooling and public security **Rebuilding Community** Joan Smith, 2001-10-10 Our poorest urban neighbourhoods experience economic and social difficulties that uniquely affect the lives of those who live there This volume examines the policies and initiatives now underway on both sides of the Atlantic to revitalize those areas With contributors from the US France and the UK the volume explains the nature of specific community building programmes and explores critical issues such as the role of partnerships and the importance of race and gender in urban regeneration From the War on Poverty to the War on Crime Elizabeth Hinton, 2016-05-02 Co Winner of the Thomas J Wilson Memorial Prize A New York Times Notable Book of the Year A New York Times Book Review Editors Choice A Wall Street Journal Favorite Book of the Year A

Choice Outstanding Academic Title of the Year A Publishers Weekly Favorite Book of the Year In the United States today one in every thirty one adults is under some form of penal control including one in eleven African American men How did the land of the free become the home of the world s largest prison system Challenging the belief that America s prison problem originated with the Reagan administration s War on Drugs Elizabeth Hinton traces the rise of mass incarceration to an ironic source the social welfare programs of Lyndon Johnson s Great Society at the height of the civil rights era An extraordinary and important new book Jill Lepore New Yorker Hinton s book is more than an argument it is a revelation There are moments that will make your skin crawl This is history but the implications for today are striking Readers will learn how the militarization of the police that we ve witnessed in Ferguson and elsewhere had roots in the 1960s Imani Perry New York Times Book Review

Managing America's Cities Roger L. Kemp, 2014-01-10 This work describes the operations of a typical municipal government and examines the many productivity trends that are occurring in city halls across America Much of the focus is on the increasing need for planning in city government to ensure that productivity goals are met It thoroughly examines the roles of the council manager and clerk in promoting increased productivity It then looks at such municipal departments as legal finance fire human services library police and public works demonstrating proven techniques and structures in each that improve service Instructors considering this book for use in a course may request an examination copy here

Social Capital and Poor Communities Susan Saegert, J. Phillip Thompson, Mark R. Warren, 2002-01-10 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence Social Capital and Poor Communities shows the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families Social Capital and Poor Communities examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement Social Capital and Poor Communities convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book s frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the

most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building Public Housing Drug Elimination Program Resource Document Theodore M. Hammett, Judith D. Feins, Theresa Mason, Ingrid Ellen, 1997-06 This report presents the results of an evaluation of the Public Housing Drug Elimination Program which was implemented in 1989 This program assists public and Indian housing agencies to implement locally designed programs to reduce drug use and drug related crimes in public housing communities and improve the quality of life of the residents This evaluation measured program participants progress identified issues or problems in implementation and evaluated their success in achieving program goals Contents universe of public housing drug elimination program grantees factors affecting success recommendations **The Oxford Handbook of Urban Economics and Planning** Nancy Brooks, Kieran Donaghy, Gerrit-Jan Knaap, 2012-01-12 This volume embodies a problem driven and theoretically informed approach to bridging frontier research in urban economics and urban regional planning The authors focus on the interface between these two subdisciplines that have historically had an uneasy relationship Although economists were among the early contributors to the literature on urban planning many economists have been dismissive of a discipline whose leading scholars frequently favor regulations over market institutions equity over efficiency and normative prescriptions over positive analysis Planners meanwhile even as they draw upon economic principles often view the work of economists as abstract not sensitive to institutional contexts and communicated in a formal language spoken by few with decision making authority Not surprisingly papers in the leading economic journals rarely cite clearly pertinent papers in planning journals and vice versa Despite the historical divergence in perspectives and methods urban economics and urban planning share an intense interest in many topic areas the nature of cities the prosperity of urban economies the efficient provision of urban services efficient systems of transportation and the proper allocation of land between urban and environmental uses In bridging this gap the book highlights the best scholarship in planning and economics that address the most pressing urban problems of our day and stimulates further dialog between scholars in urban planning and urban economics *Bridging Regional Growth and Community Empowerment* Michael A. Stegman, William J. Benfanti, John P. Ross, 1996-12 Contents ideas matter reflections on the new regionalism central cities loss of power in state politics inside out regional networks and industrial adaptation in Silicon Valley and Route 128 specialization vs diversity in local economies the implications for innovative private sector behavior crime and community continuities contradictions and complexities community empowerment strategies the limits and potential of community organizing in urban neighborhoods and comprehensive neighborhood based initiatives Charts and tables Cityscape , 1996 **Geographic Information Systems and Crime Analysis** Fahui Wang, 2005-01-01 Computerized crime mapping or GIS in law enforcement agencies has experienced rapid growth particularly since the mid

1990s There has also been increasing interests in GIS analysis of crime from various academic fields including criminology geography urban planning information science and others This book features a diverse array of GIS applications in crime analysis from general issues such as GIS as a communication process and inter jurisdictional data sharing to specific applications in tracking serial killers and predicting juvenile violence Geographic Information Systems and Crime Analysis showcases a broad range of methods and techniques from typical GIS tasks such as geocoding and hotspot analysis to advanced technologies such as geographic profiling agent based modeling and web GIS Contributors range from university professors criminologists in research institutes to police chiefs GIS analysts in police departments and consultants in criminal justice

Neighborhood Poverty Jeanne Brooks-Gunn, Greg Duncan, J. Lawrence Aber, 1997-11-13 Perhaps the most alarming phenomenon in American cities has been the transformation of many neighborhoods into isolated ghettos where poverty is the norm and violent crime drug use out of wedlock births and soaring school dropout rates are rampant Public concern over these destitute areas has focused on their most vulnerable inhabitants children and adolescents How profoundly does neighborhood poverty endanger their well being and development Is the influence of neighborhood more powerful than that of the family Neighborhood Poverty approaches these questions with an insightful and wide ranging investigation into the effect of community poverty on children's physical health cognitive and verbal abilities educational attainment and social adjustment This two volume set offers the most current research and analysis from experts in the fields of child development social psychology sociology and economics Drawing from national and city based sources Volume I reports the empirical evidence concerning the relationship between children and community As the essays demonstrate poverty entails a host of problems that affects the quality of educational recreational and child care services Poor neighborhoods usually share other negative features particularly racial segregation and a preponderance of single mother families that may adversely affect children Yet children are not equally susceptible to the pitfalls of deprived communities Neighborhood has different effects depending on a child's age race and gender while parenting techniques and a family's degree of community involvement also serve as mitigating factors Volume II incorporates empirical data on neighborhood poverty into discussions of policy and program development The contributors point to promising community initiatives and suggest methods to strengthen neighborhood based service programs for children Several essays analyze the conceptual and methodological issues surrounding the measurement of neighborhood characteristics These essays focus on the need to expand scientific insight into urban poverty by drawing on broader pools of ethnographic epidemiological and quantitative data Volume II explores the possibilities for a richer and more well rounded understanding of neighborhood and poverty issues To grasp the human cost of poverty we must clearly understand how living in distressed neighborhoods impairs children's ability to function at every level Neighborhood Poverty explores the multiple and complex paths between community family and childhood development These two volumes provide an indispensable guide for social policy and demonstrate the power of interdisciplinary social

science to probe complex social issues *How to Save and Improve Public Housing* ,1994 *Puget Sound Naval Station, Sand Point, Disposal and Reuse, King County* ,1997 **Handbook of Urban Health** Sandro Galea,David Vlahov,2006-10-12

As more people worldwide live in cities increasingly we need to understand how cities and city living affect population health Does city living negatively affect health Conversely can city living enhance population health and well being Over forty experts from around the world bring a depth of ideas to the Handbook of Urban Health making the Handbook a focused resource for a range of health disciplines The Handbook presents 1 A discussion of the health of specific urban populations among them immigrants children the elderly racial and sexual minorities the homeless and the poor 2 Methods relevant to the study of urban health including epidemiology research methods funding and policy issues urban planning 3 Practical issues for developing healthy cities including interventions preventive strategies providing health services and teaching urban health 4 International perspectives from developing countries and the World Health Organization 5 Integrative chapters that conclude each of the book s sections bringing together theoretical models with the big picture A unique professional idea book research resource and teaching text the Handbook of Urban Health challenges readers to consider the role that cities play in shaping population health and to generate solutions that can make cities healthier places for all those who live there Future Visions of Urban Public Housing (Routledge Revivals) Wolfgang F. E. Preiser,David P. Varady,Francis P. Russell,2017-08-03 First published in 1994 this book brings together the papers presented at the International Forum on Future Visions of Urban Public Housing held on November 17 20 1994 in Cincinnati Ohio Participants included public housing officials academics practitioners and public housing residents who came together to debate compare and analyse practices and issues in urban and public housing in industrialised nations The 55 collected papers address the following key topics public housing policy comprehensive neighbourhood planning for public housing public housing in the urban design context quality of design standards and guidelines for public housing resident participation and enhanced self sufficiency in public housing public housing alternatives revitalising and rehabilitating public housing the Elderly Children and special populations in public housing The findings suggest new directions for policy and agendas for action Solving Crime Problems in Residential Neighborhoods Judith D. Feins,Joel C. Epstein,Rebecca Widom,1997 Intended to inform law enforcement officials urban planners guidelines sources of info training technical advice **Public Housing Myths** Nicholas Dagen Bloom,Fritz Umbach,Lawrence J. Vale,2015-04-10 Popular opinion holds that public housing is a failure so what more needs to be said about seventy five years of dashed hopes and destructive policies Over the past decade however historians and social scientists have quietly exploded the common wisdom about public housing Public Housing Myths pulls together these fresh perspectives and unexpected findings into a single volume to provide an updated panoramic view of public housing With eleven chapters by prominent scholars the collection not only covers a groundbreaking range of public housing issues transnationally but also does so in a revisionist and provocative manner With students in mind Public Housing

Myths is organized thematically around popular preconceptions and myths about the policies surrounding big city public housing the places themselves and the people who call them home The authors challenge narratives of inevitable decline architectural determinism and rampant criminality that have shaped earlier accounts and still dominate public perception
