Terror Of The Triads:

Terror of the Triads Sean O'Callaghan,1982 **Dark Logic** Robert Mandel,2011 This book constitutes the first major study showing 1 when transnational organized crime is likely to use corruption and violence tactics 2 when transnational criminal activities most affect individual and state security and 3 when the negative consequences of these tactics and activities can be most successfully combated **Lycan Triad** Stephen Swant, This is not a tale of love and romance This is a tale of blood and pain death and damnation Lycan Triad Rise of the Wolf king is a mythical tale about a valiant knight ensnared in the grip of an otherworldly malice a force so sinister it reshapes his very essence of existence This is a tale of blood and pain death and damnation At the heart of the narrative lies the story of Eric a valiant knight whose life changed when a harrowing encounter with an immortal entity left him scarred in a way that not only marred his flesh but also pierced his soul It rendered him into something different a creature of the night a werewolf Eric discovers that his metamorphosis is not merely a curse to be undone but a destiny to be embraced Guided by the enigmatic threads of destiny he learns of his pivotal role a convergence of forces ancient and profound His journey fraught with peril and revelation ultimately leads him to confront the essence of his being and to reconcile the duality that rages within him **Terror's Aftermath** Daniel McEnnis,2015-09-16 Terror s Aftermath describes the United States post Bush administration as over a dozen power groups vie for control and influence woven through a memoir of the author The only given is that no one is really in control Terror s Aftermath Silicon Valley Gracenote starts with the author starting at Gracenote with help from the Traditional Military Faction in California in June 2011 escaping the Men in Black faction in Ohio The author disillusioned after the past two years is in a truce with the Neoconservative Military Faction but the Men in Black Faction are ignoring it The intrigue intensifies when the Neoconservative Military escalate the conflict in June 2012 to fire the author breaking the truce leading to heightened espionage and faction warfare for another 11 months when the author is finally fired from Gracenote **Cool Places** Tracey Skelton,Gill Valentine,2005-08-18 This edited collection of engaging essays addresses issues of representation and resistance in youth culture today and focuses on the complexities of youth cultures and their spatial representations and interactions **Studies in Gangs and Cartels** RobertJ. Bunker,2017-07-05 Concerns over the changing nature of gangs and cartels and their relationships to states in the late 20th and early 21st centuries has resulted in the emergence of a scholarly body of work focused on their national security threat potentials This body of work utilizing the third generation gangs and third phase cartel typologies represents an alternative to traditional gang and organized crime research and one that is increasingly influencing the US defense community Rather than being viewed only as misguided youth and opportunistic criminals or in their mature forms as criminal organizations with no broader social or political agendas more evolved gangs and cartels are instead seen as developing political mercenary and state challenging capacities This evolutionary process has emerged due to the growing illicit economy and other unintended consequences of globalization

This important anthology of writings by Robert J Bunker and John P Sullivan draws upon a collection of their works from the mid 1990s to the present with the addition of new essays written specifically for this publication The work will be of great interest to academics and students in the fields of political science and criminal justice and to military law enforcement and governmental professionals and policy makers This book is a collection of new and previously published works from a variety of publications a full list of which is on the Citation Information page

Terrorist Criminal Enterprises Kimberley L. Thachuk, Rollie Lal, 2018-06-15 This cohesive set of case studies collects scholarly research policy evaluation and field experience to explain how terrorist groups have developed into criminal enterprises Terrorist groups have evolved from orthodox global insurgents funded by rogue sponsors into nimble and profitable transnational criminal enterprises whose motivations are not always evident This volume seeks to explain how and why terrorist groups are often now criminal enterprises through 12 case studies of terrorist criminal enterprises written by authors who have derived their expertise on terrorism and or organized crime from diverse sources Terrorist groups have been chosen from different regions to provide the global coverage Chapters describe and analyze the actors actions problems and collaborations of specific terrorist criminal enterprises Other elements discussed include links to such facilitating conditions as political culture corruption history economy and issues of governance This work advances scholarship in the field of counterterrorism by expanding the understanding of these terrorist groups as entities not driven purely by ideology but rather by the criminal enterprises with which they often coincide

Triad Terry McGarry, 2013-05-28 The world must change The magic steeped realm of Eiden Myr has come under attack from the outerlands A new power has arisen that may be the

key to winning the war of the coast Is it the light of salvation or of delusion To vanquish darkcraft mages destroyed a warding that protected the realm for fifteen hundred years Now the last ragged defenders battle horrors out of nightmare Their blades are no match for the monstrous onslaught The shield will fall It will take more than the golden light of mages the copper shine of touches and the silver glow of visants to stave off annihilation More than delving the mystery of the bonefolk More than the forging of an impossible blade It will take a harrowing passage into realms beyond death beyond human sight a quest for the source of light itself A great triad will rise more wondrous and terrible than any before conceived and the world will be transformed past all imagining At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

Globalisation and the New Terror David Martin Jones,2004-01-28 Examines trends in new terror understood here to be the capacity of sub state actors to secure religious or politically motivated objectives by violent means Argues that while the use of violence to achieve political ends is scarcely original what distinguishes new terror is its potential for lethality Australian author **The Dark Triad** Steve Madison, The world is not ruled by wise and benevolent people The opposite is true Humanity is ruled by the psychopathic the narcissistic and the Machiavellian the malevolent Dark Triad For humanity to progress it needs to learn how to beat these people how to identify them early and stop them getting to the top The Dark Triad types are always entropic and extreme individualists they are all consumingly selfish and care exclusively about themselves We need to get the Light Triad to the top the Compassionate and Empathic the opposite of psychopaths the Altruistic those who care about others hence aren t self obsessed like the narcissists and the Philosopher Kings and Queens the opposite of the Machiavellians who are Sophists who only ever calculate what is personally advantageous to them Plato in the Republic set out how to avoid the Dark Triad from ever reaching power In his system only the wisest were allowed to lead No nation in history has ever implemented Plato s supremely enlightened and progressive ideas Funny that **Mafia Life** Federico Varese,2018-03-07 Today mafias operate across the globe with hundreds of thousands of members and billions of dollars in revenue From Hong Kong to New York these vast organizations spread their tentacles into politics finance and everyday life Criminologist Federico Varese draws on a lifetime s research to give us access to some of the world s most secretive societies Mixing reportage with case studies and historical insights this is the story of mafia as it really is filled with boredom and drama death and disaster ambition and betrayal **Terrorism Versus Democracy** Paul Wilkinson,2006-09-27 No one understands terrorism better than Paul Wilkinson if policy makers read this book they will understand the problems better If terrorists read it they will understand themselves a lot better Michael Clarke King s College London University of London UK This acclaimed study examines both the new terror networks and those that have been around for decades This new edition brings it up to date with the dramatic opening of the twenty first century with new chapters on the 9 11 attacks the growth of international terrorism the Al Qaeda network and the War on Terror This text provides us with some much needed criteria for distinguishing between terrorists and freedom fighters and an explanation of the uses of terrorism as a

Renewing America's Nuclear Arsenal James E. Doyle, 2018-10-09 In the next few years the US government will make decisions regarding the renewal of its triad of air land and sea based nuclear weapons that will have huge implications for the security of the country and its allies its public finances and the salience of nuclear weapons in global politics Current plans provide for spending an estimated US 1 trillion over 30 years to modernise or replace the full triad The purpose of this book is to demonstrate viable alternatives to the current US plan to modernise or replace its full triad of air land and sea based nuclear weapons These alternatives would allow the US to maintain deterrence at a lower cost thereby freeing up funds to ease pressing shortfalls in spending on conventional procurement and nuclear security Moreover these alternative structures which propose a reduction in the size and shape of the US arsenal offer distinct advantages over the existing plan with regard to maintaining strategic stability vis vis Russia and China upholding existing arms control treaties in particular New START and the INF Treaty and boosting the security of US nuclear forces and supporting the global non proliferation regime including the NPT They would also endow the US with a nuclear force better suited to the strategic environment of the twenty first century and mark an advance on the existing triad with regard to supporting conventional military operations
