English for Medical Science is written to fulfill students' needs to learn English for Specific Purposes. This book is designed to provide an opportunity to develop students' English skills more communicatively and meaningfully in academic context. It consists of twenty-eight units. Each unit presents reading, writing, and speaking sections. Reading section mainly consists of pre-reading, reading comprehension, and vocabulary exercises related to the topic of the text. However, some reading sections have additional authentic texts and their exercises. In writing section, some structures and sentence patterns are presented from the easiest to the most difficult exercises. Meanwhile, in speaking section, students are provided with models and examples followed by practical activities presented in various ways. The materials have been arranged and graded in accordance with students' language levels. To improve the quality of this textbook, criticisms and suggestions for better editions are highly appreciated.
