The Tribe of Tiger Elizabeth Marshall Thomas, 2015-07-14 From the majestic Bengal tiger to the domesticated Siamese comes a meditation on cats from the bestselling author of *The Hidden Life of Dogs* and *The Social Lives of Dogs*. From as far back in time as the disappearance of the dinosaurs, cats have occupied an important place in our evolutionary, social, and cultural history. The family of the cat is as diverse as it is widespread, ranging from the lions, tigers, and pumas of the African and Asian wilds to the domesticated cats of our homes, zoos, and circuses. When she witnesses her housecat Rajah effortlessly scare off two fully grown deer, acclaimed anthropologist Elizabeth Marshall Thomas starts studying the links that bind the feline family together. Immersing herself in the subtle differences of their social orders, feeding behaviors, and means of communication, Thomas explores the nature of the cat, both wild and domestic, and the resilient streak that has ensured its survival over thousands of years.

Healing America Congressman Tim Ryan, 2018-09-18 From one of this country's most thoughtful and committed leaders, this optimistic, pragmatic guide, now revised and updated to reflect the current political climate, offers a timeless practice to inspire hope for our country's future. When *A Mindful Nation* was first published, mindfulness had yet to ingrain itself into our everyday way of life, from our inner well-being to home to work to friends to family. Yet with the ever-increasing pace of communication, flow of information, and pervasive urge to do more, the lessons from *A Mindful Nation* are perhaps even more important today. In this new and updated edition, retitled *Healing America*, Congressman Tim Ryan shares how the timeless practice of mindfulness, the natural

capabilities of our brains and minds and the core American values of self reliance determination and getting the job done can positively affect every sector of our society Ryan connects the dots between what s happening in the classrooms hospitals boardrooms research labs and military bases across the country He explores the most recent scientific findings that support the beneficial effects of mindfulness and shares powerful stories from the field showing how this simple practice is helping schoolchildren improve their ability to learn veterans heal from trauma and CEOs become more effective leaders He also provides practical tips for how to incorporate mindfulness into your life today In this world of divisive politics and contentious dialogue the barrage of tension never seems to let up But there are solutions that will immediately benefit both you and society as a whole actions that you can take right here and right now With a direct and in depth understanding of politics government budgets and what it takes to get important tasks done Ryan combines a practical approach with a hopeful vision for how mindfulness can help reinvigorate the American Dream

Movie Time James Combs,2009-03-26 *Movie Time* is a study of temporal mythmaking in American popular movies The work is rooted in American pragmatic philosophy and contemporary traditions of inquiry in the social sciences and humanities It proceeds on the premise that social beings and social orders are interested in the mediation of time and attempt to make sense of their present world through the reconstrucion of important pasts of interest in the present develop new presents with the help of popular expressions which define new situations and responses for a new time

and foresee possible futures which impinge upon life in the here and now In particular the work focuses on the subsequent treatment of the American 1950 s in films set in that era beginning in the 1970 s and continuing with an effort to create a rough taxonomy of mythemes in such retrospective films and why it is that future times would find the Fifties to be so important that people wish to revisit it Too the mediation of time includes the development of a new present in this case the emergence of conservatism as a social force in the 1970 s and beyond The movies were an important form of expression in the dramatization of the conservative myth leading to the pervasion of conservative leaders and ideologies into the new century Finally the unrealized but imminent future of the country and world was increasingly on people s minds as both millennial hopes and fears and unanticipated threats began to emerge at century s end so movies which anticipated alternative futures appeared in response to that prospective interest It is hoped that this present inquiry will stimulate further work on the social relevance of popular expression and in particular the social mediation of time
