Terrorism And International Justice:

Terrorism and International Justice James P. Sterba, 2003 This collection of essays on terrorism and international justice focuses on three central questions What is the nature and rhetoric of terrorism Who are the terrorists and why do they hate And what is a morally justified response to terrorism **Encyclopedia of Global Justice** Deen K.

Chatterjee, 2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer's book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas **Global Justice and International Affairs** Thom

Brooks, 2011-11-25 Global justice and international affairs is perhaps the hottest topic in political philosophy today This book brings together some of the most important essays in this area Topics include sovereignty and self determination

cosmopolitanism and nationalism global poverty and international distributive justice and war and terrorism *Terrorism and Criminal Justice* Ronald D. Crelinsten, Danielle Laberge-Altmejd, Denis Szabo, 1978 This book derives from a conference entitled The impact of terrorism and skyjacking on the operations of the criminal justice system held in February 1976 in Rochester Michigan **Interpol: Issues in World Crime and International Justice** Michael Fooner, 1989-08-31 Often

regarded as a mystery Interpol the world association of national police forces for mutual assistance in the fight against international crimes and criminal conspiracies is analyzed in this book by a research scientist and its inner workings scrutinized Annotation copyright Book News Inc **Problems Of International Justice** Steven Luper-foy, 2019-06-04

When the topic of international justice did arise discussion rarely got beyond recommendations about how nations could avoid war as well as suggestions about when a declaration of war was morally justifiable and what sorts of methods might be used in the course of a justifiable war the topics of so called just war theory Such is no longer the case To be sure just war theory is reaching greater states of sophistication much of it focused around Michael Walzer's book Just and Unjust Wars Excerpts from Walzer's book appear here in Part Two along with a set of newly written chapters that deal with issues arising from the use of violence among nations The topics of these chapters are foreign interventionism and states rights deterrence and the threat of nuclear reprisal and terrorism But issues of international justice other than just war theory have been discussed by an ever increasing group of twentieth century scholars These issues deal with what might be called for lack of a better term distributive justice which concerns the distribution of the world's natural resources and the goods produced

by laborers across the world as well as the duties rights and liberties possessed by individuals How such items ought to be distributed within nation states has been discussed extensively by social and political philosophers Only in recent years has any attention been paid to the proper distribution of goods internationally The chapters in Part One all do so With one exception all of these chapters are written for this volume The exception is an excerpt from Charles Beitz's book *Political Theory and International Relations* Part Three of which is reproduced here almost in its entirety The other chapters in this part are devoted to the topics of justice and the distribution of the world's resources the obligation to assist the needy the responsibilities of international corporations and justice and the global environment

Terrorism Diogo Pires Aurélio, João Tiago Proença, 2011-01-18 This volume offers a collection of essays useful for analyzing and comparing terrorist movements especially in relation to Islamic terrorism But its scope goes well beyond that offering theoretical insights into the concept of terrorism debating the puzzling phenomenon from various traditions of thought including analyses of writings by Jürgen Habermas Michael Walzer and Eric Weil It examines the uses of violence by terrorism the who the how and the when Present day terrorism is a modern phenomenon to be distinguished from classical insurgency revolution guerrilla warfare or coups d'état it is mainly directed at modern societies whether from a religious fundamentalist point of view or from radical social and ecological movements In short terrorism uses largely fabricated ways of thought for political polemological ends In *Terrorism Politics Religion Literature* the reader will find plenty of food for thought as the chapters span a wide range of approaches including manifestos film and literature It will be of particular interest to observers scholars students military personnel journalists and government analysts

Assisting International Justice Tom Buitelaar, 2023-10-04 Although the International Criminal Court ICC as the only permanent international court that addresses crimes against humanity genocide and war crimes has important potential to end impunity and find justice for victims of atrocities it is dependent on others for almost all aspects of its functioning The Court has frequently relied on the peacekeeping operations that the UN deploys in the field and over the past two decades UN peacekeepers have provided logistical assistance and security to Court investigators shared large amounts of information and have even been involved in the arrest of Court suspects But their track record has been inconsistent they have sometimes refused to take action against people accused of war crimes and have found it difficult to balance their impartiality with court prosecutions Despite the empirical importance of this phenomenon we know precious little about the circumstances under which it occurs In Assisting International Justice Buitelaar reveals the conditions under which UN peacekeepers address impunity in their mission areas He presents an original single country case study of assistance provided by the UN mission in the Democratic Republic of the Congo and a plausibility probe of other peace operations in ICC situation countries Relying on new empirical material including over 130 interviews of key decision makers and comprehensive archival research this scholarly volume explores how the UN navigates the terrain of conflict mediation and punitive accountability and demonstrates the collaborative but contingent relationship between the UN and the ICC

Feminism and Global Justice Kerry Carrington, 2014-10-17 In this book Kerry Carrington takes a bold critical and reflexive approach to understanding the global divisions and inequalities that shape distinctive patterns of gender and crime The book argues that in order for feminist criminology to enhance its conceptual and political relevance in the twenty first century bold new directions in scholarship on gender crime and global justice are required that also take into account global divisions and inequalities Issues explored in the book include the forced marriage of child brides female genital mutilation feminicide honour crimes rape and domestic violence and the systemic denial of female rights justified by religion custom or culture It also explores rising rates of violence recorded for women offenders globally and their increasing participation in terrorism as well as troubling male on male violence in anomic spaces cultivated by globalising forces Feminism and Global Justice argues that the world needs feminism more than ever to address systemic culturally shaped and diverse forms of injustice experienced by

Levine,2010-11-25 In recent years justice related and human rights issues have figured more and more prominently on the international political agenda This expansion of the justice space is a product of a growing demand for accountability in world politics Whether the issue is addressing heinous crimes such as genocide war crimes and crimes against humanity in situations of armed conflict confronting the inability or reluctance of governments to protect their own populations or responding to the challenges posed by transnational terrorism the international community has witnessed the proliferation of institutions and mechanisms as well as the dynamic interplay between domestic and international processes in the pursuit of justice sensitive outcomes International and hybrid tribunals UN led and domestic counter terrorist initiatives and the use of force for human protection purposes have demarcated the space within which ethical political and legal debates have unfolded in the quest for a more humane world order The contributors of International Criminal Justice Theoretical and Legal Perspectives address some of the most important issues and debates involved in this quest and assess the merits of contending approaches to the promotion of international justice norms This volume will contribute to the ongoing debate on the challenges as well as opportunities facing the justice agenda in its effort to shape developments in an increasingly interdependent world

Towards Global Justice: Sovereignty in an Interdependent World Simona Țuțuianu,2012-10-28 With Forewords by Geoffrey Robertson QC Doughty Street Chambers London UK and Professor Mihail E Ionescu Bucharest Romania Simona uianu describes a new model of sovereignty which is fast replacing the traditional Westphalian model embodied in Article 2 of the UN Charter and rigorously followed throughout the Cold War The scholarly basis for this new model draws upon developments in international criminal law which first emerged from the Nuremberg trials and upon more recent interstate economic cooperation which has turned sovereign independence into interdependence across a range of state functions Does this mean that traditional Westphalian concepts of sovereignty should be abandoned in constructing a new theory of world governance for the twenty first century Not at all A new model which can be called the pattern of interdependence based sovereignty serves to explain contemporary events that puzzle traditional theorists such as the war over Kosovo the invasions of Iraq and Libya the emergence of a Responsibility to protect doctrine and its recent validation in Security Council Resolutions 1970 and 1973 We are witnessing the emergence of a new philosophy of action which is in the process of producing a 21st century system of international relations The Book will appeal to academics students and postgraduates studying international affairs politics international law diplomatic history or war and or peace studies It is particularly of interest for NATO establishments and national military schools while experts and scholars will value its theory of what sovereignty means today The Book offers a multidisciplinary approach which underpins a new theory of how human rights

can be better protected in a better world There is a unique case study of cooperative security in the Greater Black Sea Area by one of the few experts on the politics of this region It will be read and appreciated by those who need to understand how modern international law and diplomacy really work Journalists media commentators human rights NGOs aid agencies diplomats and government officials need the information in this Book
