Striding Out Aspects Of Contemporary A:

Striding Out Stephanie Jordan,1992 A serious study of the alternative movement to the Graham derived tradition of contemporary dance in Britain Page 4 of cover *Improvisation Hypermedia and the Arts since 1945* Roger Dean,Hazel Smith,2013-11-05 First Published in 1997 The authors purpose in this book is to dissect developments in improvisation in the arts since 1945 with a particular emphasis on process and technique The approach is analytical and theoretical but is also relevant to practitioners and their audience Their key argument is that improvisation has been of great importance and value in the contemporary arts particularly because of its potential to develop new forms often by breaking definitions

Performativity and the Representation of Memory: Resignification, Appropriation, and Embodiment Dinis, Frederico,2024-08-21 The age of digital culture has not only brought significant transformations in how we perceive memory history and heritage but it has also raised pressing questions about authenticity and ownership of memory The role of digital technologies in shaping collective identities is a topic of intense scrutiny Moreover contemporary societies grapple with complex issues in the politics of memory especially with the proliferation of diverse narratives and the manipulation of public spaces The book s content is therefore highly relevant offering critical reflection and scholarly analysis to these societal challenges *Performativity and the Representation of Memory Resignification Appropriation and Embodiment* offers a comprehensive exploration of these issues examining how contemporary practices of re enactment intersect with digital contexts to shape our understanding of memory and heritage The book analyzes the processes of memory creation and transmission in digital environments providing a nuanced understanding of how memory is constructed shared and contested in the digital age It also explores the role of arts based research and participatory practices in documenting and preserving collective memories offering insights into new forms of memory sharing and identity formation **Dance Words** Valerie Preston-Dunlop,2016-01-28 In her unique collection of the verbal language of dance practitioners and researchers Valerie Preston Dunlop presents a comprehensive view of people in dance what they do their movement their sound and the space in which they work from the standpoint of the performers choreographers audiences administrators and teachers The words and phrases of their technical and vernacular languages which are used to communicate what is essentially a non verbal activity have been collected in rehearsal classes and workshops by interviews and from published sources In this first collection of its kind Valerie Preston Dunlop extends her selection of verbal language to include the various social and theatrical domains of dance **Derek Jarman** Tony Peake,2000 Biography of the outrageous and controversial filmmaker painter and gardener **Jonathan Burrows** Daniela Perazzo Domm,2019-11-18 The first monograph on the work of British choreographer Jonathan Burrows this book examines his artistic practice and poetics as articulated through his choreographic works his writings and his contributions to current performance debates It considers the contexts principles and modalities of his choreography from his early pieces in the 1980s to his latest collaborative projects providing detailed

analyses of his dances and reflecting on his unique choreomusical partnership with composer Matteo Fargion Known for its emphasis on gesture and humour and characterised by compositional clarity and rhythmical patterns Burrows artistic work takes the language of choreography to its limits and engages in a paradoxical and hence transformative relationship with dance s historical and normative structures Exploring the ways in which Burrows and Fargion s poetics articulates movement performative presence and the collaborative process in a minor register this study conceptualises the work as a politically compelling practice that destabilises major traditions from a minoritarian position **Dance History** Janet

Adshead-Lansdale, June Layson, 2006-05-18 Originally published in 1983 the first edition rapidly established itself as a core student text Now fully revised and up dated it remains the only book to address the rationale process techniques and methodologies specific to the study of dance history For the main body of the text which covers historical studies of dance in its traditional and performance contexts the editors have brought together a team of internationally known dance historians Roger Copeland and Deborah Jowitt each take a controversial look at the modern American dance Kenneth Archer and Millicent Hodson explain the processes they use when reconstructing lost ballets and Theresa Buckland and Georgina Gore write on traditional dance in England and West Africa respectively With other contributions on social dance ballet early European modern dance and feminist perspectives on dance history this book offers a multitude of starting points for studying dance history as well as presenting examples of dance writing at its very best Dance History will be an essential purchase for all students of dance Derek Jarman: The Authorised Biography Tony Peake, 2025-03-20 Tony Peake enjoyed

unprecedented access to the visionary artist s archives in order to bring the extraordinary life of Derek Jarman to the page This authorised and unique biography covers Jarman s story from the bleakness of post war Britain and his RAF childhood to student life at The Slade and his work as a designer painter and filmmaker It tells how energetic home filmmaking with dazzling friends led to distinctive feature films including Sebastiane The Tempest and Caravaggio There were collaborations with the likes of Sir John Gielgud and Tilda Swinton and Jarman was also at the forefront of popular culture producing distinctive music videos for Pet Shop Boys and The Smiths Alongside his art and a significant body of writing Jarman created a singular garden in the shingle surrounding Prospect Cottage at Dungeness in Kent which has become a site of memorial celebration and pilgrimage He became known as an impassioned and provocative spokesperson not only for gay men but for anyone oppressed by bigotry Derek Jarman died of AIDS related causes in February 1994 and Peake describes his inimitable courage and grace in the face of painful death and the legacies Jarman left behind With new contributions from Olivia Laing and Jon Savage *Yes? No! Maybe...* Emilyn Claid, 2006-09-27 Covering fifty years of British dance from Margot Fonteyn to innovative contemporary practitioners such as Wendy Houstoun and Nigel Charnock Yes No Maybe is an innovative approach to performing and watching dance Emilyn Claid brings her life experience and interweaves it with academic theory and historical narrative to create a dynamic approach to dance writing Using the 1970s revolution of new dance as a hinge Claid

looks back to ballet and forward to British independent dance which is new dance's legacy. She explores the shifts in performer-spectator relationships and investigates questions of subjectivity, absence and presence, identity, gender, race and desire using psychoanalytical, feminist, postmodern, post-structuralist and queer theoretical perspectives. Artists and practitioners, professional performers, teachers, choreographers and theatre-goers will all find this book an informative and insightful read.

Moving Sites Victoria Hunter, 2015-03-27 *Moving Sites* explores site-specific dance practice through a combination of analytical essays and practitioner accounts of their working processes. In offering this joint effort of theory and practice, it aims to provide dance academics, students and practitioners with a series of discussions that shed light both on approaches to making this type of dance practice and evaluating and reflecting on it. The edited volume combines critical thinking from a range of perspectives, including commentary and observation from the fields of dance studies, human geography and spatial theory, in order to present interdisciplinary discourse and a range of critical and practice-led lenses through which this type of work can be considered and explored. In so doing, this book addresses the following questions: How do choreographers make site-specific dance performance? What occurs when a moving body engages with site, place and environment? How might we interpret, analyse and evaluate this type of dance practice through a range of theoretical lenses? How can this type of practice inform wider discussions of embodiment, site, space, place and environment? This innovative and exciting book seeks to move beyond description and discussion of site-specific dance as a spectacle or novelty and considers site dance as a valid and vital form of contemporary dance practice that explores, reflects, disrupts, contests and develops understandings and practices of inhabiting and engaging with a range of sites and environments. Dr Victoria Hunter is Senior Lecturer in Dance at the University of Chichester.

Anarchic Dance Liz Aggiss, Billy Cowie, 2006-04-18 Liz Aggiss and Billy Cowie, known collectively as Divas Dance Theatre, are renowned for their highly visual interdisciplinary brand of dance performance that incorporates elements of theatre, film, opera, poetry and vaudevillian humour. *Anarchic Dance*, consisting of a book and downloadable resources, is a visual and textual record of their boundary-shattering performance work. The downloadable resources feature extracts from Aggiss and Cowie's work, including the highly acclaimed dance film *Motion Control* (premiered on BBC2 in 2002), rare video footage of their punk-comic live performances as The Wild Wigglers and reconstructions of Aggiss's solo performance in *Grotesque Dancer*. These films are cross-referenced in the book, allowing readers to match performance and commentary as Aggiss and Cowie invite a broad range of writers to examine their live performance and dance-screen practice through analysis, theory, discussion and personal response. Extensively illustrated with black and white and colour photographs, *Anarchic Dance* provides a comprehensive investigation into Cowie and Aggiss's collaborative partnership and demonstrates a range of exciting approaches through which dance performance can be engaged critically.

Making an Entrance Adam Benjamin, 2013-10-18 *Making an Entrance* is the first ever practical introduction to teaching dance with disabled and non-disabled students. This clearly written, thought-provoking and hugely

enjoyable manual is essential reading whether you're just starting out or are already active in the field. Taking improvisation as his focus and as the starting point of choreographic exploration, Adam Benjamin asks what it has to offer as an art form and how it can be better used to meet the changing needs of dance education. In the theoretical section, Benjamin explores the history of a disintegrated dance practice, placing it within the wider context of cultural and political movements. He questions what is meant today when we talk about inclusive or integrated dance and what we might expect of it. The book includes over 50 exercises and improvisations designed to stimulate and challenge students at all levels of dance. Benjamin also includes useful hints on the practicalities of setting up workshops, covering issues as diverse as class size, the safety aspects of wheelchairs, and the accessibility of dance spaces.

Choreographing Empathy Susan Foster, 2010-11-08

This is an urgently needed book as the question of choreographing behavior enters into realms outside of the aesthetic domains of theatrical dance. Susan Foster writes a thoroughly compelling argument.

British Dance: Black Routes Christy Adair, Ramsay Burt, 2016-10-04

British Dance: Black Routes is an outstanding collection of writings which re-reads the achievements of Black British dance artists and places them within a broad historical, cultural and artistic context. Until now, discussion of choreography by Black dance practitioners has been dominated by the work of African American artists facilitated by the civil rights movement. But the work produced by Black British artists has in part been within the context of Britain's colonial legacy. Ramsay Burt and Christy Adair bring together an array of leading scholars and practitioners to review the singularity and distinctiveness of the work of British-based

dancers who are Black and its relation to the specificity of Black British experiences From sub Saharan West African and Caribbean dance forms to jazz and hip hop British Dance Black Routes looks afresh at over five decades of artistic production to provide an unparalleled resource for dance students and scholars Appendix 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
