reckon with aggressive and innovative competitors from all corners of the world As the cross border flow of people knowledge ideas products services and management practices accelerates the notion of home based advantage is becoming weaker Unlike their domestic counterparts firms competing across borders must deal with differences in political legal financial cultural governance and macroeconomic contexts These contextual differences shape competition in international strategy and make the study of international strategy more than just a simple extension of classic strategic analysis Global Strategy deals with the question of how firms can compete in a global environment Andrew Inkpen and Kannan Ramaswamy examine the issues considered central to the study of strategic management in a global context such as the nature of global advantage strategic alliances competing in emerging markets international corporate governance global knowledge management and ethical issues in international business Much as been written about the relevance of global regional and domestic strategies to counter competition from overseas and as a means to enter foreign markets However loba Strategy takes a broader view organizing itself around a set of strategic management issues that arise specifically because a firm is international While there is obviously some overlap between domestic strategic management and global strategic management it is Inkpen and Ramaswamy s contention that the differences between domestic and global strategy warrant specific attention By integrating academic research with practical examples and case studies they inform students and managers of global business about a diverse set of important strategic issues

Internationalization of Business Stefan Schmid,2018-12-30 This book illustrates the various facets of internationalization in managerial practice starting with a strategic outline of the many options firms have when formulating internationalization strategies Designed as a textbook for Bachelor Master and MBA classrooms the core of the book consists of six case studies on firms from diverse industries such as sporting goods aviation grocery discount motorcycle computer and IT and fast food The cases present a variety of ways of entering and operating in foreign markets such as export franchising joint ventures strategic alliances greenfield investments acquisitions and mergers In addition to market entry strategies the cases provide readers educators and students with insights into target market strategies timing strategies allocation strategies and coordination strategies of well known companies
