The Great Reversal The Privatization Of China 1978 1989:

The Great Reversal, 2016 *Great Reversal* William Hinton, 1990 The Great Reversal is the first critical study of the widely heralded reforms currently transforming China's economy. From his long experience in Chinese agriculture, Hinton first examines the course of agricultural reform over the past decade, then looks at its consequences in different areas of the countryside and considers its implications for the country as a whole. He raises troubling questions about China's capitalist future: the growing landlessness, increasing inequality, and above all, the destruction of the nation's natural resources and the collectively built infrastructure that was the great achievement of the revolution. In so doing, he sheds new light on the sources of discontent behind the demonstrations that culminated in the Tiananmen massacre of June 1989. Recognized inside and outside China as an expert on the country's agriculture, Hinton spent five or six months there every year but one since 1978, when the wave of reform was first introduced. He witnessed the events of June 1989 first hand. This experience gives authority to an analysis that digs deeper and more widely than anything else available. His essays open up a new perspective on Mao and his successors, one that has been totally obscured by the Western media.

Negotiating Identities Ildikó Bellér-Hann, 2015 The ten chapters of this book, all of them published previously in specialist works, derive from the author's ethnographic research among the Uyghur of Xinjiang and Kazakhstan in the mid 1990s. Approaching beliefs and practices as politically embedded, the articles have historical value in documenting the possibilities and constraints of fieldwork in this region in the 1990s. They also offer a point of departure for new studies of the Uyghur and their relations with their neighbors in the increasingly difficult conditions which characterize the early twenty-first century. Series: *Halle Studies in the Anthropology of Eurasia*, Vol. 31. Subject: *Sociology, Anthropology*.

Ten Lessons in Modern Chinese History Zheng Yangwen, 2018-04-25 This book is a timely and solid portrait of modern China from the First Opium War to the Xi Jinping era. Unlike the handful of existing textbooks that only provide narratives, this textbook fashions a new and practical way to study modern China. Written exclusively for university students, A-level or high school teachers and students, it uses primary sources to tell the story of China and introduces them to existing scholarship and academic debate so they can conduct independent research for their essays and dissertations. This book will be required reading for students who embark on the study of Chinese history, politics, economics, diaspora, sociology, literature, cultural, urban, and women's studies. It would be essential reading to journalists, NGO workers, diplomats, government officials, businessmen, and travellers.

The SAGE Handbook of Social Anthropology Richard Fardon, Oliva Harris, Trevor H. J. Marchand, Cris Shore, Veronica Strang, Richard Wilson, Mark Nuttall, 2012-07-25 In two volumes, the SAGE Handbook of Social Anthropology provides the definitive overview of contemporary research in the discipline. It explains the what, where, and how of current and anticipated work in Social Anthropology. With 80 authors contributing more than 60 chapters, this is the most comprehensive and up-to-date statement of research in Social Anthropology available and the essential point of departure for future projects. The Handbook is divided

into four sections Part I Interfaces examines Social Anthropology's disciplinary connections from Art and Literature to Politics and Economics from Linguistics to Biomedicine from History to Media Studies Part II Places examines place region culture and history from regional area studies to a globalized world Part III Methods examines issues of method from archives to war zones from development projects to art objects and from ethics to comparison Part IV Futures anticipates anthropologies to come in the Brain Sciences in post Development in the Body and Health and in new Technologies and Materialities Edited by the leading figures in social anthropology the Handbook includes a substantive introduction by Richard Fardon a think piece by Jean and John Comaroff and a concluding last word on futures by Marilyn Strathern The authors each at the leading edge of the discipline contribute in depth chapters on both the foundational ideas and the latest research Comprehensive and detailed this magisterial Handbook overviews the last 25 years of the social anthropological imagination It will speak to scholars in Social Anthropology and its many related disciplines **Competing Economic**

Paradigms in China Steven Mark Cohn, 2017-09-05 When the Chinese economic reforms began in 1978 Marxist economics infused all the institutions of economic theory in China from academic departments and economics journals to government departments and economic think tanks By the year 2000 neoclassical economics dominated these institutions and organized most economic discussion This book explains how and why neoclassical economic theory replaced Marxist economic theory as the dominant economics paradigm in China It rejects the idea that the rise of neoclassical theory was a triumph of reason over ideology and instead using a sociology of knowledge approach links the rise of neoclassical economics to broad ideological currents and to the political economic projects that key social groups inside and outside China wanted to enable The book concludes with a discussion of the nature of economic theory and economics education in China today Chinese Families in the Post-Mao Era Deborah Davis, Stevan Harrell, 1993-10-02 This collection of essays concerns both urban and rural Chinese communities ranging from professional to working class families The contributors attempt to determine whether and to what extent the policy shifts that followed Mao Zedong's death affected Chinese families China Under Communism Alan Lawrance, 2002-09-11 China Under Communism examines how Marxism took root flourished and developed within the context of an ancient Chinese civilization Through analysis of China's history and traditional culture the author explores the nature of Chinese communism and how it has diverged from the Soviet model This book also provides insight into the changing perceptions Westerners have of the Chinese and vice versa Key features include assessment of controversial issues The Great Leap Forward the Cultural Revolution and Mao's record coverage of gender and family ethnicity nationalism and popular culture long historical context This timely evaluation details how China's political and economic policies have been inextricably linked and assesses past failures and successes as well as major problems for the future **The Spiral of Capitalism and Socialism** Terry Boswell, Christopher K. Chase-Dunn, 2000 At the core of this book is the argument that though the word socialism is widely held in disdain in the current discourse about the world's past and

its future the idea of socialism as collective rationality and popular democracy is far from dead **Radical Political**

Economy: A Concise Introduction Charles A. Barone, 2015-03-26 This straightforward introduction to radical political economy strikes a balance between breadth and depth and was written for the beginning student and others interested in a relatively short text on radical economics Fanshen William Hinton, Fred Magdoff, 2008-04 More than forty years after its initial publication William Hinton's Fanshen continues to be the essential volume for those fascinated with China's revolutionary process of rural reform and social change A pioneering work Fanshen is a marvelous and revealing look into life in the Chinese countryside where tradition and modernity have had both a complimentary and caustic relationship in the years since the Chinese Communist Party first came to power It is a rare concrete record of social struggle and transformation as witnessed by a participant Fanshen continues to offer profound insight into the lives of peasants and China's complex social processes Rediscover this classic volume which includes a new preface by Fred Magdoff **When Ads**

Work John Philip Jones, 2007 The accepted wisdom in advertising is that ad campaigns are good for building brand recognition and good will but not for immediate sales impact When Ads Work argues the opposite that well planned and well executed advertising campaigns can and should have an immediate impact on sales Featuring numerous examples from recent ad campaigns the new edition of this popular book is a model for any successful advertising research program With a device he calls STAS Short Term Advertising Strength a measure of the immediate effect of advertising on sales the author demonstrates th The Cultural Revolution at the Margins Yiching Wu, 2014-06-09 The Cultural Revolution began from

above yet it was students and workers at the grassroots who advanced the movement's radical possibilities by acting and thinking for themselves Resolving to suppress the resulting crisis Mao set events in motion in 1968 that left out in the cold those rebels who had taken it most seriously Yiching Wu shows **Power Restructuring In China And Russia** Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher's power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and

reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics *The Land Question in China* Shaohua

Zhan,2019-01-15 This book interrogates the inevitability and practicability of full scale land intensive capitalist agriculture in China whilst analyzing the labor intensive industrious revolution as an alternative rural development path It presents a critical account of the recent rise of agrarian capitalism as a force that would undermine hundreds of millions of people s livelihoods in the populous country The Land Question in China traces the roots of the industrious revolution in China back to the eighteenth century drawing comparisons between contemporary rural development and economic prosperity in the mid Qing dynasty In the context of neoliberal restructuring it argues that vigorous rural development with broad access to land offers a solution to mitigate precarious urban employment and population pressure while the transfer of land from villagers to large producers and urban investors will exacerbate these problems Comparisons with South Africa and the East Asian economies of Japan South Korea and Taiwan further illustrate this and help to develop a new interpretation of the industrious revolution and its contemporary relevance Providing a critical examination of the new land reform in China from a world historical perspective this book will be useful to students and scholars of sociology economics and development as well as Chinese Studies **Workers' Democracy in China's Transition from State Socialism , Governance, Social**

Organisation and Reform in Rural China H. He,2016-02-03 This study focuses upon governance and social organisation within the Chinese village and explores the extent to which farmers have autonomy vis vis their economic and political activities in an attempt to understand the relationship between farmers and the state in a rapidly changing China **Mao**

Zedong & China's Foreign Policy Amrita Jash,2025-07-22 This book analyses China s foreign policy from 1949 to 1976 through a cognitive perceptual lens emphasise Mao Zedong s central role as the primary decision making authority Moving beyond realist frameworks it highlights how Mao s ideological worldview shaped by his theory of contradictions revolutionary zeal and use of historical analogies drove China s foreign policy particularly in relation to Vietnam His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China s historical identity guided key strategic decisions The study underscores the importance of individual leaders beliefs perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches China beyond the Headlines Lionel M. Jensen,Timothy B. Weston,2000-03-22 This unique book takes the

reader Obeyond the headlinesO to explore a China few Westerners have seen The authors argue that the great gap between what specialists understand and the general public believes has led to distorted and potentially dangerous misunderstandings of China Seeking to bridge that gap a group of prominent scholars and activists challenge readers to move past the usual images of China presented by the media and to think about the common problems shared by China and

the United States In a morally engaged spirit they explore such issues as environmental degradation unemployment growing inequality ethnicity human rights corruption and changing images of women to bring to life the fabric of contemporary Chinese life and how it twines around the political consciousness of Americans **Challenges and Policy Programmes of China's New Leadership** Joseph Y. S. CHENG, 2007-04-01 This volume analyzes the new leadership's perceptions of the challenges facing it how it defines its priorities builds up political support for its policy programmes and overcomes the resistance of vested interests Attempts will also be made to evaluate its achievements so far Published by City University of Hong Kong Press
