Christiana Spens, 2018-12-29 This book explores how terrorists have been portrayed in the Western media and the wider ideological and social functions of those representations Developing a theory of scapegoating related to narrative closure as well as an integrated genealogical method of intervisuality the book proposes a new way of thinking about how political images achieve power and influence the public By connecting modern portrayals of terrorists post 9 11 with historical and

fictional images of villains from Western cultural history the book argues that the portrayal and punishment of terrorists in the Western media implicitly perpetuates neo Orientalist attitudes It also explains that by repeating these narrative patterns through a ritual of scapegoating Western media coverage of terrorists partakes in a social process that uses punishment dehumanization and colonialist ideas to purge the iconic villain so as to build national unity and sustain hegemonic power following crisis Strategy Against Terror Sunzi,Gary Gagliardi,2004 History s most powerful work on strategy was written 2 500 years ago by Sun Tzu whose lessons are now applied directly to winning the War on Terror Includes the complete text of Sun Tzu s military classic and shows exactly how these lessons are applied specifically to defeating terrorism **Sci-Fi**
