Strategy After Deterrence:

Strategy After Deterrence Stephen J. Cimbala, 1991-01-30 The profound political changes in the USSR and Eastern Europe during 1989 have forced the United States and its Western European allies to reevaluate both their long held military strategy of nuclear deterrence and the traditional role of NATO in European affairs In this volume Stephen Cimbala considers the ways in which American military priorities will have to change now that the tangible threat to Europe has been removed exploring the options available to America and NATO given the new political and economic realities in Europe and the Soviet Union Drawing upon a rich literature of Soviet and American defense strategy Cimbala examines the structure and effectiveness of deterrence as a military strategy the relationship between conventional and nuclear weapons the likely course of future conflicts and alternative military strategies Following an introductory chapter which defines the concepts of deterrence and dissuasion and offers an overview of the changing character of European politics Cimbala reviews the political context for the development of military strategy in Europe Subsequent chapters consider the relationship between military stability and the likelihood of winning wars in their initial stages analyze the issue of deterrence during war discuss the potential for atypical wars in the future and investigate the linkages between deception and deterrence A separate chapter addresses the attempt to substitute non nuclear dissuasion for nuclear deterrence in the form of anti nuclear strategic defenses which could defeat nuclear offenses In the final chapter Cimbala summarizes his conclusions and makes some additional observations about the implications of our new view of NATO and deterrence Students of international relations foreign policy and military studies will find Cimbala's work enlightening and provocative reading

Strategic Thinking, Deterrence and the US Ballistic Missile Defense Project Reuben Steff, 2016-04-01 A systematic critical survey of American strategic thinking and the strategic culture in which it is formed In particular this book seeks to interrogate the theory and strategy of nuclear deterrence and its relationship to the concept of missile defence Drawing widely on the theoretical literature in international relations and strategic studies it identifies the key groups that have competed over America's nuclear policy post 1945 and examines how the concept of missile defence went through a process of gestation and intellectual contestation leading to its eventual legitimization in the late 1990s Steff sheds light on the individuals groups institutions and processes that led to the decision by the Bush administration to deploy a national missile defence shield Additionally Steff systematically examines the impact deployment had on the calculations of Russia and China In the process he explains that their reactions under the Bush administration have continued into the Obama era revealing that a new great power security dilemma has broken out This Steff shows has led to a decline in great power relations as a consequence

Future of Strategic Deterrence Christoph Bertram, 1981-06-18 **China's Evolving Approach to "Integrated Strategic Deterrence"** Michael S. Chase, Arthur Chan, 2016-04-07 This report finds that China's strategic deterrence concepts are evolving in response to a changing assessment of its external security environment and a growing emphasis on

protecting its emerging interests in space and cyberspace **The Power of Deterrence** Amir Lupovici, 2016-09-01 Why do states persist in using force to enhance their deterrent posture even though it is not clear that it is effective This book develops an innovative framework to answer this question viewing deterrence as an idea This allows the author to explain how countries institutionalize deterrence strategy and how this internalization affects policy He argues that the US and Israel have both internalized deterrence ideas and become attached to these practices For them deterrence is not just a means to advance physical security but it constitutes their very selves as deterring actors As a result being unable to deter becomes a threat to their identity evoking strong emotional responses In recognizing these dynamics the book provides a fresh perspective on the US war in Iraq 2003 and the Israeli war in Lebanon 2006 both of which can be seen as attempts to repair each country's shaken sense of self **Social Psychological Process And Effects On The Law** Colleen M. Berryessa, Yael Granot, Melissa de Vel-Palumbo, Clare Sarah Allely, 2022-09-27 **Nuclear Deterrence And Global Security In Transition** David Goldfischer, 2019-04-08 This book contains papers presented at a conference held at the University of California's Institute on Global Conflict and Cooperation in 1991 The papers reflect the spectrum of thought in the expert community that is likely to frame the policy debate over the future of nuclear deterrence *U.S. Air Force Strategic Deterrence Capabilities in the 21st Century Security Environment* National Research Council, Division on Engineering and Physical Sciences, Air Force Studies Board, Committee on U.S. Air Force Strategic Deterrence Capabilities in the 21st Century Security Environment: A Workshop, 2013-01-01 Changes in the 21st century security environment require new analytic approaches to support strategic deterrence Because current adversaries may be deterred from the use of nuclear weapons differently than were Cold War adversaries the Air Force needs an analytic process and tools that can help determine those Air Force capabilities that will successfully deter or defeat these new nuclear armed adversaries and assure U S allies While some analytic tools are available a coherent approach for their use in developing strategy and policy appears to be lacking Without a coherent analytic approach that addresses the nuances of today's security environment Air Force views of its strategic deterrence needs may not be understood or accepted by the appropriate decision makers A coherent approach will support Air Force decisions about its strategic force priorities and needs deter actual or potential adversaries and assure U S allies In this context the Air Force in 2012 requested that the Air Force Studies Board of the National Research Council undertake a workshop to bring together national experts to discuss current challenges relating strategic deterrence and potential new tools and methods that the Air Force might leverage in its strategic deterrence mission The workshop consisted of two 3 day sessions held in Washington DC on September 26-28 2012 and January 29-31 2013 and was attended by a very diverse set of participants with expertise in strategic deterrence and a range of analytic tools of potential interest to the Air Force U S Air Force Strategic Deterrence Capabilities in the 21st Century Security Environment summarizes this workshop **Israeli Strategy After Desert Storm** Aharon Levran, 2014-03-05 Iraq's invasion of Kuwait

Conventional Coercion Across the Spectrum of Operations David E. Johnson,Karl P. Mueller,William H. Taft (V.),2002 The raison d tre for any military is to deter an adversary from acting inimically to a nation s interests or if deterrence fails to coerce him into ceasing the actions After defining terms and reviewing the literature on coercion this report looks at the utility of the military as a coercive instrument The authors analyze cases that provide insights into conventional coercion They conclude by stressing the unchanged nature of coercion and that only a thorough understanding of our adversaries and of our own will and capabilities will yield a successful coercive strategy

Conventional Military Strategy in the Third Nuclear Age Joy Mitra,2023-02-28 This volume delves into the way conventional deterrence operates between nuclear armed states in the third nuclear age Unlike the first and second ages the advent of this new age has witnessed greater strain on the principles of mutual vulnerability and survivability that may result in increased risks of advertent or inadvertent escalation and horizontal nuclear proliferation The book looks at the sum of three key simultaneous developments in the third nuclear age that merit attention These include the emergence of asymmetric strategies the introduction of unmanned platforms and the expansion of nuclear arsenals The volume discusses how these concurrent developments might shape the practice of conventional deterrence and provides useful insights into conventional military dynamics not just among the current nuclear dyads but also ones that may emerge in future It seeks answers to several key issues in state security not limited to What purpose and scope does the conventional military instrument have in a state s overall military strategy versus other nuclear armed states If mutual vulnerability and deterrence are the frameworks why did the prospect of escalation appear in the first place What are the trends political doctrinal or technological that augment or diminish conventional and nuclear interface With insights on military crises that have witnessed participation from nuclear armed states like the United States Russia China Pakistan and India this book will especially be of interest to scholars and researchers working in the areas of security and deterrence studies defence and strategic studies peace and conflict studies and foreign policy It will also appeal to policymakers career bureaucrats security and defense practitioners and professionals working with think tanks and embassies
