United States. Congress. Joint Economic Committee, 2002 **Insuring the Air Transport Industry Against Aviation War and Terrorism Risks and Allied Perils** Yaw Otu Mankata Nyampong, 2012-12-22 This book explores the central problems underlying the insurance of aviation war and terrorism risks and associated perils It critically analyses the reasons why conventional insurance markets are unwilling or unable to provide sustainable insurance coverage for aviation war and terrorism risks in the aftermath of catastrophic events such as the terrorist events of September 11 2001 It also examines some of the prominent concepts proposed and or implemented after 9 11 to determine whether and to what extent these concepts avoid identified pitfalls Like many of life s essentials the importance of insurance is most evident when it is not available The sheer scale and magnitude of the insurance losses that followed 9 11 caused conventional insurance markets which hitherto had been offering generous insurance coverage for aviation war and terrorism risks to air transport operators for little or no premium to withdraw coverage forthwith The ensuing absence or insufficiency of commercial insurance coverage for aviation war and terrorism risks has sparked a global search for viable and sustainable alternatives Ten years have since elapsed and despite numerous efforts the fundamental problems remain unresolved The book proceeds on the premise that the underlying issues are not entirely legal in nature they have immense economic psychological and policy implications that cannot be underestimated A multidisciplinary approach is therefore used in examining the issues drawing heavily upon analytical principles adapted from law and economics and behavioural law and economics It is hoped that the resulting study will be beneficial not only to lawyers and those interested in aviation insurance but also to economists air transport insurance program managers capital market investors and governmental policymakers both at the national and international levels [Hide!
