

The Testaments of Culhuacan

Sarah Cline*

Over 400 years ago a devastating epidemic swept through central Mexico, killing tens of thousands of indigenous people. During that epidemic of 1578–82, sixty-five men and women in the relatively small, if famous, Nahuatl settlement of Culhuacan dictated their last wills and testaments to Nahuatl notaries. Many other Nahuatl settlements of the time have left substantial records in the native language, but Culhuacan is unique in that a solid corpus of wills, now known as The Testaments of Culhuacan, has survived from a period of only a year or two. This group of wills in Nahuatl has been a rich source of information on local-level processes from an indigenous perspective. It continues to inform our understanding of the impact of the Spanish presence on a single indigenous community while also demonstrating the resilience of Nahuatl culture.

History of the project. The Culhuacan collection of wills appeared seemingly out of nowhere, a completely new corpus of Nahuatl documentation previously unknown to the scholarly community. Sometime in the early 1970s, Dr. Ignacio Pérez Alonso brought the Culhuacan documents to Dr. Miguel León-Portilla, the doyen of Nahuatl studies in Mexico, and gave him permission to photocopy the documents before donating them to the Universidad Iberoamericana library in Mexico City.

Don Miguel published a description of the corpus, with some samples, in *Escritos de Culhuacan Nahuatl* (León-Portilla 1976). Around that time, after I had passed my doctoral qualifying exams at UCLA, the expectation was that I would write my dissertation on the early sixteenth-century Cuernavaca censuses. Jim Lockhart, my director, having great respect for the extraordinary difficulty and recalcitrance of that material, and also seeing the magnitude of the project of publishing the entire Testaments of Culhuacan, went to León-Portilla with a proposal to which the latter readily agreed: that I would be furnished photocopies of the testaments, that I would gradually transcribe and provisionally translate them toward an edition by myself and León-Portilla, and that at the same time I would use them as the primary basis for a dissertation in ethnohistory.

I had no clear idea of what I was getting into, but the project sounded intriguing. My experience in Jim's paleography class made the task of transcribing the testaments appear a relatively straightforward process. I say that because sixteenth-century Nahuatl material hands are quite legible compared to the Spanish notaries' scripts. But colonial Nahuatl presents its own challenges with its lack of divisions between what we consider words, capricious or absent punctuation, and standardized as well as idiosyncratic abbreviations. I can't remember which document I started with, but I do remember the process: write out the transcription as best I could by hand, type it on my portable electric typewriter, keeping at any point my bundle of whole-cut (a revolutionary invention at the time!), I would send these provisional transcriptions to Jim and wait for the

colonial era scattering of the Americas Indigenous peoples Formations of Belief Philip Nord, Katja Guenther, Max Weiss, 2019-09-17 For decades scholars and public intellectuals have been predicting the demise of religion in the face of secularization Yet religion is undergoing an unprecedented resurgence in modern life and secularization no longer appears so inevitable Formations of Belief brings together many of today's leading historians to shed critical light on secularism's origins its present crisis and whether it is as antithetical to religion as it is so often made out to be Formations of Belief offers a more nuanced understanding of the origins of secularist thought demonstrating how Reformed Christianity and the Enlightenment were not the sole vessels of a worldview based on rationalism and individual autonomy Taking readers from late antiquity to the contemporary era the contributors show how secularism itself can be a form of belief and yet how its crisis today has been brought on by its apparent incapacity to satisfy people's spiritual needs They explore the rise of the humanistic study of religion in Europe Jewish messianism atheism and last rites in the Soviet Union the cult of the saints in colonial Mexico religious minorities and Islamic identity in Pakistan the neuroscience of religion and more Based on the Shelby Cullom Davis Center Seminars at Princeton University this incisive book features illuminating essays by Peter Brown Yaacob Dweck Peter E Gordon Anthony Grafton Brad S Gregory Stefania Pastore Caterina Pizzigoni Victoria Smolkin Max Weiss and Muhammad Qasim Zaman The Nahuas After the Conquest James Lockhart, 1994-09-01 A monumental achievement of scholarship this volume on the Nahua Indians of Central Mexico often called Aztecs constitutes our best understanding of any New World indigenous society in the period following European contact Simply put the purpose of this book is to throw light on the history of Nahua society and culture through the use of records in Nahuatl concentrating on the time when the bulk of the extant documents were written between about 1540-50 and the late eighteenth century At the same time the earliest records are full of implications for the very first years after contact and ultimately for the preconquest epoch as well both of which are touched on here in ways that are more than introductory or ancillary Nahuas and Spaniards James Lockhart, 1991 The Nahua Indians of central Mexico often misleadingly called Aztecs after the quite ephemeral confederation that existed among them in late pre-Hispanic times were the most populous of Mesoamerica's cultural-linguistic groups at the time of the Spanish conquest They remained at the center of developments for centuries thereafter since the bulk of the Hispanic population settled among them and they bore the brunt of cultural contact This collection of thirteen essays five of them previously unpublished by the leading authority on the postconquest Nahuas and Nahua-Spanish interaction brings together pieces that reflect various facets of the author's research interests Underlying most of the pieces is the author's pioneering large-scale use of Nahua manuscripts to illuminate the society and culture of native Mexicans in the Spanish colonial period The picture of the Nahuas that emerges shows them far less at odds with the colonial world from what is useful to them and far more capable of maintaining their own pre-conquest identity than has previously been suggested **The Aztecs at Independence** Miriam Melton-Villanueva, 2022-06-14 This ethnohistory uses

colonial era native language texts written by Nahuas to construct history from the indigenous point of view The book offers the first internal ethnographic view of central Mexican indigenous communities in the critical time of independence when modern Mexican Spanish developed its unique character founded on indigenous concepts of space time and grammar The Aztecs at Independence opens a window into the cultural life of writers leaders and worshippers Nahua women and men in the midst of creating a vibrant community

Honor and Personhood in Early Modern Mexico Osvaldo F. Pardo, 2015-09-24 Osvaldo F Pardo examines the early dissemination of European views on law and justice among Mexico's native peoples Newly arrived from Spain in the sixteenth and seventeenth centuries mendicant friars brought not only their faith in the authority of the Catholic Church but also their reverence of the monarchy Drawing on a rich range of documents dating from this era including secular and ecclesiastical legislation legal and religious treatises bilingual catechisms grammars on indigenous languages historical accounts and official reports and correspondence Pardo finds that honor as well as related notions such as reputation came to play a central role in shaping the lives and social relations of colonists and indigenous Mexicans alike Following the application and adaptation of European ideas of justice and royal and religious power as they took hold in the New World Pardo sheds light on the formation of colonial legalities and long lasting views both secular and sacred that still

inform attitudes toward authority in contemporary Mexican society

Angels, Demons and the New World Fernando Cervantes, Andrew Redden, 2013-02-07 When European notions about angels and demons were exported to the New World they underwent remarkable adaptations Angels and demons came to form an integral part of the Spanish American cosmology leading to the emergence of colonial urban and rural landscapes set within a strikingly theological framework Belief in celestial and demonic spirits soon regulated and affected the daily lives of Spanish Indigenous and Mestizo peoples while missionary networks circulated these practices to create a widespread and generally accepted system of belief that flourished in seventeenth century Baroque culture and spirituality This study of angels and demons opens a particularly illuminating window onto intellectual and cultural developments in the centuries that followed the European encounter with America The volume will be of interest to scholars and students of religious studies anthropology of religion history of ideas Latin American colonial history and church history

Postconquest Coyoacan Rebecca Horn, 1997 Nahua Spanish contact was not limited to formal political and economic settings The author describes the development of Spanish estates and the market economy which opened up a new arena of cultural contact in the countryside In bringing Nahuas and Spaniards together in this study the book explores the changing contours of their relationship in Central Mexico emphasizing informal interethnic contact in the making of both the Spanish colonial economy and postconquest Nahua society

Before Guadalupe Louise M. Burkhart, 2001 The introduction of the Virgin Mary to the native peoples of Mexico is often closely associated with Our Lady of Guadalupe the principal Mexican Marian devotion Historical evidence indicates that the Mexican shrine was not established until the 1560s the legend was virtually unknown until its initial publication in Spanish in 1648 and in Nahuatl the following year and native people did not participate in the devotion to any

extensive degree until after the mid seventeenth century How then was devotion to the Virgin actually introduced to Nahuas during the first decades of Christian evangelization This book addresses this question through the presentation of Nahuatl language devotional texts relating to Mary texts through which Nahuas learned about the Virgin and expressed their own developing devotion to her The wide range of Nahuatl literature on the Virgin shows that Nahuas were introduced to and to varying degrees participated in the full blown medieval and Renaissance devotion to Mary adapted into their own language Native scholars participated in the composition of much of this material Nahuatl text and English translation are presented in parallel columns Each text is preceded by introductory commentary that explicates the European background of the material and its new meanings and uses in the Mexican context

The Life Within Caterina Pizzigoni, 2013-01-09 The Life Within provides a social and cultural history of the indigenous people of a region of central Mexico in the later colonial period as told through documents in Nahuatl and Spanish It views the indigenous world from the inside out focusing first on the household buildings lots household saints and expanding outward toward the householders and the greater community The internal focus of this book provides a comprehensive picture of indigenous society exploring the categories by which people are identified their interactions their activities and the aspects of the local corporations that manifest themselves in household life Pizzigoni brings indigenous language social history into the later colonial period whereas the emphasis until now has fallen heavily on the earlier phase The late seventeenth and eighteenth centuries emerge as a dynamic time that saw along with cultural persistence many new adaptations and creations Covering a period of over a century and a half this study goes beyond a monolithic treatment of the region to introduce for the first time a systematic analysis of subregional variation in vocabulary and real life phenomena showing how within larger regional trends each tiniest community of the Toluca Valley retained markers of its individuality
