Utopia and Dystopia in the Age of Trump Barbara Brodman, James E. Doan, 2019-06-04 Utopia and Dystopia in the Age of Trump Images from Literature and Visual Arts treats literature film television series and comic books dealing with utopian and dystopian worlds reflecting on or anticipating our current age From Henry James's dreamlike utopia of The Great Good Place to the psychotic world of Brett Easton Ellis's American Psycho from science fiction and recent horror films television adaptations of books such as Margaret Atwood's The Handmaid's Tale and new series such as Black Mirror to the repressive Hitlerian dystopia of Katherine Burdekin's Swastika Night the contributors examine the development of scenarios that either prefigure the rise of individuals such as Donald J. Trump or suggest alternatives to them Ultimately one might say of the worlds presented here viewed from different social and political perspectives one person's utopia is another's dystopia This is the fifth in a series of books edited by Barbara Brodman and James E. Doan and published by Rowman Littlefield with Fairleigh Dickinson University Press The Universal Vampire Origins and Evolution of a Legend and Images of the Modern Vampire The

**Dimension** Mark Blacklock, 2018-04-05 The Emergence of the Fourth Dimension describes the development and proliferation of the idea of higher dimensional space in the late nineteenth and early twentieth centuries An idea from mathematics that was appropriated by occultist thought it emerged in the fin de siècle as a staple of genre fiction and influenced a number of important Modernist writers and artists Providing a context for thinking of space in dimensional terms the volume describes an active interplay between self fashioning disciplines and a key moment in the popularisation of science It offers new research into spiritualism and the Theosophical Society and studies a series of curious hybrid texts Examining works by Joseph Conrad Ford Madox Ford H G Wells Henry James H P Lovecraft and others the volume explores how new theories of the possibilities of time and space influenced fiction writers of the period and how literature shaped and was in turn shaped by the reconfiguration of imaginative space occasioned by the n dimensional turn A timely study of the interplay between philosophy literature culture and mathematics it offers a rich resource for readers interested in nineteenth century literature Modernist studies science fiction and gothic scholarship *The City Creative* Michael H. Carriere, David Schalliol, 2021-04-18 In the wake of the Great Recession American cities from Philadelphia to San Diego saw an upsurge in hyperlocal placemaking small scale interventions aimed at encouraging greater equity and community engagement in growth and renewal But the projects that were the most successful at achieving these lofty ambitions weren't usually established by politicians urban planners or real estate developers they were initiated by community activists artists and neighbors In order to figure out why The City Creative mounts a comprehensive study of placemaking in urban America tracing its intellectual history and contrasting it with the efforts of people making positive change in their communities today Spanning the 1950s to the post recession 2010s The City Creative highlights the roles of such prominent individuals and organizations as Jane Jacobs Christopher Alexander Richard Sennett Project for Public Spaces and the National Endowment for the Arts in the development of urban placemaking both in the abstract and on the ground But that's only half the story Bringing the narrative to the present Michael H Carriere and David Schalliol also detail placemaking interventions at more than 200 sites in more than 40 cities combining archival research interviews participant observation and Schalliol's powerful documentary photography Carriere and Schalliol find that while these formal and informal placemaking interventions can bridge local community development and regional economic plans more often than not they push the boundaries of mainstream placemaking Rather than simply stressing sociability or market driven economic development these initiatives offer an

alternative model of community led progress with the potential to redistribute valuable resources while producing tangible and intangible benefits for their communities The City Creative provides a kaleidoscopic overview of how these initiatives grow and sometimes collapse illustrating the centrality of placemaking in the evolution of the American city and how it can be reoriented to meet demands for a more equitable future
