*Epistemic Liberalism* Adam James Tebble, 2016-01-13 In the wake of what has come to be called the cultural turn it is often asked how the state should respond to the different and sometimes conflicting justice claims made by its citizens and what ultimately is the purpose of justice in culturally diverse societies Building upon the work of a diversity of theorists this book demonstrates that there is a distinct epistemic tradition of liberalism that can be used to critique contemporary responses to cultural diversity and their underlying principles of justice It critically examines multicultural nationalist and liberal egalitarian approaches and argues that an epistemic account of liberalism that emphasises social complexity rather than cultural diversity or homogeneity is the most appropriate response to the question of justice in modern culturally diverse societies Epistemic Liberalism will be of interest to students and scholars of contemporary political theory and philosophy liberal political theory and the politics of culture and identity

**Terror, Religion, and Liberal Thought** Richard B. Miller, 2010-09-23 Religious violence may trigger feelings of repulsion and indignation especially in a society that encourages toleration and respect but rejection contradicts the principles of inclusion that define a democracy and its core moral values How can we think ethically about religious violence and terrorism especially in the wake of such atrocities as 9 11 Known for his skillful interrogation of ethical issues as they pertain to religion politics and culture Richard B Miller returns to the basic tenets of liberalism to divine an ethical response to religious extremism He questions how we should think about the claims and aspirations of political religions especially when they conflict so deeply with liberal norms and practices and he suggests how liberal critics can speak confidently in ways that respect cultural and religious difference Miller explores other concerns within these investigations as well such as the protection of human rights and a liberal democratic commitment to multicultural politics In relating religion and ethics he develops a new lens for viewing political religions and their moral responsibilities This probing inquiry also forces us to rethink our response to 9 11

Exceptionalism and the Politics of Counter-Terrorism Andrew W. Neal, 2009-10-16 This book is an analysis and critique of the concepts of exception and exceptionalism in the context of the politics of liberty and security in the so called War on Terror Since the destruction of the World Trade Centre on September 11th 2001 a notable transformation has occurred in political discourse and practice Politicians and commentators have frequently made the argument that the rules of the game have changed that this is a new kind of war and that exceptional times require exceptional measures Under this discourse of exceptionalism an array of measures have been put into practice such as detention without trial extraordinary rendition derogations from human rights law sanction or connivance in torture the curtailment of civil liberties and aggressive war against international law Situating exceptionalism within the post 9 11

**The UN and Counter-Terrorism** Alice Martini,2021-02-15 This book traces the evolution of the UN Security Council s actions against terrorism and extremism The work examines the progression of the UN Security Council s fight against international terrorism and its development of practices to prevent radicalisation and extremism It also looks at the consequences of these processes and how they have deeply moulded global counter terrorism The book looks at the discursive construction of a

global threat and tracks how this construction evolved in relation to the Council's establishment of legal practices and bodies and by its Members' discourses. It argues that the very specific definition the Council provided on international terrorism in the 2000s is profoundly shaped by global hegemonies, relations of power, shaping the international community and its own identity. To demonstrate this, it offers a long genealogical perspective of the structure of the UN since the 1930s and then focuses specifically on the developments taking place in the 2000s. The book thus looks at the Security Council's fight against international terrorism as a global, globalised and globalising enterprise. This book will be of much interest to students of critical terrorism studies, security studies, global governance and International Relations.
