hope but also of peril It began when our nation s polarized political class started conscripting everyday citizens into its culture war From their commanding heights in political parties media academia and government these partisans have attacked one another for years but increasingly they ve convinced everyday Americans to join the fray Why should we feel such animosity toward our fellow citizens our neighbors even our own kin Because we ve fallen for the false narrative eagerly promoted by pundits on the Left and the Right that citizens who happen to vote Democrat or Republican are enthusiastic supporters of Team Blue or Team Red Aside from a minority of party activists and partisans however most voters are simply trying to choose the lesser of two evils The real threat to our union isn t Red vs Blue America it s the quiet collusion within our nation s political class to take away that most American of freedoms our right to self governance Even as partisans work overtime to divide Americans against one another they ve erected a system under which we ordinary citizens don t have a voice in the decisions that affect our lives From foreign wars to how local libraries are run authority no longer resides with We the People but amongst unaccountable officials The political class has stolen our birthright and set us at one another s throats This is the story of how that happened and what we can do about it America stands at a precipice but there s still time to reclaim authority over our lives and communities

*The Great American Rip-Off* Susan M. Finley, 2008 This book gives the reader a look at the complicated U S health care system through the eyes of a consumer It explores two key questions Why with all of the resources that have been devoted to solving the health care crisis does the situation continue to deteriorate And what exactly could be done differently this time to turn the situation around The author examines obstacles that have stood in the way of health care reform in the past including politics government red tape profit driven providers moneyed lobbyists and special interest groups and even our own consumer entitlement mentality and challenges the reader to envision a scenario in which innovation in health care might be possible The author argues that consumers are the key to forward progress on health care we ll only see consumer driven solutions when enough people demand them This book is a challenge to consumers to speak up and hold our leaders in the medical community the government and corporate America accountable for developing solutions that work for us Susan M Finley is a small business owner and marketing strategist She began her career as a bank product manager and in 1994 co founded Michaelson Kelbick Partners Inc MKP a firm specializing in marketing and communications for the financial services industry Over the course of a decade the agency managed marketing communications for some of the largest bank mergers in recent history In 2003 she left MKP now renamed mkp communications inc Her knowledge and understanding of the complicated U S health care financing system comes from a three year research and consulting project started in the hopes of serving as a catalyst for consumer driven changes in health care She lives in North Carolina where she and her husband have recently founded Finley and Finley LLC to continue their research on potential avenues for innovation in the health care and financial services industries
