fter the collapse of the interstellar Federation human civilization descended into a new Dark Age as planets cut off from Earth and each other reverted to a lower tech level After centuries of struggling to pull themselves back up by their bootstraps they face a new and terrible threat Raiders with faster than light ships and contra gravity tanks steal anything they want and kill anyone that gets in their way This military SF novel is the story of three generations of a family as they fight to protect their planet and loved ones from the forces of chaos Excerpt He quickly checked the distance to the mine site and compared that with the missile s own effective range and the X 12 s speed There was a slim chance of getting within firing range before the enemy ships got too high The throttles were already pushed as far forward as they could go but there was one more thing Strider could try in order to get more speed He initiated the afterburners which poured fuel directly into the hot engine exhaust causing secondary combustion and additional thrust The sudden surge in speed felt like someone had just kicked him in the back The enemy ships were starting to gain altitude faster now The distance between them and the X 12 was dropping faster too but there was no way to know for sure if it was dropping fast enough With seconds to go until the enemy ships got within missile range Strider armed the warhead opened the weapons bay and lowered the missile s launch platform The fuel exhaustion warning light lit up and he heard the accompanying warning alarm that he was almost out of fuel Landing without fuel was going to be a bitch but he couldn t worry about that now He had to focus on getting within firing range Without

radar there was no way to know for sure but his estimated position relative to the mine site told him that the enemy ships were now within missile range He activated the Mark 3 warhead s guidance system which would begin radar scanning as soon as the missile launched and pressed his thumb down on the red firing button Adolescent Lives in Transition Donna Marie San Antonio,2012-02-01 Addressing the issues of educational equity and social class diversity Donna Marie San Antonio documents the challenges adolescents face when making the transition from elementary school to middle school The book explores the values resources and ways of interacting that students from diverse economic backgrounds bring from their families and communities and how they are enabled or discouraged from integrating these assets in their new school environment **Deep-Sky Companions: The Secret Deep** Stephen James O'Meara,2011-06-30 In this fresh list Stephen James O Meara presents 109 new objects for stargazers to observe The Secret Deep list contains many exceptional objects including a planetary nebula whose last thermal pulse produced a circumstellar shell similar to the one expected in the final days of our Sun s life a piece of the only supernova remnant known visible to the unaided eye the flattest galaxy known the largest edge on galaxy in the heavens the brightest quasar and the companion star to one of the first black hole candidates ever discovered Each object is accompanied by beautiful photographs and sketches original finder charts visual histories and up to date astrophysical information to enrich the observing experience Featuring galaxies clusters and nebulae not covered in other Deep Sky Companions books this is a wonderful addition to the series and an essential guide for any deep sky observer **Megabook of Military SF and Technothrillers** Dietmar Arthur Wehr,2020-12-16 This megabook contains six complete novels where each one is the first novel in a series In addition there is also the first in a series of three linked short stories plus the first three chapters of six stand alone novels including two technothrillers Links to all series and stand alone books can be found via the link to the author s website which is included in the megabook All the material in the megabook has been written by Dietmar Arthur Wehr a USA Today bestselling author **Winning the Dust Bowl** Carter Revard,2001-01-01 Bootleggers and bankrobbers in the Oklahoma Dust Bowl Proctors and punters at Oxford Activists and agitators of the American Indian Movement Carter Revard has known them all and in this book a memoir in prose and poetry he interweaves the many threads of his life as only a gifted writer can Winning the Dust Bowl traces Revard s development from a poor Oklahoma farm boy during the depths of the Depression to a respected medieval scholar and outstanding Native American poet It recounts his search for a personal and poetic voice his struggle to keep and expand it and his attempt to find ways of reconciling the disparate influences of his life In these pages readers will find poems both new and familiar poems of family and home of loss and survival In linking what he calls cocooning essays Revard shares what he has noticed about how poems come into being how changes in style arise from changes in life and how language can be used to deal with one s relationship to the world He also includes stories of Poncas and Osages powwow stories and Oxford fables and a gallery of photographs that capture images of his past Revard has crafted a book about poetry and authorship about American
