Volume II Serge D. Elie, 2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island's rediscovery based on the global significance of its endemic biodiversity The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra's transition process through a discussion of the first two economic disarticulation and political incorporation This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural modernization and environmental annexation These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqatra's transformation process is unfolding The origin of these vectors is situated within Soqatra's long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography The legacy is a symbolic curse which has made Soqatra into an ideal playground for fantasist cultural or environmental experiments Accordingly this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization dissonant linguistic attitudes alienating consumption practices divergent religious affiliations and differentiating economic aspirations Second it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm a pastoral ecotopia as a blueprint of their future
