Department of Printed Books, 1968 **British Books in Print**, 1985 **The Guild and Guild Buildings of Shakespeare's Stratford** J.R. Mulryne, 2016-03-09 The guild buildings of Shakespeare's Stratford represent a rare instance of a largely unchanged set of buildings which draw together the threads of the town's civic life With its multi disciplinary perspectives on this remarkable group of buildings this volume provides a comprehensive account of the religious educational legal social and theatrical history of Stratford focusing on the sixteenth century and Tudor Reformation The essays interweave with one another to provide a map of the complex relationships between the buildings and their history Opening with an investigation of the Guildhall which served as the headquarters of the Guild of the Holy Cross until the Tudor Reformation the book explores the building's function as a centre of local government and community law and as a place of entertainment and education It is beyond serious doubt that Shakespeare was a school boy here and the many visits to the Guildhall by professional touring players during the latter half of the sixteenth century may have prompted his acting and playwriting career The Guildhall continues to this day to house a school for the education of secondary level boys The book considers educational provision during the mid sixteenth century as well as examining the interaction between touring players and the everyday politics and social life of Stratford At the heart of the volume is archaeological and documentary research which uses up to date analysis and new dendrochronological investigations to interpret the buildings and their medieval wall paintings as well as proposing a possible location of the school before it transferred to the Guildhall Together with extensive archival research into the town's Court of Record which throws light on the commercial and social activities of the period this rich body of research brings us closer to life as it was lived in Shakespeare's Stratford *Shakespeare Survey: Volume 60, Theatres for Shakespeare* Peter Holland, 2007-11-22 Shakespeare Survey is a yearbook of Shakespeare studies and production The theme for Shakespeare Survey 60 is Theatres for Shakespeare **The Battle of the Books** Joseph M. Levine, 2018-07-05 Joseph M Levine provides a witty and erudite account of one of the most celebrated chapters in English cultural history the acrimonious quarrel between the ancients and the moderns which Jonathan Swift dubbed the Battle of the Books The dispute that amused and excited the English world of letters from 1690 until the 1730s was Levine shows an installment in the long standing debate about the relationship of classical learning to modern life Levine argues that the debate was fundamentally a quarrel about the rival claims of history

and literature concerning the proper way to understand the authors of the past He skillfully examines how both sides wrote their own brands of history The moderns led by Richard Bentley proposed that the modern inventions of classical scholarship and archaeology gave them a superior insight into the past the ancients marshaled by Jonathan Swift and Alexander Pope held out for a more direct imitation of antiquity and opposed the new scholarship with all the force of their satire and invective Levine demonstrates that the ancients and the moderns influenced each other in powerful ways and had much more in common than they knew Chronicling a critical episode in the development of modern scholarship *The Battle of the Books* illuminates the roots of present day controversies about the role of the classics in the curriculum and the place of the humanities in education *The World of the Tavern* Beat Kümin, B. Ann Tlusty, 2017-07-05 The subject of drink received a great deal of attention from early modern Europeans Preachers physicians authorities artists and travellers all addressed it from a range of different perspectives At the same time inns taverns and alehouses served as multifunctional centres in towns and villages throughout Europe This combination resulted in a wealth of sources both institutional and cultural which are only now beginning to be explored This anthology features new research on public houses in England Russia and the German lands In a series of general thematic and regional studies contributors engage with broader debates in early modern history shedding light on such key issues as consumption travel and communication state building confessional identity fiscal practice gender and household relations and the use of public spaces The result is a volume that should appeal to anybody with an interest in early modern cultural history *Foul Deeds & Suspicious Deaths in Stratford & South Warwickshire* Nick Billingham, 2006-03-31 *Foul Deeds and Suspicious Death in Stratford and South Warwickshire* is an exploration of the darker history of the area Behind the famous tourist industry of Shakespeares everyday life on farms and factories carried on just like anywhere else Ancient superstitions and curious legends provided inspiration for the great bard and other authors but real life was punctuated by sudden death jealousy and ruthlessness This book examines some of the most dramatic incidents in detail Drawn from contemporary sources newspapers legal documents and coroners records each case provides a glimpse into life and death in its historical setting The changes in the town both in its architecture and social values from the background to the lives and deaths of its citizens **The Political Economy of Nation Building** Mack Ott, 2017-07-28 Donor nations may advise and counsel but the creation of a liberal nation state falls to its own people They must create laws exercise their liberties provide freedom of belief and expression and protect individual property rights No nation becomes or remains free unless its people build use and defend these institutions and protect them with understanding vigilance and effort *The Political Economy of Nation Building* reviews the effects of political structures on the evolution and stability of liberalism in developing nations and considers the outlook for their success Discussing the origins and applications of the modern liberal state from an explicitly Anglo and Euro centric view Mack Ott addresses the origins of the rule of law and innovations that led to the rise of a market economy separation of faith and governance and the autonomy of finance key

components of the liberal state He then addresses the emergence of sustained economic growth a bridge between the liberal infrastructure and its application during the construction of a nation Ott examines budget policy and laws and accurate and timely economic and financial statistical reporting that assure donors that the recipient government is operating within the constraints of law He addresses the beneficial effects of privatization of state owned industry examines the costs and benefits of nurturing non governmental associations and concludes with a review of transparent fiscal and monetary policies and the importance of non interference in financial markets by the state
