**The Contemporary Spanish-American Novel** Will H. Corral, Juan E. De Castro, Nicholas Birns, 2013-09-26 The Contemporary Spanish American Novel provides an accessible introduction to an important World literature While many of the authors covered Aira Bola o Castellanos Moya V squez are gaining an increasing readership in English and are frequently taught there is sparse criticism in English beyond book reviews This book provides the guidance necessary for a more sophisticated and contextualized understanding of these authors and their works Underestimated or unfamiliar Spanish American novels and novelists are introduced through conceptually rigorous essays Sections on each writer include the author's reception in their native country Spanish America

and Spain biographical history a critical examination of their work including key themes and conceptual concerns translation history scholarly reception The Contemporary Spanish American Novel offers an authoritative guide to a rich and varied novelistic tradition It covers all demographic areas including United States Latino authors in exploring the diversity of this literature and its major themes such as exile migration and gender representation The dome of thought William Hughes,2022-03-29 The dome of thought is the first study of phrenology based primarily on the popular rather than medical appreciation of this important and controversial pseudoscience With detailed reference to the reports printed in popular newspapers from the early years of the nineteenth century to the fin de siècle the book provides an unequalled insight into the Victorian public's understanding of the techniques assumptions and implications of defining a person's character by way of the bumps on their skull Highly relevant to the study of the many authors Wilkie Collins Charles Dickens and George Eliot among them whose fiction was informed by the imagery of phrenology The dome of thought will prove an essential resource for anybody with an interest in the popular and literary culture of the nineteenth century including literary scholars medical historians and the general reader Latin American Science Fiction M. Sacred Eroticism addresses a neglected chapter in Latin American literature namely the influence of Georges Bataille and Pierre Klossowski's atheist mysticism in the Latin American erotic novel of the twentieth century Combining a Lacanian analytical framework with an Inter textualist approach Juan Carlos Ubilluz reveals how Julio Cortazar Salvador Elizondo Mario Vargas Llosa and Juan Garcia Ponce adopted Sataille and Klossowski's aesthetic and philosophical models as a point of departure to rearticulate the modern subject's buried dimension of the sacred through various Innovations on the erotic novel's form Ubilluz examines the dialectical irruption of these literary experiments into their particular aesthetic theoretical and political contexts showing for instance that Cortazar's *The Routledge Companion to Gender, Sex and Latin American Culture* Frederick Luis Aldama, 2018-05-24 The Routledge Companion to Gender Sex and Latin American Culture is the first comprehensive volume to explore the intersections between gender sexuality and the creation consumption and interpretation of popular culture in the Americas The chapters seek to enrich our understanding of the role of pop culture in the everyday lives of its creators and consumers primarily in the 20th and 21st centuries They reveal how popular culture expresses the historical social cultural and political commonalities that have shaped the lives of peoples that make up the Americas and also highlight how pop culture can conform to and solidify existing social hierarchies whilst on other occasions contest and resist the status quo Front and center in this collection are issues of gender and sexuality making visible the ways in which subjects who inhabit intersectional identities sex gender race class are othered as well as demonstrating how these same subjects can and do use pop cultural phenomena in self affirmative and progressively transformative ways Topics covered in this volume include TV film pop and performance art hip hop dance slam poetry gender fluid religious ritual theater stand up comedy graffiti videogames photography graphic arts sports spectacles comic books sci fi and other genre novels loter a card games news web and digital media *City Fictions* Amanda Holmes, 2007 Using concepts from urban and cultural studies City Fictions examines the representation of the city in the works of five important late twentieth century Spanish American authors Octavio Paz Julio Cortazar Christina Peri Rossi Diamela Eltit and Carlos Monsavais While each of these authors is influenced at least partially by a specific Spanish American city be it Mexico City Buenos Aires Montevideo or Santiago the element that brings them together is the way in which the city is fictionalized in their work they all equate both language and the body with urban space In these metaphors language breaks down and the body disintegrates creating a disturbing picture of violent decline The poetry of Paz associates the urban surroundings with dissolving sentences and desensitized fingertips for Cortazar characters walking through cities are seen as both creating and unraveling written texts Creating the Hybrid Intellectual Anne Lambricht, 2007 A contribution to the study of Peruvian anthropologist and creative writer Jose Maria Arguedas It asserts that it is through reading the role and trajectory of the feminine in Arguedian narrative that we can best understand the author's national vision **Local Babies, Global Science** Marcia C. Inhorn, 2012-11-12 In the late 1990s Egypt experienced a boom period in in vitro fertilization IVF technology and now boasts

more IVF clinics than neighboring Israel In this book Marcia Inhorn writes of her fieldwork among affluent elite couples who sought in vitro fertilization in Egypt a country which is not only at the forefront of IVF technology in the Middle East but also a center of Islamic education in the region Inhorn examines the gender scientific religious and cultural ramifications of the transfer of IVF technology from Euro American points of origin to Egypt showing how cultural ideas reshape the use of this technology and in turn how the technology is reshaping cultural ideas in Egypt     Embodying Resistance Dianne Marie Zandstra,2007 This book traces narrative strategies in Griselda Gambaro s novels to the grotesco criollo and to the broader grotesque tradition These are analyzed with an emphasis on their critique of social relationships within the Argentine political system and male     Public Administration J. C. N. Raadschelders,2013-05-16 The book examines the history and development of public administration the study of the internal structure and functioning of government and its interaction with society and its citizens It surveys different approaches to the field and the methodological and epistemological issues surrounding an interdisciplinary applied social science     Home is where the (he)art is Sharon Magnarelli,2008 Sharon Magnarelli s contribution to the critical dialogue on Spanish American literature offers fresh new reading of plays that have already attracted significant critical attention as well as insightful analyses of others that have seldom been studied     **The ^AJoy of Pain** Richard H. Smith,2013-07-02 Few people confess easily to taking pleasure in the misfortunes of others Maybe this is why there is no word for the feeling in English And so schadenfreude that beguiling German word is borrowed to label the experience This book written by one of the world s foremost scholars of envy and shame explores the emotion we dare not admit Although schadenfreude is hardly a feeling to nourish in oneself or to encourage as a cultural habit Smith argues that there is no getting rid of it when the misfortunes of others can lead to our benefit Indeed schadenfreude can be sweet revenge when it is personal but as Smith argues in a fascinating exploration of anti semitism in the 20th century that concludes the book this passive thrill can lead to devastating consequences     **Out of Bounds** Dara E. Goldman,2008 Out of Bounds teases out the intricacies of a territorial conception of nationhood in the context of a global reorganization that ostensibly renders historical boundaries irrelevant Hispanic Caribbean writers have traditionally pointed toward the supposed perfect equivalence of island and nation and have explained local culture as a direct consequence of that equation The major social political and demographic shifts of the twentieth century increasingly call this equation into question yet authors continue to assert its existence and its centrality in the evolution of Caribbean identity The author contends that traditional forms of identification have not been eviscerated by globalization instead they have persisted and in some cases have been intensified by recent geopolitical shifts Out of Bounds underscores the ongoing role of the nation as the site of identity formation In this manner the book presents Hispanic Caribbean cultural production as a case study that acutely dramatizes the paradoxical status of traditional demarcations of self definition in an increasingly globalized context     Motherhood in Literature and Culture Gill Rye,Victoria Browne,Adalgisa Giorgio,Emily Jeremiah,Abigail Lee

Six, 2017-06-26 Motherhood remains a complex and contested issue in feminist research as well as public discussion This interdisciplinary volume explores cultural representations of motherhood in various contemporary European contexts including France Italy Germany Portugal Spain and the UK and it considers how such representations affect the ways in which different individuals and groups negotiate motherhood as both institution and lived experience It has a particular focus on literature but it also includes essays that examine representations of motherhood in philosophy art social policy and film The book's driving contention is that through intersecting with other fields and disciplines literature and the study of literature have an important role to play in nuancing dialogues around motherhood by offering challenging insights and imaginative responses to complex problems and experiences This is demonstrated throughout the volume which covers a range of topics including discursive and visual depictions of pregnancy and birth the impact of new reproductive technologies on changing family configurations the relationship between mothering and citizenship the shaping of policy imperatives regarding mothering and disability and the difficult realities of miscarriage child death violence and infanticide The collection expands and complicates hegemonic notions of motherhood as the authors map and analyse shifting conceptions of maternal subjectivity and embodiment explore some of the constraining and or enabling contexts in which mothering takes place and ask searching questions about what it means to be a mother in Europe today It will be of interest not only to those working in gender women's and feminist studies but also to scholars in literary and cultural studies and those researching in sociology criminology politics psychology medical ethics midwifery and related fields

**Staging Words, Performing Worlds** Gail A. Bulman, 2007 Staging Words presents new perspectives on Argentina Cuba Mexico and Venezuela and their theater by postulating that nation can be imagined and reconstructed through the deliberate performance of intertexts The book shows how past artistic texts other plays stories newspaper articles songs or paintings can be manipulated and translated to create a new theatrical script and that this new script can expose an innovative space for interpreting the nation The introduction reviews theories of intertextuality nation and nationalism and applies them to Latin America Each chapter studies two to three plays and shows how the intertexts open up hidden connections and border spaces within texts and between texts that the new writer and reader fill with significance replacing the meaning of the pretext with their own This new textual voice permits texts to be restaged reconfigured and imagined in a way that is purely Latin American

**Infertility around the Globe** Marcia Inhorn, Frank van Balen, 2002-05-30 This exceptional collection of essays breaks new ground by examining the global impact of infertility as a major reproductive health issue one that has profoundly affected the lives of countless women and men Based on original research by seventeen internationally acclaimed social scientists it is the first book to investigate the use of reproductive technologies in non Western countries Provocative and incisive it is the most substantial work to date on the subject of infertility With infertility as the lens through which a wide range of social issues is explored the contributors address a far reaching array of topics why infertility has been neglected in

population studies how the deeply gendered nature of infertility sets the blame squarely on women's shoulders how infertility and its treatment transform family dynamics and relationships and the distribution of medical and marital power The chapters present informed and sophisticated investigations into cultural perceptions of infertility in numerous countries including China India the nations of sub Saharan Africa Vietnam Costa Rica Egypt Israel the United States and the nations of Europe Poised to become the quintessential reference on infertility from an international social science perspective Infertility around the Globe makes a powerful argument that involuntary childlessness is a complex phenomenon that has far reaching significance worldwide
