Sex Work, Text Work Jessica Tanner, 2023-05-15 Though male French authors plotted prostitution to make their names mimicking the surveillance of municipal authorities the sex workers in their books manage to evade efforts to contain them While prostitutes in nineteenth century Paris were subject to municipal laws that policed their bodies and movements writers of the era enlisted them to stake their own claims on both the city and the novel as literary territory *Sex Work Text Work Mapping Prostitution in the Nineteenth Century French Novel* explores how prostitutes depicted by mile Zola Joris Karl Huysmans Edmond de Goncourt Adolphe Tabarant and Charles Louis Philippe write back confounding civil and literary efforts to contain them in space and in narrative In city regulated brothels brasseries femmes Haussmannian boulevards and the novel itself working class prostitutes served to reinforce the boundaries of social inclusion and exclusion And yet Jessica Tanner contends even the novels that most explicitly aligned with the disciplinary logic of regulated prostitution make space

for a distinctly literary form of resistance these women elude or disrupt the mapping that would claim them as literary territory revealing their authors failure to secure their narratives as property Tanner pushes back against the critical tendency to attribute agency only to courtesans who became published authors and forwards a new framework for understanding the political work novels engage in as they circulate Observing that debates about the regulation of prostitution surfaced in tandem with racialized anxieties about the boundaries of the French nation Tanner ultimately expands that framework to the history of French colonialism and the politics of immigration in the current day This book shows that while sex workers have been recruited to mark the borders of civic and moral life prostitution can also make space for more inclusive forms of community both in the novel and in the world beyond its bounds **Criminal Behaviour in Context** Nick Flynn,2017-09-25 This book examines the extent to which criminal desistance the change process involved in the ending of criminal behaviour is affected by personal and social circumstances which are place specific Grounded in criminological spatial analysis as well as more general social scientific investigations of the role of space and place in contemporary social economic and cultural life it examines why large numbers of prisoners in the United States and the United Kingdom appear to be drawn from and after release return to certain urban neighbourhoods In doing so Criminal Behaviour in Context assesses the effect of this unique life course experience on the pathways and choices open to ex prisoners who attempt to give up crime Including new data on the geographical distribution of offenders interviews with serving prisoners and drawing on theories about social context identity and subjectivity it discusses the implications of the evidence and arguments presented for prisoner reintegration policy and practice **InfoWorld** ,1993-07-26 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Minerals Yearbook** ,2009
