*Terror in the Sun* Richard GLENDINNING,1957      **Discursive Constructions Around Terrorism in the People's Daily (China) and The Sun (UK) Before and After 9.11** Yufang Qian,2010 How have media constructions around terrorism changed since 9 11 This book analyses the ways that language is employed in the media to reference discourses around terrorism in different social systems and doctrines and illustrates the ways in which news reporting around terrorism is filtered according to a wide range of phenomena including national interests the goals of those who run the press international relations methods of news production audience targeting and other historical political and social factors This book collects and analyses corpora from news articles in the two most widely read newspapers in China and the UK Corpus techniques including frequency and keyness are merged with methods associated with critical discourse analysis particularly investigation of social context This book shows that there is a wide range of possible discursive constructions of terrorism in the media Such different perspectives are likely to shape national or even global opinion on how to tackle terrorism

*Terrorism, the Worker and the City* Dr Luke Howie,2012-08-28 Soon after watching the twin towers falling in New York some of those with business responsibilities were already asking themselves whether people would be willing to work in tall buildings ever again Is work too risky How can people be expected to attend work in what might now be seen as precarious and vulnerable workplaces and cities Although thankfully large scale terrorist attacks are infrequent the world s cities and the businesses to which they are home have been put on notice that it can come to any place at any time In *Terrorism the Worker and the City* Luke Howie considers what steps managers and employees can and should take to protect their businesses from such an amorphous and indefinable threat Deftly combining theoretical insight with empirical research he reveals how despite an appearance of business as usual fear anxiety and suspicion permeate workplaces even in cities that may not be at the top of any terrorist group s target list Using the Australian city of Melbourne a cosmopolitan city and major business centre with nearly four million people as a metaphor for other such cities around the world Dr Howie s research has uncovered that even where they don t perceive a high level threat business managers who might face having to account for themselves to some post event Inquiry have taken action in consequence of the situation Often that action amounts to the introduction of what can be described as Simulated Security This cannot ever provide certain protection from terrorist attack but it may be the best we can reasonably do There is also evidence that it can be effective in terms of providing the reassurance to counter the terrorist objective of disrupting normal life through fear With its rigorous research compared with other more speculative works on this subject *Terrorism the Worker and the City* will appeal to city and business leaders and managers and security professionals as well as those in governmental and academic research communities for all of whom terrorism is now an ever present concern      **Terror in the Sun** Michael Avallone,Leonard Freeman,1969      *Terror Flyers* Kevin T Hall,2021-01-19 *Terror Flyers* examines the lynch justice Lynchjustiz committed against American airmen in Nazi

Germany during World War II Using engaging first person accounts of downed pilots as well as previously unused primary sources *Terror Flyers* challenges the notion that such lynchings were exclusively the domain of Nazi party officials and soldiers New evidence reveals ordinary German people executed Lynchjustiz as well Initially occurring as a spontaneous reaction to the devastation of the Allied air campaign against the cities of the Third Reich Lynchjustiz offered the Nazi regime a unique propaganda opportunity to harness the outrage of the German population Fueled by inspiration from America s own history of the lynching of African Americans Nazi propaganda exploited the very same imagery found in US publications to escalate the anger of the German people Drawing heavily on the accounts of the downed airmen themselves testimonies from the flyer trials held in Dachau during 1945-48 and rarely seen Nazi propaganda *Terror Flyers* offers a new narrative of this previously overlooked aspect of the Allied campaign in Europe and suggests that at least 3 000 cases of lynch justice likely occurred between 1943 and 1945

**The Portrayal and Punishment of Terrorists in Western Media** Christiana Spens, 2018-12-29 This book explores how terrorists have been portrayed in the Western media and the wider ideological and social functions of those representations Developing a theory of scapegoating related to narrative closure as well as an integrated genealogical method of intervisuality the book proposes a new way of thinking about how political images achieve power and influence the public By connecting modern portrayals of terrorists post 9/11 with historical and fictional images of villains from Western cultural history the book argues that the portrayal and punishment of terrorists in the Western media implicitly perpetuates neo Orientalist attitudes It also explains that by repeating these narrative patterns through a ritual of scapegoating Western media coverage of terrorists partakes in a social process that uses punishment dehumanization and colonialist ideas to purge the iconic villain so as to build national unity and sustain hegemonic power following crisis

**The Tabloid Terrorist** A. Spencer, 2010-04-14 This book introduces a constructivist approach to the study of terrorism and shows how language in the media affects our perceptions of terrorists and how particular constructions of terrorist automatically make certain counter terrorism policies possible logical and seemingly appropriate

*Global Islamophobia* George Morgan, 2016-04-22 The decade since 9/11 has seen a decline in liberal tolerance in the West as Muslims have endured increasing levels of repression This book presents a series of case studies from Western Europe Australia and North America demonstrating the transnational character of Islamophobia The authors explore contemporary intercultural conflicts using the concept of moral panic revitalised for the era of globalisation Exploring various sites of conflict *Global Islamophobia* considers the role played by moral entrepreneurs in orchestrating popular xenophobia and in agitating for greater surveillance policing and cultural regulation of those deemed a threat to the nation s security or imagined community This timely collection examines the interpenetration of the global and the local in the West s cultural politics towards Islam highlighting parallels in the responses of governments and in the worrying reversion to a politics of coercion and assimilation As such it will be of interest to scholars of sociology and politics with interests in race and ethnicity
