## **Terror Connection:**

Narco-terrorism United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information, 2003      **Drugs & terrorism** , 2006 This lesson plan is designed to help students learn more about the link between the illegal drug use in the United States and acts of terrorism and terror around the world      **Criminals and Terrorists in Partnership** Helena Carrapico, Daniela Irrera, Bill Tupman, 2017-10-02 The nexus between terrorism and organised crime consists of a strategic alliance between two non state actors who are able to exploit illegal markets threaten the security of individuals and influence policy making on a global level Recent Europol reports have pointed towards the importance of studying the links between organised crime and terrorist groups and have underlined that the nature and extent of these connections have seldom been addressed from an academic perspective Considering the danger that both organised crime and terrorism currently pose to the world the collusion between these two phenomena is of urgent contemporary interest Basing itself on geographical case studies this book contributes to the existing literature in three ways by enriching the empirical knowledge on the nature of the crime terror nexus and its evolution by exploring the impact of the nexus within different economic political and societal contexts and by expanding on its theoretical conceptualization This book was originally published as a special issue of Global Crime      Terrorism Diogo Pires Aurélio, João Tiago Proença, 2011-01-18 This volume offers a collection of essays useful for analyzing and comparing terrorist movements especially in relation to Islamic terrorism But its scope goes well beyond that offering theoretical insights into the concept of terrorism debating the puzzling phenomenon from various traditions of thought including analyses of writings by Jürgen Habermas Michael Walzer and Eric Weil It examines the uses of violence by terrorism the who the how and the when Present day terrorism is a modern phenomenon to be distinguished from classical insurgency revolution guerrilla warfare or coups d'état it is mainly directed at modern societies whether from a religious fundamentalist point of view or from radical social and ecological movements In short terrorism uses largely fabricated ways of thought for political polemological ends In Terrorism Politics Religion Literature the reader will find plenty of food for thought as the chapters span a wide range of approaches including manifestos film and literature It will be of particular interest to observers scholars students military personnel journalists and government analysts      **Investigating the Relationship between Migration and Terrorism** Zalan Fülöp, 2020-06-16 ABSTRACT The 2015 migration crisis and the sudden rise of terror attacks between 2015 and 2017 resulted in the rise of xenophobic sentiments and in associating refugees and asylum seekers with terrorists This paper investigates the relationship between migration and terrorism by treading in the path of the 2015 migration crisis and seeks to prove that refugees are not terrorists However the paper also sustains the hypothesis that right wing political ideologies right wing extremism ill treatment of asylum seekers or restrictive policies could contribute to the radicalisation of refugees in the long term The paper gives an overview of the 2015 migration crisis and re examines the most important milestones

such as the Arab Spring which is considered to be one of the main triggers of the migration influx in Europe. The relationship between migration and terrorism will be analysed along the lines of state terrorism and non state terrorism which phenomena's significance increased after the Arab Spring. While the main aim is to discredit the xenophobic and Islamophobic sentiments the research reveals that the declaration of the Caliphate and the resulting migration crisis indeed contributed to the rise of terror attacks although not in the form of refugee terrorism. Furthermore the research also shows that one of the key reasons behind the rising number of terror attacks in Europe is the inadequate Muslim integration that created the breeding ground for homegrown terrorists. Henceforth the investigation supports the theory that the rise in radicalisation is the key factor behind the growing number of terror attacks thus its prevention is the greatest security challenge Europe is facing nowadays since xenophobic attitude ill treatment in refugee camps and right wing extremism could lead to the radicalisation of newly arriving refugees.

The concept of the war on terror has proven to be both an attractive and a potent rhetorical device. It has been adopted and elaborated upon by political leaders around the world particularly in the context of military action in Afghanistan and Iraq. But use of the rhetoric has not been confined to the military context. The war on terror is a domestic one also and the phrase has been used to account for broad criminal legislation sweeping agency powers and potential human rights abuses throughout much of the world. This collection seeks both to draw on and to engage critically with the metaphor of war in the context of terrorism. It brings together a group of experts from Australia Canada the United Kingdom France and Germany who write about terrorism from a variety of disciplinary perspectives including international law and international relations public and constitutional law criminal law and criminology legal theory and psychology and law.
