Strategies For Therapy With The Elderly 2nd Edition Living With Hope And Meaning:

Strategies for Therapy with the Elderly Claire Brody, Vicki Semel, 2005-09-27 Newly revised and updated In this second edition Brody and Semel contend that meaningful and successful therapy can be accomplished with an aging population debunking the belief that the elderly can not pick up or put into practice newly acquired information Rather the way in which therapy with aging adults is approached may affect the way in which the therapist initially experiences and reacts to the client because of stereotypes about aging This book encompasses three major areas of work with elderly clients aged 60 years and older Living in nursing homes Living in assisted living housing while participating in community oriented activities for the aged Living independently and being seen in private practice It comprises a variety of approaches ranging from eclectic small group formats for nursing home residents group and individual counseling in assisted living settings and home care for the elderly to psychoanalytic therapy techniques in private practice Illustrative case examples used throughout the book bring to life successful strategies and interventions New areas of focus include Treatment of stress and mental disorders Alzheimer s disease Caregiving issues at home Expanded information on Medicare coverage issues

Geropsychology and Long Term Care Erlene Rosowsky, Joseph M. Casciani, Merla Arnold, 2010-01-23 It is with great pride that the Psychologists in Long Term Care PLTC have sponsored The Professional Educational Long Term Care Training Manual and now its second iteration Geropsychology and Long Term Care A Practitioner s Guide Education of psychologists working in long term care settings is consistent with PLTC s mission to assure the provision of high quality psychological services for a neglected sector of the population i e residents in nursing homes and assisted living communities To this end direct training of generalist psychologists in the nuances of psychological care delivery in long term care settings has been a major priority It is a tribute to the accelerating nature of research in long term care settings that a revision is now necessary After all the Professional Educational Training Manual s initial publication date was only in 2001 However in the intervening years much progress has been made in addressing assessment and intervention strategies tailored to the needs of this frail but quite diverse population It is so gratifying to be able to say that there is now a corpus of scientific knowledge to guide long term care service delivery in long term care settings
