**Stress in Teachers** Jack Dunham, Ved Prakash Varma, 1998-08-10 Examines the stress in teaching multidisciplinary concept broad enough to include physiological psychological organisational and legal perspectives The editors see stress in teaching as an interactionist concept a complex and sometimes precarious balance between perceived work pressures coping strategies and stress reactions The early chapters in the book reflect this view and make contributions to understanding the causes and costs of stress in teaching The authors of these chapters come collectively to the conclusion that there is an alarmingly low level of job satisfaction in teaching and that turnover intentions appear to be on the increase This pessimistic view is challenged in later chapters by professionals working in the field of stress management These contributions highlight the danger of focusing stress research and management These contributions highlight the danger of focusing stress research and management strategies on the individual rather than the organization and report the authors hands on knowledge of teacher support teams and workshop and whole school approaches to diminishing the causes and costs of teacher stress and improving training and career development The concluding chapters demonstrate the editors belief that useful insights for workers in the education service can be gained from studies of workplace stress in other occupations

*Educator Stress* Teresa Mendonça McIntyre, Scott E. McIntyre, David J. Francis, 2017-08-28 This book brings together the most current thinking and research on educator stress and how education systems can support quality teachers and quality education It adopts an occupational health perspective to examine the problem of educator stress and presents theory driven intervention strategies to reduce stress load and support educator resilience and healthy school organizations

The book provides an international perspective on key challenges facing educators such as teacher stress teacher retention training effective teachers teacher accountability cyber bullying in schools and developing healthy school systems Divided into four parts the book starts out by introducing and defining the problem of educator stress internationally and examining educator stress in the context of school education system and education policy factors Part I includes chapters on educator mental health and well being stress related biological vulnerabilities the relation of stress to teaching self efficacy turnover in charter schools and the role of culture in educator stress Part II reviews the main conceptual models that explain educator stress while applying an occupational health framework to education contexts which stresses the role of organizational factors including work organization and work practices It ends with a proposal of a dynamic integrative theory of educator stress which highlights the changing nature of educator stress with time and context Part III starts with the definition of what constitute healthy school organizations as a backdrop to the following chapters which review the application of occupational health psychology theories and intervention approaches to reducing educator stress promoting teacher resources and developing healthy school systems Chapters include interventions at the individual individual organizational interface and organizational levels Part III ends with a chapter addressing cyber bullying a new challenge affecting schools and teachers Part IV discusses the implications for research practice and policy in education including teacher training and development In addition it presents a review of methodological issues facing researchers on educator stress and identifies future trends for research on this topic including the use of ecological momentary assessment in educator stress research The editors concluding comments reflect upon the application of an occupational health perspective to advance research practice and policy directed at reducing stress in educators and promoting teacher and school well being

*Stress in Teaching* Dr Jack Dunham, Jack Dunham, 2002-01-04 The stress involved in a career in teaching has increased considerably in recent years In England and Wales the implementation of the Education Reform Act has led to a whole range of organisational and curricular changes to add to the existing pressures of discipline problems poor working conditions and low pay Anxiety depression relationship difficulties and even physical illness are just some of the symptoms that result This established guide now wholly updated for teachers and managers in the 1990s shows how to recognize the signs of stress and how to develop strategies to control it Its practical advice field tested in numerous workshops for teachers and heads should help schools to reduce pressures on their staff by the development of satisfactory whole school policies and teachers to be more effective in the management of their own stress levels
