this book is theoretical historical and critical It first presents and refutes the two most commonly expressed definitions of terrorism the absolutist view a simplistic picture of international deviance on the part of fanatics and the liberal relativistic view one man s terrorist is another man s freedom fighter Both views focus on the definition of behaviors rather than on the real relations of domination and subjugation embodied in the social structure Neither view can be used as a vehicle when analyzing institutionalized forces of domination through fear The author suggests that there is presently a double standard of terrorism one for the state and the other for its opponents Terrorism and the State reframes the terrorism debate A historical review supports a revisionist position that places the issue in the context of global relations Attention is given to the role of the media in the selective selling of international terrorism Having established his framework the author proceeds through the investigation of historically grounded cases to systematically analyze state terrorism the coercive power of today s nuclear weapon state global apartheid terrornoia settler terrorism holy terror and finally surrogate terrorism Terrorism and the State develops its framework for the terrorism debate within the first three chapters The Ideology of Terrorism Terrorism and the State and Mediaspeak The Selling of International Terrorism The remainder of this volume concentrates on historically grounded cases The Real Nuclear Terrorism Racial Terrorism Apartheid in South Africa Terrornoia and Zonal Revolution The Case of Libya Settler Terrorism Israel and the P L O Holy Terror Iran and Irangate Surrogate Terrorism The United States and Nicaragua

Lone Wolf Terror and the Rise of Leaderless Resistance George Michael,2021-04-30

On July 22 2011 Anders Behring Breivik detonated a car bomb in downtown Oslo Norway He didn't stop there traveling several hours from the city to ambush a youth camp while the rest of Norway was distracted by his earlier attack That's where the facts end But what motivated him Did he have help staging the attacks The evidence suggests a startling truth that this was the work of one man pursuing a mission he was convinced was just If Breivik did indeed act alone he wouldn't be the first Timothy McVeigh bombed a federal building in Oklahoma City based essentially on his own motivations Eric Robert Rudolph embarked on a campaign of terror over several years including the Centennial Park bombing at the 1996 Olympics Ted Kaczynski was revealed to be the Unabomber that same year And these are only the most notable examples As George Michael demonstrates in Lone Wolf Terror and the Rise of Leaderless Resistance they are not isolated cases Rather they represent the new way warfare will be conducted in the twenty first century Lone Wolf Terror investigates the motivations of

numerous political and ideological elements such as right wing individuals ecoextremists foreign jihadists and even quasi governmental entities In all these cases those carrying out destructive acts operate as lone wolves and small cells with little or no connection to formal organizations Ultimately Michael suggests that leaderless resistance has become the most common tactical approach of political terrorists in the West and elsewhere
