Strategy Journeys David Booth,2016-09-14 Strategy Journeys starts from the premise that strategic planning suffers from a bad press it can be seen as complex technical remote from the day to day reality of an organisation undertaken by an elite specialist executive group producing threatening changes whose rationale is barely understood or perhaps worse still having no worthwhile impact at all For many senior executives strategic planning is too daunting a task which is why they often seek help from those with the expertise to guide the process they have a severe lack of confidence in their own ability to design plan and implement such an important and major project Yet organisations have never had greater need for a flexible resilient and engaging approach to strategic planning than now How do those leading an organisation know where to start what approach to take and how to go about the process of strategic planning David Booth aims to help them by demystifying the concept and propounding a first principles approach to developing a strategic plan within the context of the individual organisation and with the

flexibility to adapt the process to focus on what really matters He suggests the key questions that should be asked when considering embarking on a strategic planning journey to help design and guide the process      **Successful Strategy**
