Courts, 1845 *In Search of Authenticity* Jacob Golomb, 2012-11-12 Great philosophers such as Kierkegaard Nietzsche and Sartre have clearly been preoccupied by the possibility of authenticity In this study Jacob Golomb looks closely at the literature and writings of these philosophers in his analysis of their ethics Golomb's writings shows his passionate commitment to the quest for the authenticity particularly in our climate of post modern scepticism He argues that existentialism is all the more pertinent and relevant today when set against the general disillusionment which characterises the late twentieth century This book is invaluable reading for those who have been fascinated by figures like Camus's Meursault Sartre's Matthieu and Nietzsche's Zarathustra Animal Spirits George A. Akerlof, Robert J. Shiller, 2010-02-01 From acclaimed economists George Akerlof and Robert Shiller the case for why government is needed to restore confidence in the economy The global financial crisis has made it painfully clear that powerful psychological forces are imperiling the wealth of nations today From blind faith in ever rising housing prices to plummeting confidence in capital markets animal spirits are driving financial events worldwide In this book acclaimed economists George Akerlof and Robert Shiller challenge the economic wisdom that got us into this mess and put forward a bold new vision that will transform economics and restore prosperity Akerlof and Shiller reassert the necessity of an active government role in economic policymaking by recovering the idea of animal spirits a term John Maynard Keynes used to describe the gloom and despondence that led to the Great Depression and the changing psychology that accompanied recovery Like Keynes Akerlof and Shiller know that managing these animal spirits requires the steady hand of government simply allowing markets to work won't do it In rebuilding the case for a more robust behaviorally informed Keynesianism they detail the most pervasive effects of animal spirits in contemporary economic life such as confidence fear bad faith corruption a concern for fairness and the stories we tell ourselves about our economic fortunes and show how Reaganomics Thatcherism and the rational expectations revolution failed to account for them *Animal Spirits* offers a road map for reversing the financial misfortunes besetting us today Read it and learn how leaders can channel animal spirits the powerful forces of human psychology that are afoot in the world economy today In a new preface they describe why our economic troubles may linger for some time unless we are prepared to take further decisive action
