**The Philosophy of Natural Theology** William B. Jackson, 2000 Example in this ebook The Essay now published is the expansion of a thin volume by the present writer which was printed more than four years ago Natural Theology considered as a science had been at that time pronounced extinct and impossible by very eminent authorities From this decision I felt myself constrained to differ and thought it worth while to put on record a plea for what appeared to me an unduly neglected branch of Philosophy Such contempt of a pursuit possessing so many claims on the favourable attention of

educated minds seemed a fact to be accounted for in some way After considerable thought I ventured on asserting that the method latterly employed in treatises on this once popular science furnished the true reason of its decline and fall That method I could not avoid condemning as both inadequate and suicidal The publication of my Sermon in 1870 was followed by a number of letters and critiques from scientific and literary men Not one amongst them alleged any worse fault than novelty against the matter of my book and undue compression against its manner Many of their remarks were of the most encouraging description and affected me deeply by reason of the celebrity of their writers whom I had previously known only by their works and their reputation One most generous letter from the Author who above all others had called my own intellectual life into active energy excited in my mind a warmth of feeling absolutely indescribable When therefore a Prize on this subject was offered for adjudication subject to the appointment of my own University I felt glad to embrace an occasion which might be called in the truest sense an Opportunity What I have produced is to be found in the following pages When engaged in writing them it was my most anxious wish and endeavour to be honest to advocate what I thought and still think true without disguising the difficulties of my own conclusion or assailing its antagonists by gratuitous insinuations or unfairnesses of any sort Should such a meanness appear I would earnestly desire the leaf on which it is printed to be torn from my book The delays which have befallen these pages since they were first sent to press in the former half of 1873 have caused much regret to both author and publishers Our troubles began with a singular misadventure to a quantity of MS which together with other circumstances delayed printing till after the time originally fixed for publication The next season was lost in consequence of severe domestic affliction Those of my readers who have ever gone into print will most readily commiserate the anxiety caused by such unlooked for disappointments The ensuing line of argument was suggested to my mind when a young Oxonian in consequence of circumstances with which it is needless to trouble my readers What I then thought its special strength lay in the point of its combining two totally different kinds of proof one drawn from a survey of the world we live in the other from what is nearer to ourselves the moral truth given us by our personal consciousness I also thought that any particular weakness alleged against one proof could not be incident to the other and therefore that since both lines of evidence kept apart while under examination met at last in one and the same result my inquiry had arrived at a demonstrably certain conclusion At the same time I could not but feel a wholesome distrust of my reasonings on a subject which though often discussed had never as I then believed been looked at exactly from my own point of view To be continue in this ebook
